**EAT and Get Thin**

This is turning an old saying face about, but modern methods of reducing fat have made this revision possible.

If you are overfat; opposed to physical exertion; fond of the table and its good things, and still want to reduce your excess flesh several pounds, go to your druggist (or write to the Marmola Co., 96 Garfield Building, Detroit, Mich.) and give him, (or send them) one dollar, thus satisfying your ambition for a trim, slim figure, by receiving a good size box of Marmola Prescription Tablets (compounded in accordance with the famous Marmola Prescription); take one of these pleasant candy tablets after each meal and at bedtime, and you will lose your fat at the rate of two, three or four pounds a week.

Then continue the treatment until your weight is what you desire. Marmola Prescription Tablets are not only harmless but really beneficial to the general health. You don't need starvation diet or weakening exercises. Just go on eating what you like, leave exercising to the athletes, but take your little tablet faithfully and without a doubt that flabby flesh will quickly take unto itself wings, leaving behind it your natural self, neatly clothed in firm flesh and trim muscles.

Harry Wills and Sam McVey have been barred from again appearing in Philadelphia, for alleged stalling. Both men are heavyweights.

VALUABLE FARM.—The Glenroy farm containing 250 acres in Lot 36 was recently bought by Mr. James McKenna of Tracadie Cross. This is a fine old property and under the skilful management of Mr. McKenna, will soon become a profitable investment.

THE FISHING SITUATION.—The bad weather of the past week has proved very unfavorable for the fishing industry. However, there was one day during the week when some very fine catches of mackerel were taken in nets off Rustico. The unfavorable weather has caused a considerable falling off in the catch of lobsters in the late season.

ROTARY LUNCHEON.—Instead of the usual addresses the Rotary programme following the regular weekly luncheon at the Davies yesterday was diversified by a very amusing series of demonstratons in "phrenology". Rotarians R. H. Jenkins who presided and Rotarian Geo. D. DeBlois had charge of the operations. Cards having the outline of the human physiognomy with the "bumps" all plainly labelled were passed around. These cards also had the following notice: After you've eaten things galore, You've yet another treat in store, Professors wise will tell your fate: By looking o'er your woody pate. Some of the readings of the learned professors proved wonderfully accurate, and that performed by Rotarian McKee who was blindfolded made some of the brethren sit up and take notice. Mr. Charles Earle delighted all with a splendid solo which was heartily encored.

A VALUABLE HEIRLOOM.—Colonel Moore of this city is the proud owner of a photograph which will be a valuable souvenir for many generations to come in the Moore family. It is a group of twenty-seven members of the Moore family who participated in the Great War, some in the Canadian some in the United States and some in the Australian army. In the group there are two Lieutenant-Colonels, three majors, two captains, one lieutenant, three sergeants, four corporals, one nursing sister and a number of gunners and privates. Of the 27 three were killed in action; two wounded and one a prisoner in Germany. Few families in Canada can make so good a showing and Col. Moore, who is himself a soldier, is justly proud of the family record.

HAS P. E. I. SECRETARY.—The St. John Telegraph says:—A. H. Smith, president of the New York Central and Hudson River Railroad, was in St. John a short time on Saturday on his way home from a trip to Europe. Mr. Smith came in from Halifax in a private car, having landed there from the steamship Caronia of the Cunard line. Mr. Smith was regional director of United States railroads east of the Mississippi and north of the Potomac rivers during the war. He started his railroad career as a messenger and worked his way to the top. He said his trip to Europe was one for pleasure only and that he had not had a vacation since the war began. His private secretary, J. B. Dwyer, who met him was formerly a resident of Prince Edward Island. The New York Central belongs to the Vanderbilt system of railroads.

TALENTED ISLANDER.—Brief reference was made in a recent issue to the fact that Mr. Robert Messervy, son of John A. Messervy of this city had taken first place in the musical competition at the Toronto Exhibition. Toronto papers just to hand comment voluminously on this great competition among Canadian musicians, and publish photographs of the different groups, among whom Mr. Messervy is prominent. There were in all 145 competitors whose performances were judged by 25 of the most talented musicians in the musical schools and colleges in Canada. An immence throng listened to the music and the singing for over three and a half hours. Each of the judges gave his award individually and Mr. Robert Messervy won out with 82 points, his nearest competitor being given 81 points. Mr. Messervy's performance is very highly commented upon and the fact that he, a stranger from a little remote province, captured the laurels from the big province of Ontario under Ontario judges, speaks volumes for him. The Guardian heartily congratulates Mr. Messervy on the very great credit he has won for himself and his native province.

**The Sharp-Tailed Grouse**

—this is the Prairie Chicken of the West. It is a typical resident of the treeless plains, the bunch grass and sage brush hills of the prairies and the interior of British Columbia, but to the northeast it may be found in almost continuous forest as long as it is not too dense and there is a good admixture of poplar and willow.

The range of the Sharp-Tailed Grouse extends to the barrens of Northern Mackenzie, Keewatin and Ungava. There are three sub-species of this bird—the Sharp-Tail, which is found from Central Alaska to Western Ungava and south to Parry Sound, the darkest colored of the species; the Columbian Sharp-Tailed Grouse of the interior of British Columbia, and the Sharp-Tailed Grouse or Prairie Chicken of Alberta, Saskatchewan and Manitoba. This last is the palest in color.

