CONNAUGHT'S APPOINTMENT

Marks Final Stage of Canadian Evolution. A Notable Editorial Deliverance

Special to The Guardian. LONDON, Jan. 30—Among the editorial expressions of approval of the Duke of Connaught's appointment as Governor General of Canada that of the Morning Post is noteworthy. It says the appointment marks a final stage of the evolution of the Dominion from a Colony into a Nation of equal status with the United Kingdom and constitutionally connected with it by no other than allegiance to a common Sovereign. There is no reason, excluding tradition and convenience, why the King should not reside in Canada and delegate his duties in the United Kingdom to a distinguished member of his house. Some such development might, if the Empire held together, occur in the future, when the Dominion will out-class Britain in population and power. The Post thinks fixing the Duke's tenure of office initially at two years instead of the usual five years, means that the step is to be regarded as experimental, adding that assuredly it is a momentous experiment.

DESECRATOR OF CHURCHES CONFESSES TO CLEAN OUT

BIDDEFORD, Me., Jan. 26—Late Wednesday night the Rev. G. Howard Newton, pastor of the First Baptist Church in this city, discovered that his church had been broken into and in the auditorium an ancient clock on the wall demolished with an axe. The hymn board at the side of the pulpit, the announcement board near the door and one over the entrance to the vestry, which is also used by the French Protestant mission, smashed to kindling wood and found by the side of the furnace. The clock in the vestry, a picture (Continued on page 8.)

LONDON TO SPEND \$75,000,000 TO IMPROVE HARBOR

LONDON, Jan. 27—With a view to restoring London's lost importance as a shipping port, the recently constituted "port of London authority" is considering a vast scheme for improvements in the River Thames. Docking facilities, involving an expenditure of nearly \$75,000,000, are contemplated. The work to occupy twenty years. The plan includes the dredging of the river mouth to 1,000 feet wide and over 30 feet in depth at Tilbury in the stretch used by the big liners, narrowing gradually to 450 feet wide and 14 feet deep at Lower river side pontoon at Tilbury for embarking and disembarking passengers; building dry docks to accommodate the largest vessels and improving railway facilities.

IMPROVED HIGHWAY FROM NEW YORK TO MONTREAL

ALBANY, N. Y., Jan. 27—Two Bills, carrying appropriations of \$2,200,000 for "Good Roads" improvement were reported favorably by the Senate Finance Committee yesterday. One of the Bills by Senator Emerson calls for \$3,000,000 for the improvement of ninety miles of highways, with a view of making a connecting link of improved roads from New York to Roseton Point, it being understood that the Quebec Government will later provide for a "Good Roads" system from Roseton Point to Montreal, thus establishing an improved highway system from New York to Montreal.

STOP THAT THOUGHT

It was in your mind all day yesterday and it may be perfectly miserable. Over and over again you passed through all the unpleasant scenes, heard all the cruel words that were spoken, suffered again all the painful feelings, and succeeded in spoiling the day, undoing yourself for your work, and destroying all happiness out of your heart. Are you going to continue it all day today, and by so doing waste more of your life in the foolish habit of tormenting yourself now because someone made you unhappy in the past? That thought has no more right in your mind than a hog has in your parlor, or a black snake has in your bedroom. You can think you cannot stop it, but you can, as it is only a

AN EXHIBITION FOR JAMACIA

Special to The Guardian. KINGSTON, Jamaica, Jan. 30—The Chamber of Commerce is considering a proposal to recommend the holding of a big exhibition in this city in 1915, coincident with the formal opening of the Panama Canal.

POET KIPLING'S FATHER DEAD

Special to The Guardian. LONDON, Jan. 30—John Lockwood Kipling, father of Rudyard Kipling, died here today. Mrs. Kipling died only a few weeks ago.

GLOUCESTER PREPARING FOR A FIGHT

GLOUCESTER, Mass., January 27—Special sessions of the city council, the board of trade and the master mariners' association, the last two meeting jointly, were held today, at which steps were taken toward a united opposition to that part of the proposed reciprocity treaty which deals with fish. The city council adopted resolutions which declared that the proposed treaty is inimical to the welfare of the city of Gloucester and to other ports on the New England coast which depend upon the fisheries. Copies were forwarded at once to President Taft and to Senators Lodge and Crane, and Massachusetts congressmen.

