# FATHER CASSIDY BOOMS LIBERTY LOAN

In a characteristically powerful address at Fall River to boom the Liberty loan, Mr. James E. Cassidy, pastor of St. Patrick's church, created a deep impression when he declared that home rule for Ireland could not be the price of American patriotism, and that "home rule or no home rule, justice or no justice, Ireland shall not affect our patriotic unity." The address was made at the state armory, Father Cassidy speaking in part as follows:

Mr. Chairman, Ladies and Gentlemen: For the third time, while the whole world travails in agony and the bloodiest battle of all history is being waged on the hills and plains of Flanders, we, the people of these United States, are locking hands and hearts and purses in a common attempt to save, from threatened destruction, all that we hold most precious in public and private life.

We are assembled here this evening to cheer each other on amidst disaster, to resolve anew to allow no reverse to dishearten us, to send across the seas, where fight our fearless friends and countrymen, the assurance of our unchangeable steadfastness and our unshaken trust in ultimate triumph, to offer to our fighting forces alike the treasures of the rich and the scanty savings of the poor, for the upholding of right and the overthrow of wrong.

and rally soon, and rally strong with all our strength, the blood of our sons shall be shed in vain, the store of our wealth shall be consumed for naught and the bitter cup of dishonorable defeat shall be our portion. I believe, as I believe in God—yet believing it, I am not afraid.

### Defeat Can Be Avoided

For I know that defeat can be avoided and victory won by the very weapons with which our enemies hitherto have triumphed,—they are the only weapons that can carry us through as conquerors, and I know with implicit faith, that the world shall have no superiors to us in using them—and they are the weapons of unity and sacrifice. We must stand together as one man and we must sacrifice,—not to the last dollar, but as our boys across the seas are sacrificing to the last heart-beat, to the last blood-drop. We must have unity,—not only outwardly but inwardly,—not only of bodies but of spirit. There must be no seditious act, there must be no seditious word, there must be no seditious thought. We must not tolerate any longer any kind or quality of divided allegiance. Of whatever tribe, or kind or creed or color or tongue or origin, we must say to every inhabitant of these United States: "Under the flag or into jail," and if need be we must

say to every citizen: "Under the flag or under the sod? We must have unity even if it be through the firing squad. No country, no question must disrupt us if only . . ."

With all my heart and soul and being I plead and pray that justice be done to Ireland but I deny that home rule for Ireland is or can be the price of American patriotism. Home rule or no home rule, justice or no justice, Ireland shall not effect our patriotic unity.

Whatsoever may have been in the beginnings, we are not fighting today solely for the right of small nationalities to govern themselves; we are not fighting solely to make the world free for democracy; we are not fighting for the right of self-government for ourselves; we are fighting for the freedom of our democracy.

We'll help others to settle their problems if we can, but the failure of others to do mutual justice must not be allowed to affect or weaken our unified defense. . . .

Is there anyone here who refuses to help to row the boat of state? If such there be, then overboard with him! Is there anyone here who is not content with the measured portion of food and drink but would fill himself while others famish? If such there be then overboard with him! Is there any here who refuses to loan his gold and silver while myriads of his broth-

ers are pouring out their life-blood? If such there be, then overboard with him! Under the flag or under the wave! All cannot march away! all cannot march and die—but all can sacrifice. And the sacrifice that's now requested is the lowest form of sacrifice, the loaning of your money to each other.

### RECORD WOOL CLIP

REGINA, Sask., May 8.—Estimates made by the manager of the co-operative wool marketing branch of the Provincial Department of Agriculture show that a record clip will be sold by the department this year. About three years ago sheep farmers of Saskatchewan were invited by the provincial department to send their clip to Regina to the Government, instead of marketing it individually. The proposal met with instant favor, and each year has seen a large increase in the number of sheep farmers selling co-operatively through the Department of Agriculture. The wool is graded by government inspectors, and sold by auction in the United States market, the farmers being given a substantial payment on account when the wool is received, and the balance when the wool is sold. No charge is made by the Government in the way of a commission, only the actual expense being deducted.

## Paving The Way For Future Murder

LONDON, May 6.—The German wireless, which a few days ago sent out a despatch alleging that American aviators were crossing to Europe on hospital ships, reiterates these charges in a longer despatch today. The reason for the emphasis placed on this false charge by the Germans is pointed out here, is probably that they are laying the foundation for justification at a later date of the torpedoing of American hospital ships, in case any such ships are put in the trans-Atlantic service to carry home invalided soldiers. It may be recalled that similar charges were spread broadcast about British hospital ships, as a prelude to torpedoing them. The German wireless message today says:

"American aviators are crossing to Europe as members of the Red Cross on hospital ships. This misuse of the Red Cross appears from documentary evidence found on American aviators who have been shot down. An American brought down in the region of the army of General von Hutler, carried a pass which referred to him as a member of the American Ambulance Service for France.

"Prisoners openly admit that it is

the general practice for aviators to enter the American Ambulance Service for their passage to Europe and to cross on hospital ships. After they are landed in France they immediately transfer to the Automobile Corps and thence into the Air Service.

