The regular monthly meeting of the Junior League of the Charlottetown Hospital was held on Tuesday, Sept. 16th, at the Nurses' Home.

Mrs. B. H. Hughes reported on the work completed for the nursery at the Hospital.

Mrs. Simon Paol submitted the treasurer's report.

It was decided to hold a dance at the Whelan Memorial Hall on Friday, Sept. 25th.

Tea was served by Mrs. Fred Egan, Mrs. Walter Lawlor and Mrs. George Chandler.

The committees for the next meeting is Mrs. Pierce Doyle, Mrs. B. H. Hughes and Mrs. William MacDougall.

See Film On Work For Crippled Children

A very fine film called "Temple of Babes' Smiles" was shown last night at the Masonic Temple, to a large number of members, their wives and friends, as well as their special guests, the members of the Crystal Chapter of Eastern Star.

This film, which depicted the work of the Montreal Unit of the Shriner's Hospitals for Crippled Children, which is supported by the Canadian Masons, was sponsored by Mr. Norman Holland of Montreal, vice-president of the Montreal Unit, and shown and conducted by Mr. F. A. Flannery, Montreal, under the auspices of St. John's Lodge No. 1 and Victoria Lodge No. 2 of Charlottetown.

After seeing this picture one is greatly impressed with the wonderful work which this hospital is doing for underprivileged crippled children.

Before the show began, Mr. Flannery gave a very inspiring talk on the work done by this hospital, and during the show gave a splendid running commentary which was both instructive and humorous.

Besides the main film, several entertaining shorts on sports, comedy and music were shown. An added feature to the evening's program of entertainment were the two vocal solos rendered by Mr. Ivan Robinson accompanied by Professor R. Kendall at the piano.

After the show was over, a V.E. Camp was held, and Mr. Flannery, who was asked to convey the thanks of all present to Mr. Holland and all those responsible for bringing this film to the city.

10-DAY STORM

Jeans, was unroofed and the field inundated beneath a foot of water.

Thousands Seek Shelter—Nearly 9,000 refugees jammed New Orleans' municipal auditorium, many of them French-speaking trappers, fishermen and truck-farmers from flooded Bayou settlements south of New Orleans.

12-foot Tide—At Gulfport, Miss., a 12-foot tide flooded wide areas. On the beach, a 12-foot tide was carried away. The waterfront was littered with small craft, tossed and heading by the storm.

Mr. and Mrs. John R. Andrews of Portmouth, N. H., are visiting the former's brother and wife, Mr. and Mrs. James E. Andrews of Hunter River and sister, Miss Nettie J. Andrews of New Glasgow.

Land Survey In King's County Now Completed

Work on the improved land survey, initiated by the Provincial Government in 1944, has progressed to the point where the surveying of King's County has been completed and the area in Queen's, south of the Hillsboro River, finished.

More than 700 miles of traverse, or lines of direction, have been established and approximately 300 "monuments" placed.

The latter, made of creosoted hardwood posts four inches in diameter, are spaced at the top and their exact position indicated by means of a galvanised nail inserted with mathematical precision in the top.

Plans of the monuments—two monuments to a plan—have been prepared and will be available to the public at a nominal fee.

When the survey is completed, each district will have from 40 to 80 plans so that the whole area will be covered.

The field work for the survey, the investigation of the monuments, the meridian by solar observation every day the sun was visible, and the resultant voluminous notes and records connected with the survey, kept an office, busy in calculating, adjusting, checking and rechecking the various courses.

Just when the survey will be finished is only a matter of conjecture, states Hon. William Hughes, Provincial Secretary. At present the work is being held up by lack of sufficient competent surveyors.

Mr. Hughes stated that the Government was desirous of completing it as speedily as possible. The longer the work is kept an office, busy in calculating, adjusting, checking and rechecking the various courses.

Attended Maritime Hospital Convention

The Maritime Hospital Association executive committee met at Moncton, N.B., on Wednesday and decided to hold their 1948 convention at the Algonquin Hotel, Saint Andrews, during the week commencing June 16th, 1948.

A committee under the chairmanship of Dr. J. A. McMillan, Charlottetown, was appointed to study the problem of providing hospitals in the Maritime Provinces.

Representatives of the Department of Health of the Province of Nova Scotia and of the Red Cross Society were present.

