## SURVIVORS OF WRECK AT LAST REACH PORT

### Illing Experience Undergone by Surviving Crew of a Schooner Which Has Been Missing Since Thanksgiving Day—Narrow Escape From Death by Fire.

Charlottetown, Jan. 2.—In a fire which destroyed eight children, who were on the shoulders of the ship, the schooner was wrecked. The survivors of the wreck, which occurred on Thanksgiving Day, were rescued by the Nova Scotia schooner Sagan. The schooner was carrying twelve sailors from the British schooner Johanna, on Thanksgiving day of last year, which was missing since that time. The survivors include E. R. Dyatt of Moncton, while those perishing in the wreck were chiefly Europeans. The Johanna was large steel schooner by colliding with a derelict.

## CAMPAIGN NOT VERY INTERESTING

### The Battle has Now to be Decided at the Polls. Suffragettes Active

LONDON, January 2.—With the first pollings only a fortnight distant, the campaign here shows but little popular excitement. Since the first tremendous uproar over the rejection of the Budget and a general oratorical explosion, the contest has settled down to a monotonous bombardment of speeches and editorials. The list of candidates is still far from being complete. LONDON, January 2.—On Saturday a suffragette threw a quantity of acid over some campaign literature in John Burn's office. One of the clerks was badly burned about the face and hands.

## ANTAGONISM IN NICARAGUA

### War and Rumors of War are Still Heard From this Belligerent South American Nation

Special to The Guardian. BLUEFIELDS, January 2.—United States intervention will not bring the war to a termination. Estrada's associates have entered into a solemn compact pledging continued activity until every trace of Zelayan-ism is eliminated from the country and is decreasing ceaseless antagonism to Madrid. Two more battles, it is believed, must be fought before the issue between Madrid and Estrada is decided. Insurgents are sorely disappointed that the United States has not offered them moral support. Probably twelve thousand men are engaged in the approaching battle near Managua.

## HEAVY LOSS BY FIRE IN EGYPT

### Customs and Tobacco Stores Building Have Gone up in Smoke.

Special to The Guardian. ALEXANDRIA, Egypt, January 2.—The Customs and tobacco stores here were gutted by a fire, with loss of a million and a half dollars. The fireman and bluejackets succeeded in saving most of the contents which were valued at about five millions.

## ONE MAN KILLED EIGHT INJURED

### Special to The Guardian. CAMBRIDGE, Mass., January 2.—As a result of a steam pipe explosion in the Boston Rubber Company's Plant on Saturday, one man is dead and eight others are badly injured.

## ROUMELIA IS FLOODED UNDER

### Worst Flood in Fifty Years. A Waste of Waters Causing Destruction.

Special to The Guardian. PHILIPPOPOLIS, Bulgaria, January 2.—Eastern Roumelia has been swept by the most disastrous flood in a half a century. A whole plain resembles a vast lake and many are reported drowned, while enormous losses have been sustained to crops and stock. Soldiers in boats are now rescuing people who have been cut off by the rising waters.

## AMHERST WINS OVER OTTAWA

### Special to The Guardian. AMHERST, N. S., January 2.—In Saturday night's hockey game here, the Ramblers defeated the Cliffside team of Ottawa. Score—seven to five.

## MUNIFICENT GIFT FROM A PARENT

### Special to The Guardian. FORT WORTH, Tex., January 2.—Thos Waggoner has given each of his three children two million dollars, each in Christmas gifts.

## THREE CITIZENS LAID TO REST

The body of the late Miss Jimima Moreside, of North River, who died in Boston recently was brought to this city by G. D. Wright, Undertaker, from Halifax, on Friday last. The funeral was held yesterday afternoon from the residence of her brother, Daniel Moreside, North River, and was largely attended. The funeral of the late Mrs. Martin O'Halloran left her late residence in this city on Saturday afternoon and was conveyed by special train to Vernon River, where interment was made in St. Joachim's Cemetery. The following were the pallbearers: Judge Reddin, D. O. M. Reddin, Judge Blanchard, Charles Lyons, W. Leitch, and S. Paoli. On Saturday afternoon the funeral of the late William F. Riggs, City, took place from his residence to the People's Cemetery where interment was made. The services at the house and grave were conducted by Rev. H. E. Thomas and at the cemetery the beautiful burial service of the Sons of England was also conducted by the officers of Lodge Eton, of which the late Mr. Riggs was a valued member. The two lodges of the S. O. E. attended in a body. The pall bearers were—John Skerry and Alfred Housh-ton and William Diamond and Ernest A. Foster from the S. O. E. The funeral was very largely attended.