"The captured aviator referred to had, however, transferred directly from the Ambulance Service into the Air Service. Another carried a certificate in which the dates of several transfers were officially indicated.

"The British Admiralty has already denied the charge that American aviators were crossing on hospital ships, saying:

"No hospital ship, British or American has ever carried anybody but invalids and the necessary medical staff. The American naval authorities state that they have some few aviators who were in the allied ambulance service in France before the United States came into the war, but even in such cases these men crossed the Atlantic in ordinary ships, taking their full chance of being torpedoed."

Nothing new has come through either in the way of confirmation or denial of the reports in circulation that a counter-revolution had broken out in Petrograd and that Grand Duke Alexis Nikolaitovich had been proclaimed.

### Purpose Is to Sustain

I say that we are assembled here to cheer, to aid, to support, to sustain each other. Purposely I have omitted any mention of call from president, cabinet officer, or so-called "government." For in my soul I believe that there has been too much distinction of this kind. Too many are regarding as though it were another "Wilhelmstrasse." Too many are forming a concept of government, legislative, executive and judicial, as something separate and set apart with an entity and being all its own and with its singular and selfish ends; forgetting that there is in this land of liberty and right and justice no such thing as "government," distinct from all the citizens; forgetting that there is here no government but by the people, of the people; forgetting that every state, every country, every city, every town, every village, every humble law-abiding citizen is the government and that there is no other. Too many there are I say, who yet have failed to grasp that truth, who yet have failed to realize that Germany is not making war upon a personal Wilson, or a group called "congress," or some indefinite thing called "government," but that Germany is making war upon every man, woman and child in these United States of North America, upon every citizen of Massachusetts, upon every single dweller in Fall River, upon the members of your household and of my household; and that not President Wilson, not the senate and the house of representatives, not the secretary of the treasury, and the ghost called "government," but we, the people of these United States, all the people, rich and poor, high and low, weak and strong, in common phalanx stand, our hands, and our hearts, our lives, our treasures set against this Kaiser King, who, like a god of war, comes now in human form to rule the world by fire and sword.

And until we realize this, until we realize that this is not France's war, nor England's war, nor Wilson's war, nor McAdoo's war, nor the government's war, but our war, we shall go muddling along, hoping for peace where there is no peace in honor, looking for the end when the beginning has hardly come, and by our stupidity and blindness inviting disaster, defeat and destruction. Yes I dare speak of defeat and disaster and I dare to say that if we muddle along we shall not only invite it, we shall accomplish it. I have tried to make it clear to you that you're at war and unless you're a fool you know that we are being pushed to the ropes, that for the previous rounds the points are against us, and that unless we rally

# To Become Wealthy

Is an Ambition that is Cherished by Many.

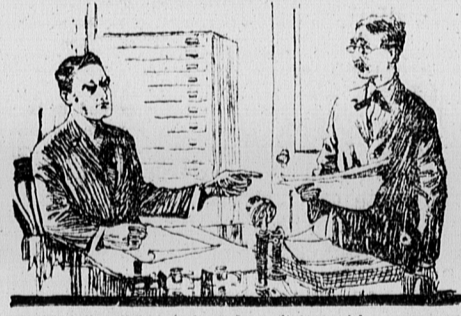

BUT OF 100 MEN—

ONE only will be wealthy—

FOUR will be well-to-do and able to enjoy comfort and recreation—

FIVE will still be working for a living with no prospect of relief from drudgery—

THIRTY-SIX will have died; in many cases leaving families enduring hardships—

FIFTY-FOUR will be dependent upon friends or relatives or charity.

You, perhaps, have the same ambition. At least, you want to be well-to-do later on, and able to enjoy life in comfort and independence.

### What are Your Chances?

Experience shows that of 100 average healthy men 25 years of age the following will be true at 65:

- 1 only will be wealthy.
- 4 will be well-to-do.
- 5 will be compelled to go on work-ing for a living.
- 36 will be dead.
- 54 will be dependent upon relatives, friends or charity.

## Facing These Facts—

can you afford to go along in a haphazard way without a definite plan of saving and investment; uncertain whether you will be well-off or an object of charity.

### The responsibility rests with You

It depends upon how you save and invest. There need be no such uncertainty about your future if you adopt the safe and definite plan of setting aside a deposit regularly each year for a Canada Life "Endowment at 65".

### It will guarantee you in Cash—

at age 65, the sum of  
**\$1,000 \$5,000 \$10,000 \$20,000**  
or more, depending on your ability to save.

### It is a Certainty

The full amount of your policy will be paid in any case, whether you live or die. Other investments may depreciate in value or fail. We offer you a certainty. The guarantee will take care of your home, or your business, or your personal interests, as nothing else can.

### Profits will hasten maturity

If the profits be allowed to remain at your credit each year instead of being withdrawn, the face of the policy will be payable to you before you reach 65.

Whatever your circumstances may be later on in life, you will welcome this fund of a few thousand dollars. You may need it then.