The Prairie Chicken lies well to a dog and flies strong, and the hunter should insist on dependable ammunition for this bird, such as

## Of Interest to Horsemen

**Horses Change Again.**

ST. STEPHEN, N.B., Sept. 15.—"Peter Farren and Forefather, St John horses which have been under the management of L. R. Acker of Halifax, for the last few weeks will part company with the Acker stable here. It is understood that D. O'Keefe of St. John, their owner, has ordered them turned over to Kid Dryden of St. John, who is here. They will both be sent from here to Fredericton for the races there next week, while Bingen Worthy and Signaller, two horses which Mr. Acker owns will go direct from here to Charlottetown."

**At. St. Stephen.**

ST. STEPHEN, Sept. 15.—The racing this afternoon was of gilt-edged variety. The 2.30 mixed was probably the most interesting as it was unfinished and will be put on first tomorrow afternoon. In the last heat of this race, Jennie Hal, who was picked to win went lame, and Comeswague Kate landed the heat. In the 2.16 trot Bill Sharon had things mostly his own way and was never in any danger only in the last heat when he made two breaks and Border Prince took the lead but only to hold it a short time. The 2.24 trot was a race from start to finish all three horses at many times could have been covered with one blanket although Nutwood was probably the biggest rival that Bingen Worthy had as the Machias mare made the big stallion step from wire to wire. In the third heat Nutwood Lou threw a shoe which landed back on the wheel of her sulky and which was a big hindrance to her.

Following is the summary:—

**2.16 Trot Stake, Purse $500.**

**At. Woodstock.**

WOODSTOCK, Sept. 15.—When the races were started, two thousand persons were in the grand stand and the space around the home stretch was lined two and three deep with interested and excitable faces. The track was in excellent condition and it was a horse race in every event, from start to finish.

**World's Record.**

SYRACUSE, N. Y., Sept. 15.—A world's record was broken and another equalled at the State Fair Grand Circuit meeting today. Prince Loree set a new mark for double gaited horses when he paced a mile in 2.02 1-2, breaking the world's record held by Harvester, at 2.06 1-4, for the trot and 2.04 1-4 for the trot is 2.03 1-4; Prince Loree is owned by Captain David Shaw, Cleveland, O., and was driven in today's exhibition by Michael McDevitt.

Trampsa trotted the world's record for three-year-old pacing colts of 2.04 1-4 in the 2.13 class pacing event General Todd established the mark seven years ago. The time equaled the fastest heat at the Syracuse meeting made by Peter Manning in the first heat of the Empire State stake. The time of the three heats was the fastest of the Syracuse meeting.

HAVE you got $3.25? All right, this advertisement is written to tell you how you can invest that $3.25 for five years—maybe ten—and get dividends several times a day.

For time is money and an Ingersoll Maple Leaf—price $3.25—keeps time—good time—and with any sort of care lasts five or ten years. Less than a cent a week for time-keeping service!

The dividends are in moments saved, which mean money earned.

And the Ingersoll doesn't fall down on the job just because it happens to fall out of your pocket occasionally. Such an accident is a mere incident to the Maple Leaf—it's a catastrophe to most watches.

One repair bill on an expensive time-piece would buy a Maple Leaf, with enough left over to pay for that wonderful 75c Radiolite Dial that tells time in the dark.

## FASHIONS FOR CANADIANS!

The best suit purchase, the one that will almost certainly give the longest service, is the perfectly plain color or plaid fabric. Novelties in suits are shown in great numbers, but as a matter of fact the woman who gets the most for her money in the matter of clothes, buys novel and more or less elaborate things for home and evening wear and adheres to rather severe lines when selecting garments for street wear, no matter weather a frock or suit is under consideration.

A plain tailored suit is good just as long as it lasts, as skirt length is never settled by any cut and dried style rule. Skirts width is pretty nearly as individual a subject. The woman decides how wide or how long her skirt shall be, with Dame Fashion's recommendations used merely as a guide.

The sketch shown here illustrates a conventional suit made of checked worsted and trimmed with bindings and panels of soutache braid. The suit may be in black and white check, always smart and servicable, or blue and white or brown and white may be chosen. The braid, set on in panels all around the coat, is used to bind the edge of skirts, sleeves, front of coats and collar.

Suit manufacturers bring out all sorts of novelties and oddities every season in the hope of stimulating a big business in suits. Bargain sales at the end of each season usually find a good many of these novelties and oddities waiting for purchasers. This season sees a suit line featuring the fitted basque bodice, the redingote or directoire

type of garment, the straight hip-length coat and the conventional semi-fitted coat, strickly tailored.

With all this variety, however, according to present indications, the straight line conventional suit will be the favorite.

Plaids and checks and a few attractive mixtures give variety to the fabric line-up.

## Beauty's Ambition

**To Rid the Face of Pimples and Such Blemishes is a Step Toward Life's Chief Accomplishment**

One of the most aggravating conditions to any woman is the presence of pimples and such blemishes. Her ambitions are first a home, then children and then her appearance.

One of the greatest blessings she can have is a fine, fair skin on face neck and arms. The use of Stuart's Calcium Wafers now and then for the blood condition makes this possible. Women are great sufferers from skin disorders and hence their complexions are marred because of this fact.

Stuart's Calcium Wafers give you a complexion that rivals the ideals of an artist to produce. By acting upon the skin and blood they thus contribute to a more beautiful complexion.