They gave valuable suggestions in connection with the location and type of service to be given by out-patient hospitals and other hospitals that do not have the services or equipment to qualify as "standard" hospitals.

The hospitals at Grand Falls, St. Quintin and Dalhousie were admitted to membership in the Maritime Hospital Association.

Dr. J. A. Clark returned by plane to Summerside and attended the Baptist District meeting held at Belmont on September 18.

RAIL IMPORTS

(Continued from Page 1) 1946 period. However, the fact that the decrease in the number of cars of coal imported equals the overall decrease in car-load quantities of all commodities imported does not mean that the number of car-loads of the various other goods imported in August, 1947, were the same as for August of 1946.

Also, the great demand for cement for construction purposes has, despite the scarcity of that product, resulted in 24 car-loads having been brought to the Island, 1946, not one car load found its way to the Island. With molasses, the situation was reversed.

In August, 1946, nine car-loads were ferried to Borden; last month there was none.

Flour and feed imports for last month were slightly down, 177 to 186; so were gas and oils, 123 to 138, but one car more sugar, 14 to 13, came across last month than in August, 1946.

Whether or not the hens have been laying better recently only the Department of Agriculture would know, but five cars of eggs left the Province via Borden last month while only one car was shipped in August, 1946.

Exports of other farm products also showed more or less sharp decrease: 99 cars of livestock as compared to 148 in August, 1946; 17 cars of meats to 19; eight cars of potatoes to 12; 29 cars of turkeys to 37; and two cars of hides compared to three in August, 1946.

There was a 25-per-cent increase in five cars of cheese shipments.

The falling off in fish catches this year shows in the export figures. In August, 1946, 45 cars were shipped to the mainland; last month only 30 cars were ferried to Toronto.

The figures for the export of Irish Moss—ten cars last month compared to 18 in August, 1946—do not necessarily mean the receipts have diminished in that proportion, since buyers report the collections so far this season to be about equal to the corresponding period of 1946. Weather or other conditions may be delaying processing and buyers may be awaiting more favourable prices.

Another, that the Federal Government accept such concessions as the basis of the local financial contribution.

That the Federal Government "employ a more comprehensive and more imaginative policy with respect to housing" to gain technological wisdom, even including the building of experimental housing in selected communities.

That the National Housing Act be amended, if necessary to provide more liberal lending facilities with a view to encouraging credit-worthy families of limited means to own their own homes.

In connection with the last point, the Federation brief suggested that Central Mortgage and Housing Corporation, the Government's lending agency, should guarantee loans of 100 per cent for a dwelling not exceeding \$5,000 in construction costs; 90 per cent of any additional amount up to \$2,000 and 70 per cent of any amount in excess of \$7,000.

The Federation urged also that in order to finance the building of such housing while under construction, the Corporation should guarantee up to 25 per cent of the total loan as from the first day actual construction begins.

Interest rates should be at the rate of 3-1/2 per cent with loans to be amortized over a period up to 25 years and that where family heads, because of disability, are unable to work, the Government should issue joint family loans.

The Canadian Welfare Council brief, outlining what it felt should be the functions of the three government agencies, urged that the Federal Government establish a "national rent reduction fund" and amend the National Housing Act to permit the extension of loans to municipalities entering the housing field.

HARMLESS HAWKS—Most of the American birds known as hawks do not kill poultry or small birds.

Local Officer Presents Bell To Lunenburg

Highlight of the official opening Tuesday of the Nova Scotia Fisheries Exhibition and Fishermen's Reunion at Lunenburg was the presentation to Mayor L.L. Hebb of the ship's bell of H.M.C.S. "Lunenburg" by Lieut-Commander J.C. Birtwistle, representing Capt. F.G. Hart, commanding officer of H.M.C.S. Stadacona, Halifax.

Accompanying the bell was a scroll presented by Defence Minister Brooke Claxton which documented the achievements of the coast-guard during her four years service in North Atlantic and Mediterranean escort duty.

Mayor Hebb said the bell would be placed in the Court Chambers at Lunenburg's Town Hall, alongside the ship's plate which was presented to the town previously.

Lieut-Commander Birtwistle is a son of Chief of Police Birtwistle and Mrs. Birtwistle, City.

Jury Recommends Records Be Kept Of Shaving Lotion Sales

A coroner's jury last night found that Maurice Keoughan