DR. COOK RETURNS TO LECTURE PLATFORM

NEW YORK, Jan. 27—After an interval of silence, Dr. Frederick A. Cook, the explorer, took the lecture platform again last night, and to the German American pioneer club of Harlem announced that he is now more positive than ever that he has reached the Pole; that he is personally as positive as it is humanly possible to be. Within his own bosom there is "the satisfying thump of success," he said, "but at the same time the geographical proof that any one man, himself or commander Peary, stood at the exact apex of the earth can never be laid before the 'armchair geographers.'"

SETS CLOTHING OF FIANCEE ON FIRE

BLOOMINGTON, Ind., Jan. 26—Charged with attempting to murder his sweetheart, Lillie Lifford, 17, of Ellettsville, by pouring coal oil on her clothes and then applying a match, Louis Skelton, 26, of Smithville, is in jail here, having been arrested this afternoon at Steinsville by Sheriff Browning. The whole matter is still in doubt, the doctor insists, except for his belief that he has as good a right to claim the pole for his than Peary.

COMMUNICATION WITH MAINLAND

Special to The Guardian. TORONTO, Jan. 31—Decreasing northerly and westerly winds; fair and decidedly colder. The coldest last night and up to three o'clock this morning was nineteen degrees above zero; the warmest in the same period was forty-seven degrees above and at three o'clock this morning it was twenty degrees above. The lowest temperature recorded yesterday was thirty three and one-half degrees above zero and the highest was thirty-seven above up till nine p.m. The lowest recorded the previous night was twelve degrees above. The length of today will be nine hours and forty-three minutes. The sun sets this afternoon at 5:05 and rises tomorrow morning at 7:21. The moon rises this morning at 6:26.

A Hot Shot on Home Shopping. People who send their money to foreign mail order houses without giving home stores a chance are enemies to themselves. Minard's Liniment cures Diphtheria. Minard's Liniment cures Distemper.

MCCURDY'S REMARKABLE FLYING TRIP

From Key West to Havana. Alighting in Water On the Way Over

Special to The Guardian. KEY WEST, Jan. 30—The weather conditions proving favorable, McCurdy, the Canadian aviator left here soon after seven o'clock this morning on his flight to Havana. When twenty-two miles out McCurdy alighted on the water and was picked up by the cruiser Paulding. From the cruiser's deck he made a fresh start and flying at high speed soon covered the remaining portion of the journey. Upon reaching land the aviator found his supply of lubricating oil running short and this necessitated his making a landing ten miles from his destination. The flight is regarded as remarkably successful and spectacular. Immense crowds gathered watching start and in Havana as well, great interest prevailed.

AWFUL FATE OF AN OLD FARMER

Special to The Guardian. WINDSOR, Ont., Jan. 30—Twelve hours after he had been missed from home, the mutilated body of James Calder, aged sixty years, was found lying face downward in his hog pen. The discovery was made by Mrs. Calder, who, alarmed at her husband's long absence, started in search of him. The man had evidently become unconscious and fell among the swine who ate his flesh.

VAQUE CLUE TO DOROTHY ARNOLD

NEW YORK, Jan. 27—Just one vague clue was brought out yesterday in the search for Miss Dorothy Arnold, the missing Bryn Mawr graduate who disappeared from her wealthy father's apartments here, Dec. 12. Yesterday afternoon a young woman of refined appearance, whose description tallied at many points with that of Miss Arnold, tried to buy a man's clothes from a waterfront dealer in unredempted pawn brokers' pledges, and inquired about ships sailing for Europe from Hoboken. (Continued on page 7.)

PUTS BONE FROM SHIN INTO ARM

BOSTON, Jan. 26—Surgeons here are interested in the operation performed by Dr. Frederick J. Cotton, at the City Hospital upon William Favor, of Malden, in which he removed a part of Favor's shin bone and grafted it into his arm. So far as known this operation has never been performed before in this country, and it has been successful several times in Europe. Favor had one arm crushed under a car at Somerville. It was found necessary to take out 2 1/2 inches of the bone of the upper arm. A "cuff" connecting the two ends of the broken bone was tried unsuccessfully and then Dr. Cotton decided upon the grafting experiment. As soon as conditions warranted, a sliver of bone was taken from Favor's leg and placed within the aperture of his arm. Apparently the injured man is doing well. "While the operation is purely experimental," says Dr. Cotton, "I have every reason to hope for success. One never can tell how such a detached piece of bone will live in its new surroundings. The leg will not be injured at all, and if the new bone placed in the arm knits and continues to grow there is no reason for thinking that the operation will not be entirely successful."

