THRILLED FIFTH AVENUE

This huge totem pole in the window of the Canadian National Railways office, Fifth Avenue, New York City, has been an object of much interest since its erection, and it has received considerable prominence in the columns of the New York newspapers. Interested groups of people are always gathered in front of this little bit of Canada in the heart of New York, reading the legend at the foot of the pole and endeavoring to translate for themselves the story which the curiously carved figures have to tell. It is an authentic replica of one of the Totem Poles of the Haida Indians of Northern British Columbia who are noted for their work in this respect.

Loses an Eye Blasting Logs

Willfrid Cann, aged 24, son of Mr. Thomas Cann of Kingston, P. E. I., met with a serious accident a few days ago and it is only by a miracle that he was not blown to pieces. Willfrid was blasting logs for firewood. He lit the fuse attached to a charge in the log and after waiting some time and hearing no explosion he thought the fuse went out and went up to light it again, when the charge of powder exploded. The young man was badly lacerated about the hands and face. The men near him rushed to his aid, and as Dr. Murchison, the family physician, was in Charlottetown, Mr. George Dixon promptly arranged by telephone with the Doctor to have Cann taken to the Prince Edward Island Hospital, where he was brought in in record time.

Unfortunately one eye was so terribly injured that it had to be removed.

Though his injuries are severe and his face badly burned with powder he is doing as well as can be expected.

In Memoriam MISS EMMA MacWILLIAM

Miss Emma MacWilliam died Saturday night at the home of her brother, Charles M. MacWilliam, in Catalpa avenue, Perth Amboy. She had been ill about six months and was unable to resume her work as a vice principal of the public schools when sessions were resumed in September. She tendered her resignation, after thirty-eight years of service, marked by faithful and efficient devotion to her work, linked with an unusual degree of deep and intelligent interest in the children who, were from time to time during that long period under her care.

Miss MacWilliam came to Perth Amboy from Summerside, P. E. I., with her parents, the late John and Ann (Lawson) MacWilliam, forty-two years ago. Her brother is the only survivor of her immediate family. She made her home with him since last summer.

Funeral services will be conducted by Rev. Adolph Allen of the Presbyterian church, of which Miss MacWilliam was an active member. Services will be held at 2 o'clock tomorrow afternoon from the home of her brother, 71 Catalpa avenue, interment following in Alpine cemetery.

Miss MacWilliam was a woman of superior mental attainments and she left a deep impress upon the schools and the pupils. Her term of service was unusually long and through it all she did her utmost to guide the children aright out of

school as well as when they were in the room. Her efforts are gratefully remembered by men who are heads of families and her good work in this line has been frequently commented upon since her resignation called attention to her serious illness and the end of her labors for the welfare of the children of Perth Amboy.

—SAD DEATH—A very sad death occurred at Kensington on Wednesday afternoon, when Mrs. Alfred Essery passed away after a week's severe illness, her death is keenly felt by her grief-stricken husband. She leaves five young children, three boys and two girls, James, George, Robert, Margaret and Dorothy, who will sorely miss a mother's loving care. Mrs. Essery (whose husband is one of our returned heroes) was Miss Jean McLeod, of Halifax, where her relatives reside. Much sympathy is extended to the bereaved husband.

—WINTER SPORTS.—Residents of Summerside and Prince County generally have no need now to journey to Upper Canada to revel in the much advertised winter sports at the famous resorts. The recent storm has provided real Canadian winter and supplied the setting for restful and healthful winter sports. From Saturday on snowshoeing, skiing, coasting and other winter sports were the order for young and old of both sexes. In fact the costumes were no indication of the sex in many cases. There is nothing like it and the only thing needed in Summerside now to complete the fun is a toboggan slide.

...GETTING PLAY READY.—The St. Margarets Dramatic Club met Sunday afternoon at the Parish Hall for the purpose of putting on the boards a new play. The meeting for Friday evening being impossible on account of the storm. With such a succession of stormy weather it is a difficult matter for the players to meet in the country for rehearsal and preparation and possibly may yet present their old and so well received play "Aunt Jerusha on the War Path" for the pre-lent presentation.

...RADIO BROADCASTING.—To Mr. L. Arthur McDonald of Souris goes the credit of being the first island radio listener to receive a foreign broadcast during the international tests, in which the announcers initials, and the titles of the different programme numbers were "logged." At the beginning of the test hour on Wednesday and using a three tube home built receiver, radio station L.O.Z. at Buenos Aires, South America, was received most clearly and the following numbers heard: Orchestra selection, "Argentine Tango"; quartette number, "A Dream"; guitar selection, "In Spain, Waltz". The last selection was dedicated to the New York Trades Association and the announcer then gave a short talk on the betterment of trade conditions between North and South America. His initials were F.J.B. An announcement was also heard from station O.A.X. at Lima, Peru, at 12:25 the same evening, but the numbers were not clearly received. The distance received was approximately 6000 miles, and is considered even more remarkable than that of a Charlottetown listener who used a seven tube super-heterodyne. All the numbers

Every-day magic

Chairs that flop into beds . . . bags that suck up dirt . . . tiny ticking things that count all day long for you. Daylight any night just by pushing a button. A stream that never stops till you turn off a faucet. Any voice you want, talking to you from a cage on your desk or wall. Actions of yesterday, of people miles away, going on on a curtain before you. Stilled throats singing to you from discs; distant throats singing to you from nothing!

Uncanny, daily magic—this, due to national advertising. Advertisements have given you flashlights, telephones, typewriters, automobiles, cold creams, motion pictures. They have given you new eyes, new ears, new hands, new feet, new faces, new emotions. They have urged such wide use, so lowered prices, that almost wishes are autos, almost beggars can ride. Through advertisements you've laid down the shovel and the hoe. You can buy a whole harvest ready-to-eat in cans. You've hung up the fiddle and the bow, for a radio. There's little old-time work left in this age of amazing short-cuts.

Read the advertisements. They keep you to the fore of modern life.