## HORRIBLE CRIME IN CINCINNATI

### Fourth of Similar Nature Discovers Recently in this Locality

Special to The Guardian. CINCINNATI, Ohio, January 2.—Anna Floyd, stenographer, was found dead with her body horribly mutilated in a lonely part of the City. This is the fourth similar crime revealed and the police are unable to secure any defence.

## SPENT A NIGHT OF TERROR ON A BOAT

### BRIDGEPORT, O., Jan. 1.—Sixty passengers, 35 of them women, spent a night of terror aboard the ferryboat Charon, from Bellaire, O., to Benwood, W. V., which became caught in an ice gorge in the Ohio river at 3 o'clock last night and foundered around until 5 a. m. today. All were landed in small boats at daylight without injury. Fear that the ferryboat would sink caused panic-stricken women to offer up prayers and the cries of small children made the night exciting.

## SUPPOSED DEAD MAN WOKE UP AND YAWNED

### TERRE HAUTE, Ind., Jan. 1.—As an undertaker started to prepare the body of Edward Murphy for trial, the supposed dead man arose in bed and yawned. "I feel better after that long sleep," he said. Murphy had been in a state of coma for ten hours. He had been an invalid for a long time. But the undertaker soon was recalled, for Murphy really died after joking to the embalmer about his "first death."

## DR. COOK RECOGNIZED IN LONDON, CANADA

### LONDON, Ont., Jan. 1.—A traveller who arrived in this city yesterday en route to Detroit, and whose hand grip was marked "Dr. A. Cook, M. D." excited a good deal of curiosity at the Grand Trunk Station, as he was believed to be no other than Dr. Cook, of the North Pole notoriety. The man came here on the Toronto train, disembarked, bought a magazine, and then boarded the train for Detroit. It is claimed that he could be readily organized as the explorer from newspaper pictures, though minus his moustache.

## TORONTO WINS GAME

### NEW YORK, Jan. 1.—The hockey team from Toronto University defeated the New York Athletic Club seven at St. Nicholas rink tonight by a score of 3 to 1.

## WITH THEE

Dear Lord, thou hold'st the future in thy hand. To be at thy command For mine and me. So each and all with calm, confiding prayer, I give unto thy care: For all is safe with thee.

## W. J. BRYAN IS SERIOUSLY ILL

### JACKSONVILLE, Fla., Jan. 1.—J. Bryan, who has been in this city for several days as the guest of his cousin, ex-Governor Wm E. Jennings, was too ill tonight to deliver his scheduled address at the Duval Theatre for the benefit of a local hospital. Mr. Bryan is suffering from a severe cold and is threatened with pneumonia. He has cancelled all future dates and will remain here for several days.

## SAYS CANADA DOESN'T WANT ENGLISHMEN

### LONDON, Jan. 1.—A lengthy interview with Lord Northcliffe appears in the Canadian Illustrated. Lord Northcliffe says he found a distinct prejudice against Englishmen in Canada, due almost entirely to the fact that England had made Cabala a dumping ground for her surplus Cockney population. "This prejudice," he affirms, "deters a great many people from going to Canada to reside or invest there. The fault is a little on the side of immigration authorities. I found young men from the hop and fruit-growing districts of Kent and Worcestershire settled on the prairies, and their knowledge has been invaluable to British Columbia. The American immigration authorities would be much wiser if they put the right men in the right place."