NEW YORK GIRL MISSING FOR MONTH

NEW YORK, Jan. 27—Miss Dorothy H. C. Arnold, a daughter of Francis R. Arnold, head of a perfumery firm, has been missing since she stepped out of her father's home on East Seventy-Ninth Street on a shopping tour, on December 12th, last. No stone has been left unturned, and an army of police and private detectives in their quest for the missing girl. But her relatives declare there is no more trace of her than would be had if the earth had engulfed a partial description of the girl's appearance is: Height five feet, four inches; age 25; dark brown hair; grayish blue eyes; staid expression.

STRUCK BY PROPELLOR OF A "WIND WAGON"

ALLENSTOWN, Pa., Jan. 27—Lloyd J. Irdell died here last night from injuries received by being struck by the propeller of an overland wind wagon. The machine, which is an automobile that of an aeroplane, was placed on exhibition here yesterday and Irdell was a passenger. After leaving the wagon he unconsciously walked within range of the propeller and was knocked a distance of 20 feet. His skull was fractured, and he died without regaining consciousness.

COLDER

Special to The Guardian. TORONTO, Jan. 31—Decreasing northerly and westerly winds; fair and decidedly colder. The coldest last night and up to three o'clock this morning was nineteen degrees above zero; the warmest in the same period was forty-seven degrees above and at three o'clock this morning it was twenty degrees above. The lowest temperature recorded yesterday was thirty three and one-half degrees above zero and the highest was thirty-seven above up till nine p.m. The lowest recorded the previous night was twelve degrees above. The length of today will be nine hours and forty-three minutes. The sun sets this afternoon at 5:05 and rises tomorrow morning at 7:21. The moon rises this morning at 6:26.

MAN WANTED FOR MURDER IN NEW YORK

Handsomeness Found Strangled in Hotel Room. Police Making Search.

Special to The Guardian. NEW YORK, Jan. 30—The police of various cities were today asked to investigate a search for a tall, slender man with a cast in one eye, who wears a light overcoat and slouch hat, who is wanted to clear up the murder of a handsome woman found dead from strangulation last night in the Hotel Bryant at Forty-Fourth St.

FOUR PERISHED IN COLLISION

Special to The Guardian. SWANSEA, Wales, Jan. 30—Four men perished, and two others had narrow escapes from drowning when the British steamer Irena today ran down the schooner Wiln in a heavy fog off Selwick.

SAM HUGHES ASKS ABOUT EDITOR'S PAY

OTTAWA, January 27—The charge that Rev. J. A. MacDonald was receiving a salary from the International Peace society, of which Mr. Ginn, of Boston, is one of the moving spirits, and that as one of the representatives of that society he was preaching the doctrine of reciprocity between Canada and the United States, was reiterated in the house today by Col. Sam Hughes. Col. Hughes made the allegation in a speech at St. Catharines last Saturday and after several days had been accused by the Globe of circulating a malicious slander. Today Col. Hughes brought the affair to the attention of the house on motion to go into supply. He declared that Mr. MacDonald, and Dr. David Starr Jordan, of Leland Stanford Junior university, while appearing in the guise of "white winged angels of peace," could not keep their tongues off the question of reciprocity and even of the annexation of Canada to the United States. He declared the Toronto man as a hypocrite and a "prince of holy Willies," and declared that he would have brought the matter before the house at an earlier date had he not known that the Globe "the ragged old dame of Canada journalism" would have accused him of taking refuge behind the privileges of parliament.

AVIATORS UNIQUE FEAT

HOUSTON, Tex., Jan. 28—Rene Simon, the aviator, known on the continent for his daring, has added laurels to his record when for the first time in the history of aviation he demonstrated yesterday afternoon that herding cattle with aeroplanes was possible. Simon during the closing flight of the opening day left the aviation field and headed across the prairie, darting directly for a herd of cattle grazing half a mile away. Cowboys were just arriving preparatory to rounding up the animals when Simon descended and circling around the steers soon had them on a trot towards the aviation field. He drove them up to the fence separating the field from the prairie and then started them off westward delivering them to the cowboys.

