MRS. LEHMAN HAD SUFFERED TEN YEARS FROM INDIGESTION, IN SPLENDID HEALTH NOW

"I suffered for ten years from nervous indigestion. I had no appetite and always felt miserable. I was in such a serious condition I thought my time in this world was getting short. My food didn't seem to nourish me at all and I only weighed 85 pounds. After taking Tanlac, I now weigh 108 and am gaining every day. Oh! there is such a wonderful change now. Tanlac relieved my troubles so quickly it surprised me. My appetite is splendid. I have plenty of strength and feel better than I have in years. I wouldn't take one thousand dollars for what Tanlac did for me."

The above statement was made by Mrs. Clara Lehman, Bristol Hotel, Rochester, N. Y. Tanlac is sold in Charlottetown by Reddin Bros., and by leading druggists everywhere.

The Liberals say that they have dropped Protection--- for the time being

Is it because they no longer believe in Protection? Not a bit of it! Why, then? Because they want your votes!

But for the fifteen years they were in power they steadfastly adhered to the National Policy of Moderate Protection notwithstanding they were pledged to Free Trade when elected in 1896.

During all their term of office the Liberals carried out the Conservative Policy

The National Policy, the Conservative Policy, has made Canada and the Liberals know it.

Do Not Be Deluded.

DEATH OF HON. BEN. GALLANT

The death of the Honourable Ben. Gallant, recorded elsewhere in this issue, is deeply regretted by the very many who knew him, and his widow and family have the sympathy of all in their bereavement. The late Mr. Gallant was a man of most pleasing personality, a man who both in public and private life was the soul of honour. In the provincial legislature of which he was a member for many years he was popular with friends and opponents and throughout his public career bore himself with dignity and honour. He was very properly regarded as one of the strongest men in the Liberal party and had it not been for the illness which prostrated him during the past summer and which terminated in his lamented death he would no doubt have been selected as the federal candidate in the forthcoming election. His genial and companionable disposition endeared him to all who knew him. He will be greatly missed at future sessions of the Legislature and his death in the prime of life is a distinct loss to the province, especially to the community in which he resided and did business and in which he was loved and esteemed. To his sorrowing widow and children we extend sincere sympathy.

SIR GEORGE COMING

This week the people of this province will have an opportunity to hear Canada's greatest orator, Sir George E. Foster. He will address a meeting in Summerside on Thursday, in Souris on Friday and in Charlottetown on Saturday, all the meetings opening at 8 o'clock and to be held in the largest halls available. Sir George E. Foster is not only recognized as the ablest orator in Canada but he has borne during a long lifetime the more desirable reputation of being a clean, honourable and trustworthy statesman. During his long public career no whisper has been heard against his integrity, no suspicion of scandal has fallen upon him. He is now well advanced in years but is still as hale and vigorous, mentally and physically as when a much younger man.

All will hail with pleasure the opportunity of hearing Sir George E. Foster and we feel assured no one will miss it who can possibly attend any one of his meetings. It will not only be a pleasure but

an education to hear him and, more especially at the present time when questions of vital interest to Canada and to each of its provinces are engaging public attention.

Sir George has had a parliamentary career of unparalleled success. He was first elected to the House of Commons in 1882 and with only two exceptions has been re-elected after every general election since that date. He served as Minister of Marine and Fisheries in the cabinet of Sir John A. Macdonald and as Minister of Finance successively under the administrations of Premiers Abbott, Thompson, Bowell, Tupper, Minister of Trade and Commerce in the Borden cabinet and has held numerous positions of trust under practically every administration since his first election. He is besides being a parliamentarian of much more than ordinary ability the recognized "Silver-tongued orator" of Canada. No one can afford to miss hearing him.

A QUESTION ANSWERED

One of our most intelligent farmers said the other day that when he saw the comparative statement of the export of potatoes to the United States last year and this year he would be able to judge of the effect of the Fordney Tariff.

We have just received the information in question covering the four months June to September. Here are the figures:

Table with 2 columns: Period, Quantity. Four months ended Sept. 30, 1920: 479,411 bush, \$1,060,198. Four months ended Sept. 30, 1921: 175,094 bush, 159,475.

Decrease 304,317 bush \$900,723. Yet we find the Liberal candidates going from meeting to meeting telling the farmers that the United States want our potatoes and other farm produce and must have them—that they have such a big population to feed that they have no farm produce to export and, therefore, would not compete in our markets.

Well, here are the facts and let the Liberal candidates explain them away as best they can. In the statistical year ended June 30, 1921, we imported from the United States:

Vegetable products to the value of \$111,886,225; and animal products to the value of \$36,349,063. In other words, the United States farmers sent into Canada for the year ending June 30, last, to compete with our farmers, vegetable and animal produce to the enormous value of ONE HUNDRED AND FORTY-EIGHT MILLIONS, TWO HUNDRED AND SEVENTEEN THOUSAND, TWO HUNDRED AND EIGHTY-EIGHT DOLLARS (148,217,288).

On the other hand since June of the present year the United States has under the Fordney Tariff, reduced its imports from Canadian farmers from \$19,000,000 to \$6,000,000. How long would it be under free importation of farm produce before our farmers would be swamped, down and out? Surely no farmer wants to have to sell his farm at \$5 per acre for that is what free trade in farm produce will mean.

THE PUBLIC FORUM

Hon. Mr. Lea's Defender. Sir, The Hon. Commissioner of Agriculture has found a defender. It is a case of "A friend in need is a friend indeed." He signs himself "Fair Play" and he seems to know so much about Mr. Lea's private affairs that one would imagine that if he didn't write the letter himself that it must have been done by someone very close to his bosom. The burden of his song was "Board" and "travelling" expenses, which from me was only a slight reference in answer to his personal attack. I am sorry if it stung, but when he tries his side thrusts he must take the chance of war. His apologist has a lot to say of the cost of his meals on a dining car, a berth in the sleeper, or the costs per day at the Chateau Laurier, or Russell House. Press reports of the days when he was in opposition show considerable criticism of the costs of these "jaunts" which were not so steeply charged then, which it would be interesting for Mr. Lea and his friends to look into today. Those farmers and their sons whom he is now suing in the County Court for their \$5.00 Poll Tax, are not being offered any dining car meals, or Chateau Laurier board. No, they are not even allowed the paltry 32 cents per day for attendance, even if they win their suit. It is pay your own travelling expenses your own board and meals, and your own loss of time, or else fork over the \$3.00. But my questions concerning the cattle at Falconwood, both Mr. Lea and his friend "Fair Play," very successfully avoid. He says I can get the facts and examine the

Others' View Points

(London Times.) CONSTANTINOPLE, Sept. 26-It is now known here that the 16 Turkish prisoners interned at Malta who, being allowed out on parole, took advantage of this concession to escape from the island included two generals, Ali Ihsan Pasha and Mahmud Kiamil Pasha, who held important commands during the war. Their conception of the obligations of an officer on parole seems to have been disappointingly "Bolshevist," but one wonders why the British military authorities at Malta risked allowing liberty on parole to an officer accused of ordering massacres and convicted of breaches of the armistice. It is also surprising that civilians such as Mummer Bey, who was largely responsible for the massacres at Sivas, should have benefited by such a concession.
