ANCHORS BUNCH HITS IN EIGHTH TO BEAT ROVERS

Coming from behind in the eighth innngs with a brace of hits and a passed ball for five runs gave the Anchors a 10-7 verdict over the Rovers.

Last evening at the Abegweit Grounds the Anchors and Rovers met in the second game of the second section. The Anchors coming from behind in an eighth inning rally to win 10 to 7.

The attendance was not quite so large as for the previous games, but other attractions no doubt was responsible for this. The teams showed good form and any mistakes made were not of a very serious nature, however a little tightening up would not be out of order.

Up to the seventh innngs it looked as if the Rovers had the game nicely tucked away, leading by seven to two, but the Anchors made a killing in the seventh and eighth innngs for a total of eight runs and put the game on ice.

Heavy hitting was responsible for the runs and by it gave the Anchors renewed hope that they will yet come through to win the second section.

It was a hard game for the Rovers to lose after leading nicely all the way, but what they lost in points will be gained in knowledge that a ball game is never won or lost until the last out is called.

By winning last evening's game the Anchors have once more set the fans to thinking and it now leaves a doubt in the minds of the most confident as to the outcome of the City League before the penant is finally won.

There is three well matched teams in the League, any of which is liable to romp off with the honors, and from this to the final game there should be some real exciting games between the teams.

For the Rovers, McKenzie lead off with a three and two bagger, McInnis, Cullen and Williams each connected for a two bagger, Blanchard Doyle and Whalen for a single each. Blanchard pulled down two catches in the infield and Doyle two in the outer gardens. The runs were scored by McKenzie two, Cullen, Blanchard Williams, Doyle and Whalen one each. 7.

For the Anchors, Saunders led off with two two baggers, Francis and Cronin one each. Francis one each. D. Diamond pulled down two catches. Hoyt, Cronin and Saunders one each. The following is the line-up:

Rovers Catcher Cullen Francis Pitcher Carbonnell McNeill 1st Base Blanchard S. Diamond 3rd Base Williams D. Diamond Whalen Hoyt Short Stop McInnis McGuigan Left Field McKenzie Cronin Centre Field Doyle Saunders Right Field Stewart M. Diamond Utility Murley O'Leary

Batteries Rovers—Carbonnell, McKenzie and Cullen. Anchors—McNeill, Hoyt and Francis.

Strike Outs McNeill 8; Hoyt 5; Carbonnell 4; McKenzie 2.

Put Outs Anchors—S. Diamond 1; Hoyt 7; McNeill 6; D. Diamond two, McGuigan, Francis, Cronin and Saunders one each. Rovers—Blanchard 11; Carbonnell 5; Cullen 2; McKenzie 2; Williams and Doyle 1 each.

Assists Anchors—McGuigan 4; Hoyt 4; McNeill 1. Rovers—Williams 4; Whalen 2; McInnis 3; Carbonnell, Doyle and McKenzie one each.

Box Score

Notes

His Honor Lieut. Governor Hearst Mrs. Hearst and Miss Ruth, after their busy week were again with the boys last evening and were delighted with the Anchors winning the game.

His Worship Mayor Miller was also present but regretted having to leave just at the exciting part in order to attend his official duties.

Now for bang-up baseball the rest of the schedule.

Abegweits and Summerside at Summerside this evening in the second game of the Island League. Both teams are out to win and the Summerside fans are in for a good fast game.

If a man has enough push he'll manage to pull through.

Mrs. Hope Leontough, young Russian woman of Toronto, is dead after going 55 days without food. She essayed her "hunger strike" in an effort to rebel her health, and during the entire period of its duration only drank water. Physicians believe her hunger strike is the longest on record in the world.

Smallpox

(Continued from Page 1)

Councillor Prowse on reporting for the Finance Committee reported that the tender for the sale of City Books of the highest bidder, Daley & Co., Toronto for \$100.75 was accepted.

Councillor Moran brought up the question of traffic which was very heavy during the past month and which will likely be yet heavier for the next two months. He thought something should be done.

His Workshop commented upon the fact that many garages were using the streets as a workshop. He would like the Police officers to inform garage owners that they must either drive the cars into their garages or provide places for them.

After some discussion on the matter of traffic and parking the following committee were formed to look into the matter: Councillors Hennessey, Yeo, and Dougan. On suggestion of Councillor Hennessey it was advocated that a light be placed in front of the Police Station. A resolution was submitted to that effect and passed.

It was decided that the matter of the appointment of a Police Marshal and extra police, be postponed to a subsequent meeting.

