According to advices received by Postmaster Whear, smallpox--the real disease--has developed in Postmaster Adam's family, at Seaview, in the New London District. Having been discovered in time, with prompt and proper precautions, and the immediate quarantining of the place, there is no reason why the disease should not be confined to a limited area. This is the time of year when smallpox flourishes. Fortunately Boards of Health have been established all through the Province, and, with the exception of a hospital for contagious diseases, there are sufficient doctors, nurses and enlightened people in Prince Edward Island to successfully combat this dread disease. Woods, foreman for the same firm, left last night for Toronto to be present at the 29th annual convention of the "International Custom Cutters Association of America" which is being held in that city, under the auspices of the Canadian branch of the Association. The finished garments will be placed on exhibition, and after passing through the hands of competent judges, prizes are awarded in the order of merit. The fine points of each garment are then made the subject for daily lectures. In this way the many cutters are informed of the many new styles, and the various new ideas which the trade is always developing. Mr. MacLellan informs the Guardian that during the last season brings a greater demand for better, and more stylish clothes, and he is determined to keep himself and his firm strictly up-to-date in all branches of the trade. D&A DE LUXE CANADIAN CORSET IS EQUAL TO PARISIAN MODELS IN STYLE AND SHAPELINESS BUT FAR MORE DURABLE AND MUCH LESS COSTLY

YESTERDAY and the previous day we told you a little about the great new range of corsets that we have just opened up for you. To-day we will go a little more into detail. We need hardly speak again of the importance of the long, slenderly graceful models made necessary by the present vogue of the Directoire. Just in passing--we cannot emphasize too often that the excellence of your costume is almost entirely a matter of the correct fit and proper lines of your corset--and above all that we have the right corsets. There is a D & A corset for every figure--we have most of them--if we cannot supply from stock we can procure in about six days. Directoire model--16 inches long, made of fine, close white coutil, slim, graceful shape, 4 hose supporters attached \$1.00. A beautifully made corset of fine strong white coutil, bias cut, strongly and firmly boned, deep over hip--4 hose supporters, top finished in lace and ribbon \$1.35. A particularly fine number is our 424, very modern in cut, low bust, very deep overhip, one of the most effective "slim hip" designs shown, 4 heavy hose supporters--lace and ribbon top, patent lace fastener \$1.75. The "Crest" finest of all corsets for stout figures--appears a new model--in accord with present style demands. This is the ingenious corset separated at waist line and lacing over hip with elastic laces. Hose supporters are attached \$2.25. Ordinary model Crest also \$1.35.

Our special No. 646 particularly smart model. Strictly first class in every way is this beautiful garment of heavy white coutil 16 inches deep at hip, low bust, 4 heavy hose supporters, top trimmed with wide and narrow ribbon, and fine lace. We strongly recommend this number \$2.75. Corsets from 50c to 3.50, every shape--every style that is good.

Another 59c Neckwear Sale. Some months ago we were able to offer you some very fine neckwear values at 59 cents. To-day we have some more of them beautiful collars in scores of styles--designs that have helped to make this store the one place for neckwear, neck pieces worth up to one dollar each for 59c.

Coloured Coats--sell at half. Just about a week more should see the coloured coat stock reduced to nothing at all at the present rate of moving. Now please understand us. We are not sacrificing these fine garments because there is anything wrong with them. They are all right and all new--the ranges are broken--we have not all the sizes--and more than all we need the room they occupy. Therefore we are taking a loss rather than carry the goods over.