AMERICAN MAN A SNAFFED AFFAIR TO ONE ENGLISH EYE

LONDON, Jan. 26—Mrs. Desmond Humphreys, who spent two months in Washington, New York and Boston, has written a book called "America Through English Eyes," in which she says America is a land of licensed rascals, where the people are taxed heavily, ruled despotically and blackmailed systematically. She then hits at the American husband, saying he is "neither better nor worse than any other husband making money for his wife and giving to little of his time for quarrelling." Her photograph of the American man is: "When you see him so badly dressed that he affronts the critical eye. When he is middle aged he is corpulent and unhealthy looking."

CONDENSED ADVERTISEMENTS

(Too late for Classification.) SAUSAGES, 2 lbs for 25c; Fresh Beef 14c at Tanton's. 1-23d31. LABRADOR HERRING, fat, \$1.00 per Bucket at Tanton's. 1-23d31. WANTED, boy to learn barbering. Beer; possession given at once. Apply to T. L. Aitken, 7 Upper Hillsboro St. 10-2d1t. Minard's Liniment cures colds, etc.

HONORS TO CONNAUGHT IN LONDON

Toronto Masons Await His Coming to Canada With Great Interest.

Special to The Guardian. TORONTO, Jan. 30—The coming of the Duke of Connaught to Canada will be of special interest to Toronto Masons. His Royal Highness, who is Grand Master of the Grand Lodge of England, is also an honorary member of Zetland Masonic Lodge. The Duke's visit to Zetland Lodge some years ago was an historical event in Toronto Masonry. LONDON, Jan. 30—A public breakfast was tendered the Duke of Connaught at the Guild Hall and an address upon a gold casket was presented to him. He received many congratulations upon his appointment as Governor-General of Canada.

HANLAN WRIGHT NOW IN WINDSOR CELL

WINDSOR, Jan. 25—Hanlan Wright the young Harrow desperado who a month ago demanding \$5,000 from his uncle, William Wright of that town, on pain of instant death if he refused, was arrested this morning at South Woodside by County Constables Drouillard and Lappan after some trouble, and is now lodged in Windsor Police Station awaiting trial on charges of threatening bodily harm and demanding money by threats. The order for Wright's arrest was issued by Crown Attorney Roid some time ago.

C. P. R. OFFICIAL STRICKEN WHILE AT ANOTHER'S FUNERAL

OTTAWA, Jan. 27—While attending the funeral of the late J. E. Sewitzer today, J. A. Clarke, relieving purchasing agent of the Canadian Pacific railway of Montreal, was stricken with paralysis, and is seriously ill here. He fell just outside of his hotel. He is still unconscious and if he recovers is likely to remain here for some weeks.

ALF. SMITH FOR RENFREW

OTTAWA, Jan. 27—The Renfrew management discovering that a coach was badly needed for its team got hold of Alf. Smith, and made him an offer to handle the Creamery town seven for the remainder of the season. Smith accepted, and takes charge of the red and white at once. There is no doubt Renfrew has some good material within its rank, some in fact that will be of more service than the high priced experts of last year. But the team showed symptoms of disorganization on the ice last night, and Smith is just the man needed to round out some team work. Alf. was given charge of the Renfrew team last year after the season was well under way, and toward the close, there was no doubt he had them in such form they had a shade on anything else in the league, not even barring Wanderers. It was too late, however, to figure for the championship. With Smith at the helm, Renfrew should just about lick the last Canada team in the Creamery town tonight. Smith has brought Clifflide up to their high state of perfection and his services as a coach are much in demand.

WRESTLER STRANGLES TWO MEN

EDWARDSVILLE, Jan. 26—John Burton of Alton went on trial today on a charge of strangling two men to death. Burton, a wrestler, killed Leo Wentz and Louis Weibrecht, his companions, Aug. 12 last. Burton claims self-defence. By getting Wentz's head between his knees and Weibrecht's head under his right arm, Burton, a giant in strength, was able to strangle both men at once, according to his story. Burton is the only witness.