Councillor Moran thought that the appreciation of the Council should be tendered to the committee in charge. Councillors Prowse and Hennessey suggested that thanks be tendered to Mr. and Mrs. Harry Brown, by letter, on the beautiful decorations which drew most favorable and complimentary remarks from many among whom were the Governor-General.

The Meat and Milk Inspector reported that twelve portions of carcasses were destroyed unfit for consumption. Thirty eight samples of milk were tested all giving satisfactory results.

The following is the Police report:

Month of June, 1927

Arrests for drunkenness	24
Arrests with warrants	3
Arrests for Vagrancy	3
Having smuggled goods in his possession	1

Cedric Boulter tells of Trip to Ottawa Before Rotary Club

At the Rotary luncheon yesterday the speaker was Cedric Boulter, who gave an interesting report of his recent trip to Ottawa, as delegate to the Rotary Diamond Jubilee Celebration.

Cedric, who is a son of Rotarian Wilfred Boulter, spoke as follows: Mr. President and Rotarians: Your delegate to the Ottawa Rotary Diamond Jubilee of Confederation Celebration left Charlottetown, Saturday morning, June 25th, arrived in Moncton at 1.30 and met the Nova Scotia delegate, Warren Beazley from Halifax. We arrived in Montreal about 9 o'clock Sunday morning, and made immediate connection with the train for Ottawa, arriving there at noon. Rotarians John Barnett and Hall Popham met us at the station, and took us to our rooms at the Chateau Laurier. We lunched with Mr. Barnett who in the afternoon took us around the city in his car, showing us the principal business streets and residential sections, the Government Drive-way, and through the grounds of the Experimental Station. The New Brunswick delegate, Pat Guntar of Fredericton arrived at half past four. Only representatives from the five provinces who attended the Confederation Conference at Charlottetown in '64 were present. The delegates arriving Monday were Stewart Return from Toronto, and Jacques Bertrand from Hull.

On Monday we were driven through Hull and the surrounding districts, also through Rockcliffe. At 6.30 the Confederation Jubilee meeting of the Rotary Club took place. It was held in the main dining room of the Chateau Laurier which was filled to capacity by Rotarians and their wives. After luncheon, Past President Bill Ahr, who was in the chair called upon Rotarian Barnett, Director of Public Affairs, and said: "It is now up to John and his committee to do their stuff. They have never done anything before, let us see what they can do now." Mr. Barnett introduced the delegates who in turn gave their message of greeting to the Ottawa Rotary Club. Your delegate gave the following:

Mr. President, Directors, and Members of the Ottawa Rotary Club:

"It is my privilege and duty as the delegate of the Charlottetown Rotary Club, to convey to you their most cordial greetings, and on my own behalf as well as theirs to thank you for the kind invitation to be your guest during the celebration week of the Diamond Jubilee of Confederation.

The idea of bringing together a group of boys one from each Province of Canada on this occasion is regarded by them as the finest example of boys' work that Rotary has yet conceived.

As a means for developing an acquaintance among a widely scattered group of future citizens it could not be surpassed. No better opportunity could be offered to see the greatness of our heritage, to understand the importance of the event we are celebrating, and to realize the responsibility that will some day be ours. It is true that in our history class we have learned the date and the general terms of the Act of Confederation, and regarded it as an onerous task, but the impressions received on this occasion of the generosity and the loyalty and good will of all Canadian citizens will never be forgotten.

I only hope that we may be worthy of the confidence placed in us and that your Club will have no cause to be disappointed in the objective you wish to attain.

Respectfully submitted,
CEDRIC B. BOULTER,
Delegate Charlottetown Rotary Club.

Dr. J. W. McMillan, President".

The speaker of the evening was the Rt. Hon George P. Graham, who commended the Club for bringing the youths together, and especially stressed the need of greater unity between the races and creeds in Canada. He said: "If you Protestants think you were responsible for Confederation remember there was a D'Arcy McGee. If the English have the same idea remember there was a 'Cartier', and he suggested that the line in the song 'The Maple Leaf Forever' which runs 'The Thistle, Shamrock, Rose, entwined,' be made to include 'Fleur-de-Lis, for the people of the two races of Canada were each striving for its development. He spoke of the thoroughness of the preparations to infuse the idea of Confederation into the minds of everyone, by giving medals to the school children, it reached the child. Prizes for essays it reached the press and through the press to the people.