## HATTIE LEBLANC NOW CHARGED WITH CRIME

### BOSTON, Jan. 1.—Hattie LeBlanc, the 19-year-old Archat, C.B., girl, was recently charged with the murder of her employer, Clarence F. Glover, in his laundry on November 20th, by Judge Luce of the fall district court, in his report of the inquest filed in the superior court today. Judge Luce stated that there was no evidence to show that any other person was responsible for the death of Glover. The grand jury will pass on the case early in July. The Traveller announces tonight that Walter Bell, aged 10, 197 Union street, St. John, is winner of \$25 cash. When the boy was here recently with his parents he found a metal disc on the streets. Discs are scattered about the streets by the newspaper, those drawing the numbers getting \$25.

## FLIGHT LANGUAGE BOTHERS AVIATORS

### PARIS, Jan. 1.—One of the most interesting meetings ever held in connection with aviation will take place here in January when the International Aeronautical Federation will discuss the question of the phrasing of flight language. In view of the fact that aviation promises to be the first sport to break down all national barriers, it is an international vocabulary that is needed—a sort of Esperanto of the air. Many of the sporting terms used on the Continent have been borrowed from our language, and England may also have the honor of coining the terms to be used in the marvellous sport of flying. The present confusion of words in describing planes and things connected with aviation is extremely inconvenient. The extent of this confusion is indicated by the table below, which shows the objects it is desired to describe and the multiplicity of descriptive words, most of them in a factory, which have been used, for instance, during the recent aviation meetings: Resting-place for machines when not in use. Aero-cote Aero-dock Aero-nest Aeroplane-garage Man who controls aerial machines. Aerolist Aerial Jockey Aeroplanist Aviator Open space for aerial contents. Aerial race course Aviation-ground Aerodrome Air-course Aviatorium Practice Ground. Aero parade ground Starting park Manoeuvring ground Taking off track Paddock Aerial Machines. Aero-craft Heavier-than-air Aeroplanes Machines Air-craft Sky-craft Flying machines Most of these synonyms are unsatisfactory, either because they are too clumsy, too cacophonous, or too reminiscent of other sciences and sports. They serve to illustrate, however, some of the difficulties with which the lexicographers of the sport of the future will have to contend.

## A NEW RAILWAY FOR THE WEST

### TORONTO, Jan. 1.—A gigantic railway project has been launched at Edmonton to open up the Athabasca and Peace River sections. The charter granted to the Northern Empire Railway and Manitoba and British Columbia Railway Co has been transferred to a new one headed by Henry Roy, millionaire, and the company is capitalized at four and a half millions. They will ask for a government guarantee of bonds for the line north and south of Edmonton. One line will run through the Peace River across Mountains and terminate at Dawson. The branch is also projected to the east from McMurray to Fort Churchill on Hudson Bay.

## TOBY McDONALD OFF FOR TIGNISH

### SYDNEY, Jan. 1.—It is practically certain that the Sydney Hockey Club will have to go through the league series this year without the services of Toby McDonald, the crack goal keeper of the Cape Breton champions. It is understood that Toby will leave next week for Antigonish to resume his duties at St. Francis Xavier's College. Sydney's loss will prove a distinct gain to the college hockey team. Toby will take the Arts course. The Sydney Hockey Club has left, however, the veteran net tender, Captain "Bill" Ball, and it looks at present as if Perry would have to go back between the posts.

## CONDENSED ADVERTISEMENTS

BOY WANTED, to learn a trade. \$2.50 per week will be paid at the beginning. Boy must have a fair education. Apply at once in person at The Guardian office. 12-29dft. GIRL WANTED, with a fair education to learn the type setting. Apply in person between 8 and 10 a. m. at the Guardian office. 12-31dft. WANTED, once, an attentive country girl.

## U. S. DEFRAUDED OF MILLIONS

### WASHINGTON, Jan. 1.—Two million dollars is the amount out of which the government has been defrauded by millinery and dress goods importers, through the "sleeper trunk" according to William Loeb, Jr., collector of customs at New York. He expects most of this sum will be recovered through impending suits. Between thirty-five and fifty indictments will be made within the next few days, about thirty affecting men and women in New York City. By collusion with officials at the customs docks, trunks containing valuable furs, laces and dress goods were left on the docks until a late hour and then slipped out without the payment of duties. It is claimed there was a regularly ordered smuggling conspiracy to receive these goods and dispose of them and that it embraced practically all the big cities.