CLUB WOMEN FOR ANTI-HATPIN LAW

NEW YORK, Jan. 26—Women representing 116 clubs appeared at a public hearing on the proposed "hatpin" ordinance today to urge its adoption. The ordinance would make it unlawful to wear a hatpin or similar device whose point protrudes more than an inch from the crown of the hat. Minard's Liniment cures ear-ache in cows

DIVIDED OVER RECIPROCITY

TWO DROWNED WHILE SKATING

Special to The Guardian. HAMILTON, Jan. 30—Frederick Smith and Albert Smith, cousins, were drowned today in Burlington Bay while skating. They ventured on a spot from which the ice had been cut.

SOUGHT MONEY BABY PERISHED

Special to The Guardian. WINNIPEG, Jan. 30—While Geo. Chears was trying to save a roll of bills under his pillow during the burning of his home, his five-year old daughter, asleep in the bed he was searching, was burned to death. Chears himself was badly burned and the money was destroyed.

SUSPECTED OF SMUGGLING ALIENS

WINDSOR, Jan. 25—In the arrest of Ralph Dengler, twenty-three years old, of Delray, who was picked up at the Grand Trunk station in Windsor today in Company with another man who gave the name of Daniel Zieder, the immigration officials in Windsor believe they have put their hands on one of the men who have been making money by piloting aliens past the inspectors at the border. Two hours from the time Zieder was rejected by Thomas Robinson, chief of the Windsor immigration force, the two men were arrested by Inspector Thomas Brian. Zieder was seen to hand his companion a dollar bill as he turned to board a Grand Trunk train, and he afterward told the immigration officers that it was to pay Dengler for getting him into Canada. Zieder is held on the charge of entering Canada after being rejected, and Dengler on the more serious charge of smuggling an undesirable into the country.

SON TAKES MANAGEMENT

NEW YORK, Jan. 27—Mrs. Hetty Green, the world's richest woman, and the queen of American finance, has abdicated. Her son, Edward H. Green, who "made good" in the great southwest after an eighteen year test in Texas, took over the management of his mother's vast fortune today. "We expect to form a trust company of our own with substantial capital," said he today. The headquarters of the management of the Green fortune will be centered in the trust company. The fortune, as it stands today, is estimated at \$100,000,000.

PLEAD FOR RETRIAL OF ANNIE MULLINS CASE

BOSTON, Jan. 29—Peter Doleay and James Mantir, convicted of the murder of Annie Mullins the Cambridge domestic, whose body was found in a field in Arlington, will probably know within a month or six weeks whether or not they will receive a new trial. Arguments to obtain this end will be made today before the full bench of the Supreme Judicial Court by James A. E. Moroney, Henry Winslow and Frank McDermott, their counsel. District Attorney Higgins will appear on behalf of the Commonwealth.

CLUB WOMEN FOR ANTI-HATPIN LAW

NEW YORK, Jan. 26—Women representing 116 clubs appeared at a public hearing on the proposed "hatpin" ordinance today to urge its adoption. The ordinance would make it unlawful to wear a hatpin or similar device whose point protrudes more than an inch from the crown of the hat. Minard's Liniment cures ear-ache in cows

Strange New Lines of Division Among Groups in Congress. Much Hostility

WASHINGTON, Jan. 30—Congress, always pretty evenly divided into two parties, Democratic and Republicans, and sub-divided into factions, regulars and insurgents, has split up into groups that cannot be labelled as the result of the proposed reciprocity treaty. The insurgent Republicans, who voted one way on the Payne tariff law, are rent asunder over the proposed tariff between Canada and United States. The same is true of the regular Republicans and Democrats. No man knows who is his brother in the fight now raging. The only line of demarcation is between the agricultural regions and the manufacturing centres, between the country districts and the cities. Few shrewd politicians are of the opinion that the treaty will be ratified, at least not at present session of Congress. Great interest is centering in the split between all parties. It is evident that the battle will be fought out in Congress on sectional rather than party or factional lines.

LEMIEUX'S VISIT TO ROME TO SECURE POPE'S AID

MONTREAL, Jan. 28—Mr. Henri Bourassa, the Nationalist leader, publishes a striking article, under his own signature, in L'opinion de Devoir, containing a sensational exposure of the Laurier Government's tactics as shown by the special mission of Postmaster General Lemieux to Rome, and intimating that he will have further to say. "The Naval Question and the Clergy," Mr. Bourassa refers to the recent visit of the Post- (Continued on page 8.)
