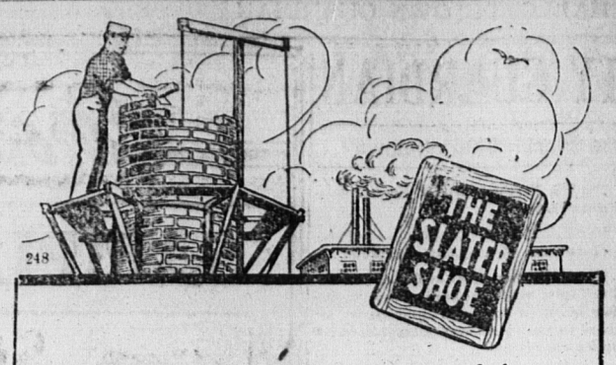
HORSE SHOERS.

HORSE SHOEING, all kinds, while you wait, at J. A. Henderson's, Euston St



248

¶ Hon. Alexander Mackenzie was one of the army of builders who became Premier of Canada, because he could think straight, and be straight.

¶ On the upward climb, that which helps most is reading good books and buying good things—buying the shoes that are made right and wear right. They pay dividends.

¶ The SLATER SHOE looks new always, for it's real leather all the way through—and at $5.00 it's cheaper than a cheap shoe. With leather going sky-high in price, you want the shoe that is stamped with the plain price and backed by the Seal of Certainty.

¶ $4.00 is the dividing line between good shoes and cheap shoes; for good leather costs good money.

¶ To a worker the Slater Shoe is the cheapest shoe.

THE PUBLIC IS OFTEN FAKED.

Unscrupulous dealers actuated by large profits often recommend cheap cures "as good as Putnam's." There is only one genuine Corn Extractor and that is Putnam's Painless which is a miracle of efficiency and promptness. Use no other.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000 The Guardian's daily circulation is therefore as 1 to 1¼ of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believes, unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000 St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000, or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50 That is as 1 to 5 of the population of Toronto and 1 to 40 of the population of Ontario.

The point is this that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons like. They have a right to know how completely their favorite Journal's endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Provin