## N.B. IS PROSPEROUS STATEMENT IS OUT

### FREDERICTON, N.B., Jan. 1.—The Provincial financial statement for the year is published today in the Royal Gazette, and shows ordinary expenditures of \$1,255,381, as compared with \$1,042,196 last year, while receipts show a big increase, and amount to \$1,259,826, leaving a balance of about \$4,000. The largest expenditure was \$304,449 for public works, about \$75,000 more than last year, while for agriculture the expenditure was \$31,194, or \$10,000 more than last year. Other large expenditures include \$246,677 for education, \$68,176.83 for Executive Government, and \$43,474 for forest and game protection. Payments in interest amount to \$197,857 while last year it was \$232,944. The receipts include \$621,360 in Dominion subsidies, \$395,256 territorial revenue, \$12,434 succession duties, \$14,393 liquor licenses.

## WILL WIN THE MICHELIN CUP

### DAYTON, Ohio, Jan. 1.—The Wright brothers will not again contest for the Michelin cup, awarded to Wilbur Wright in France more than a year ago for the record long distance flight in an aeroplane. This was announced here tonight by Orville Wright, who added that for some time the Wrights will make no flights at all. When they begin again, Orville Wright said, it will be in Florida, where they expect to have an aviation course. The Michelin cup never was formally claimed by Wilbur Wright, and it is now in his possession.

## NEW YEAR'S DAY, 1910

Old Father Time has, with his un-cursion to Summerside to enjoy a skating party, made it necessary for us to reckon the old year, 1909, with the many that have passed before. In ushering in the new year, 1910, nothing out of the ordinary was observed to have taken place in or around Charlottetown, everything seemingly pursuing the even tenor of its way undisturbed by the change in the calendar. On New Year's Day and yesterday evening was quietness, even the spirit was quiet, not even the spirit of the old-time seem prevailing. The old-time their custom. The rink is est attract public

## FLYING OVER ICE AT BADDECK NOW

### BADDECK, N. S., Jan. 1.—Everything is now ready here for the winter flying over the ice, and if good fortune favors McCurdy and Baldwin it is probable that something interesting in the realm of aviation will happen very soon. Some very notable flights were made here last winter with the silver start aeroplane, but now there are five new machines, any one of which is regarded as superior to the old one. The Canadian Aerodrome Company has just moved its Baddeck No 2 in from the testing grounds at Bentick farm, where it has made about one hundred trial flights. A large shed has been erected here near the water's edge, and the Baddeck No 1 and Baddeck No 2 are both housed there, waiting to go into the air over the wide area of ice. Besides these two, Dr. Alexander Graham Bell's two machines are in the factory near by, and the Canadian Aerodrome Company is now building a monoplane recently ordered by Gardner Hubbard, of Boston. Although having a single plane, it will embody some of the principles employed by McCurdy and Baldwin in their biplanes. Dr. Bell is looking forward with much eagerness to the flights, and several scientists have arranged to spend most of the winter here to watch developments.

## TELEPHONE ACROSS SEA

### OTTAWA, Jan. 1.—In a few weeks time it may be possible for a man standing on the Eiffel Tower, in Paris, to speak across the Atlantic to a person in New York, so remarkable or so it is said. According to the London Daily Mail an apparatus is being installed for this purpose on the Mutual Life building in New York, with every possible hope of success. Commenting editorially on the matter, the Daily Mail says: "When wireless telegraphy was first established across the Atlantic in 1901 it was confidently predicted that wireless telephony would speedily follow. That prediction is on the eve of fulfillment. Thus the sound of the human voice will be conveyed 3,500 miles in an imperceptible interval of time when the human body could not cover the same distance in less than five or six days."

## MINARD'S LINIMENT CURES DISTEMPER

Minard's Liniment cures distemper. Condensed Advertisements (Too late for classification.) BOY WANTED, to learn a trade. \$2.50 per week will be paid at the beginning. Boy must have a fair education. Apply at once in person at The Guardian office. 12-29dft. GIRL WANTED, with a fair education to learn the type setting. Apply in person between 8 and 10 a. m. at the Guardian office. 12-31dft. WANTED, once, an attentive country girl.
