Grain

WINNIPEG, June 27 —(CP)— Winnipeg wheat futures sagged 2 cents today in listless trading with threat of rain in western Canada the dominating influence. At the final bell quotations were 1 3-4-1 lower, July 1.05 1-8, Oct 85 7-8-86, November 85a, and December 83 1-8-1-4 cents.

Failure of Chicago to hold early advances of more than a cent and the rain forecasts discouraged buyers and only a few selling orders were required to push prices down from early gains of 3-4 cent.

Canadian export sales during the weekend were estimated at 150,000 bushels, including durums.

Cash wheat was neglected today with spreads on all grades of Red Springs unchanged. Durums eased a cent.

Coarse grains declined a cent or more.

How the Federal Government Seeks Greater Business for Canada . . .

By Developing Export Trade

As a Canadian you are a partner in a four-million dollar a day business, for in the calendar year 1937 Canada exported goods valued at more than a billion dollars. $1,124,960,000 to be exact. Out of that huge sum came part of the wages you were paid, part of the profits on your business, part of the professional fees you collected. You, therefore, have a very selfish interest in this great export trade and in the work that is being done to promote it.

Trade Commissioners In Foreign Markets

To make business grow either at home or abroad, more goods must be sold at a profit. To extend export trade, the Canadian Department of Trade and Commerce has located Trade Commissioners in every major market with which Canada can profitably do business. These specially trained representatives are constantly investigating foreign markets and energetically promoting the sale of more Canadian products. Through the Canadian Government Exhibition Commission, Canadian products have been shown to millions of possible buyers all over the world: in Johannesburg (S. Africa), in Paris, in South Australia, in England, in Glasgow and at numerous other major fairs. Co-operation has also been extended to individual firms who wished to exhibit Canadian products at some forty fairs where no official Canadian exhibit was scheduled.

Work That Has Helped Expand Canada's Trade Abroad

The extensive and intensive sales promotion work conducted by the Department of Trade and Commerce has played a practical part in Canada's rise to a high position among the export nations of the world. It has helped expand the national income and provide employment.

Inquiries are Solicited from Firms or Organizations Interested in Export Trade.
