The regular meeting of the Young Peoples' Society of the Presbyterian Church, Montague, was held at the home of Mr. and Mrs. Douglas Nicholson, Wednesday evening, November 10th. The President, Miss Anne MacEachern, presided. The meeting opened with a devotional period led by Miss Stue Hemphill. She was assisted by Miss Bernice Reid and Mrs. Bryon Stewart. The Hymns: "Faith of Our Fathers" and "God Our Help in Ages Past" were sung. Fourteen members responded to roll call with a verse of Scripture from Corinthians. The minutes of the last meeting were read and approved. A meeting was read from Rev. F. A. Gordon Faraday regarding Missions and it was decided to discuss this letter at a later meeting. The Bible study was conducted by Rev. F. A. Young. The rest of the meeting was spent in making arrangements for a supper to be held later in November. The meeting closed with the Mizpah Benediction in unison.

On Friday morning the Grenfell mission ship "Nellie A. Cluett" left for Newfoundland with a full cargo. The "Francis Lorraine" formerly the U. S. A. racing schooner "Shamrock" also left with a full cargo of vegetables. Unfortunately the Francis Lorraine was drawing 17 feet of water and was lying on the bottom. The "Cluett" gave the ship a line, and literally dragged her through the mud past MacEachern's point. It has been noticed that during recent years there has been a serious silt fill-in in the channel so that at present there is barely 15 feet of water in certain places. Last winter the government surveyed this fill-in but no work was done in clearing the channel. There is definite need of dredging the whole channel from Montague almost to Lower Montague for many ships are having difficulty in getting in to Montague. Without doubt a far greater number of ships would come to Montague if there were ample water for deep drawing vessels. Such increased shipping would mean a great deal to export trade of Montague, and as a whole. However, until the river is dredged, the large vessels will continue to have difficulty coming up the river and it is hoped that this necessity will be looked after next summer.