On Tuesday morning we visited the Museum and the Art Gallery. We lunched with a branch of the Canadian League composed mostly of Rotarians. The Canadian League consists of small organizations of from eight to ten persons who gather frequently to discuss Canada's problems and suggest solutions. They invite no publicity whatever. There are five such organizations in Ottawa. They asked us several questions concerning the Maritimes.

in regard to the feeling towards Confederation, the industries, etc. Your delegate was also asked questions regarding the Migratory Bird Act. In the afternoon we were shown through the Mint and Public Archives. In the Mint we watched the manufacture of one cent pieces from the rough bars of copper. We were shown a specimen of the gold used in paying the War Debt to the United States. This was a block of pure gold about six inches by two inches by two inches, with the stamp of the Royal Mint. It weighed about 45 pounds, and was worth about \$11,525. In the Archives we saw many interesting relics. Ancient books and papers, stamps and currency, Wolfe's arm chair, Brock's coat which he wore at the battle of the Chateaux, a large model of the Quebec of 1759 showing every building exactly as it stood then. Wolfe's Commission, Letters written by Sir John A. MacDonald on the day preceding his death; famous and valuable paintings of historical celebrities. Tuesday we left the Chateau Laurier for the remainder of our stay were entertained by rotarians at their private residences. Rotarian H. R. Welch entertained our delegate. Mr. Welch is an electrical engineer. Both he and Mrs. Welch were exceptionally kind.

On Wednesday we visited the Parliament Buildings and Library. This to me was the most impressive feature of all. On entering Confederation Hall we saw in the center Great Britain joined to the Colonies represented by smaller pillars around the walls. We were shown the House of Commons, the Senate and the Library. The only seat our guide pointed out was the one occupied by Miss Agnes MacPhail. The corridors built of fossilized limestone showed outlines of birds and fish in the masonry and the used for the floors was all taken from Canada. We then went through the banknotes and stamps are manufactured. We were shown many specimens of foreign banknotes, bonds, stamps, also a \$50,000 bill; an engraving one half an inch in diameter which bore the Lord's Prayer, and The Ten Commandments. Then we began at the place where men were engraving the plates to make the bills, and saw every process through which the bill must go, until we saw the money rolling out in piles. We were also shown through the laboratory where the patents, inks, etc., are analyzed. After this we were taken out to Lemieux Island where the buildings of the pumping plant are situated. The water which is taken from the Rideau must be filtered and chlorinated. About 94 gallons of hypophosphate of lime and 15 gallons of ammonia are used to every 1,000,000 gallons. The daily consumption is 24,000,000 gals. The Manager of the Ottawa Keith Albert Theatre, Rotarian Joe Franklin, gave us a box to the performance on Wednesday evening.

Thursday, Mr. G. W. Hyndman, a brother of Rotarian J. O. Hyndman, called and took me to lunch at his home, and to dinner at his Golf Club. He also showed me many points of interest in the city.

Friday was the day of the great celebration. You have read much about it, and there is little or nothing I could say that is new. We heard Governor-General Willingdon and others. My message of greeting from Lieutenant Governor Heurtz to Governor Willingdon and from Honorable J. D. Stewart, the Premier of Prince Edward Island, to Hon. W. L. MacKenzie King, Premier of Canada, were presented during the celebration.

Your delegate arrived home Sunday morning on a delayed train, having enjoyed thoroughly what I believe will remain in my memory as an outstanding experience. Cedric was officially tendered the hearty thanks of the Club, by the President, Hon. W. J. P. MacMillan.

Rotarian William Moran was in the chair and the guests were R. C. Donald of Moncton, Maritime Manager of the Crown Life Insurance Company, Robert Parent of Fredericton, J. MacMillan of Charlottetown, Lellan of Longmont, Colorado. Rotarian James Harris, who was recently married was presented with a silver vegetable dish, and an address by Rotarians H. L. Palmer and Orin McGregor, the two surviving bachelors of the Club. The address was read by the former, the blushing benedict making a brief but eloquent reply.

Rotarian MacLellan, who has been a Rotarian for eight years, attended seven International Conventions, and is just back from Ostend, where the last was held last June. He described some of the outstanding features of that gathering. The Rotarians from this side of the water, five thousand in all, crossed in 6 steamers. Rotary meetings were held each day, and the ships kept in touch with each other by wireless, exchanging notes on their programmes. He spoke of some side trips which he had taken from Ostend, including a visit to the battlefields and military cemeteries. In this connection he said a great tribute to Great Britain for the manner in which the last resting places of the heroic dead are looked after.

The programme included a vocal solo by Charlie Gallagher, and a violin solo by Miss Kathleen Horvath, both of whom were endorsed.
