SOUTH EASTERN ITEMS.—The sad and untimely death of Mr. Willie Irwin, eldest son of Mr. and Mrs. William Irwin, of Boston, has cast over the community where he was known a shade of sadness which cannot be easily removed. Mrs. Irwin, (nee Miss Jessie McLean) was a native of Heatherdale, P. E. I., where many of her relatives still reside and where her son, the deceased, was well and favorably known. Deceased, who was a young man just entering upon his eighteenth year, was killed by being struck by a railway train while on his way home from his work. For some time before his death he was in the employ of Messrs. Cushing & Co. who do a large grocery business in or about Boston. He was loved and respected by his employers as was shown by the handsome and valuable wreath placed by them on his casket, and by all with whom he came in contact he was universally loved, owing to his genial, manly and obliging disposition. He had been several times to this Island on a visit to his grandmother, Mrs. Alexander McLean, recently deceased, and his aunt Mrs. Murdoch Matheson, of Heatherdale. He contemplated paying another visit next summer, but on Feb. 17th 1899 death came between him and all his hopes, and he was cut off just as he was entering upon a life, which to all appearance, seemed full of promise. Besides his parents there still survive him a number of brothers and sisters to all of whom, together with his relatives on this Island THE GUARDIAN extends its heartfelt sympathy.

He was from the Klondike. He had seen the wonders of Big Skookum, Skookum Gulch and Lake Le Barge. He cashed his goods at the foot of Mount Tagish and had packed his back load of food for miles along the Skagway trail. When he entered the office last night he was a bronzed, grey whiskered six foot specimen of a Prince Edward Islander, a fine looking, intelligent and well developed man. In few words, he was Archibald Wright, of Bedouque, F. E. I. He went out to the Klondike last July, when the flowers were in bloom and everything inviting in the land of gold. He had staked claims on Bonanza Creek, and had seen some excellent prospects and some decidedly hard times. Just now Dawson is full of men. There is no work, consequently the police have to feed a number of men. At the mines, where men get a dollar an hour they are now glad to get 50 cents. As to there being gold in that country he said two men washed out \$160 a day at upper No. 1 Skookum. He says the royalty question must be settled before there will be a mining boom. He left Dawson in February with a handsled and a 100 pound load, and spent a month on the trail to Skagway. It was called 500 miles, but he considers it nearer 700 miles. He met many parties going in. One day the temperature ranged from 50 to 60 below zero and any portion of a person's face or hands exposed was almost immediately frozen. He considers it a great country with great possibilities, but thinks Prince Edward Island will do him the rest of his days. Mr. Wright had some very nice specimens of virgin gold. To-day he goes to his home in Bedouque.—St. John Telegraph.

A Good Watch

Is ruined, not by time, but by bad handling. Properly cared it will last a lifetime.

To run well it should be wound regularly and cleaned at least every 18 months. As in that time the oil will have lost its lubricating qualities, and the wheels begin to wear.

We do Watch repairing and charge moderately.
