Halifax Has New Record

HALIFAX, N. S., Jan. 29.—A record for any port from New Orleans to Montreal to shoot at was established on the Halifax waterfront on Saturday, January 19, when the 7,435 ton steamer Lord Strathcona was loaded with 9,743 tons of grain in the elapsed loading time of 34 hours and 39 minutes.

The Lord Strathcona's record load added further incentive to the friendly rival of Captain Clibborn, the Nova Scotian who commands her, and Captain Luke Holmes, the veteran New Brunswick master of the Rose Castle, a ship almost identical with the

Children's Colds Doubly Dangerous After the Flu

Physicians advise that the chief danger in this epidemic is after influenza. Then, more than ever, colds attacking the weakened system may lead to bronchitis, pneumonia, or a second and more severe case of flu. This is especially true of children.

Col. Robert W. Stewart, chairman of the board of the Standard Oil Co. of Indiana, in his Chicago office. Col. Stewart is fighting back at Mr. John J. Rockefeller, Jr. for retention of his office with the oil company.

REPAIRED CRUISER SAILS

HALIFAX, N. S., January 30.—His Majesty's light cruiser Dauntless with a new steel bottom replacing the plates damaged on the ledges of Tribune Shoal and a new command-er in charge, sailed today for Portsmouth, England, after almost seven months' absence from active service.

She was at first thought to be a total loss, but was put back in a seaworthy condition in drydock here. Captain K. D. W. MacPherson and the navigation officer on duty at the time were subsequently retired.

Ski-Running Pre-Historic Sport

STOCKHOLM, Sweden, Jan. 30.—(By The Canadian Press)—Ski-running, that most ancient of winter sports, dates back to prehistoric times. The ski undoubtedly originated in Scandinavia, according to the researches of Prof. K. B. Wiklund, the well known Lapland expert at the University of Upsala in an interesting treatise on the history of the ski and the snowshoe.

Already in olden times the ski sport held such an important place in the life of the Swedes that heathen mythology includes a special deity who was the patron and protector of all ski-runners. The god of the ski was called Ull, and his name is still found in many Swedish place names, such as Ultana, Ullevi, etc.

Acids In Stomach Cause Indigestion

Create Sourness, Gas and Pain. How To Treat. Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist some Bisurated Magnesia and take a teaspoonful of powder or four tablets in water right after eating.

Pownal News

Mr. Fred Carver accompanied by his sister Mrs. Madge Singleton arrived here Saturday night in response to a message regarding the serious illness of their mother Mrs. Lemuel Carver, Pownal Village.

The flu which hit our little village and suburbs so heavily is practically all cleaned up while the adjoining district Alexandria is still suffering, the school being closed at the time of writing we are pleased to know the teacher has not contracted the malady.

Mrs. Herbert Thompson and Mr. Irving Thompson Dunstaffnage motored to Pownal recently.

Her many friends will learn with regret of the serious illness of Mrs. Louis Haden Cherry Valley.

We are very sorry to learn of the continued serious illness of Mr. Roy Mutch, Earncliffe who is suffering from pneumonia.

Mr. Hollis Moore, city, motored through Pownal recently.

The car road in this section of the province is just like a railroad track and as one motors along these cold frosty January nights in a closed car we are compelled to think it is June not January.

Mr. Garfield Jenkins who has been residing in the United States for a number of years is spending a month in Pownal. To quote his own words, "Every one seems to be grown up" which make one feel old. All are glad to see Garfield.

The residents of Pownal were sorry to learn of the passing of little Anita Joyce, infant child of Mr. and Mrs. Wilbur Wood of Alexandria. For a few short weeks she gladdened the home of her parents, now she is in Heaven. Did not our Master say, Suffer little children to come unto Me and forbid them not for of such is the Kingdom of Heaven.

Without suffering there could be no fortitude, no courage, or forbearance. The beauty and grandeur of the starry heavens are only to be seen when set against the brow of night, so sorrow often reveals to us our Father, whom the sunlight of prosperity and pleasures hide. Sorrow is one of God's own angels in the land. Her pruning-knife may not spare the tender bonds of hope that make glad the garden of the soul, but her prayers sow the seeds of a quick sympathy with the woes of a common humanity, which springing into leaf, and bud and blossom, send perfume and beauty into the waste places of lonely lives, and permeate with fragrant incense the soil that gave them birth.

More Sleep for Mother SHREDDED WHEAT

Saves time because it's ready-baked. Warm in oven and serve with hot milk. Healthful protection for the whole family. Made by The Canadian Shredded Wheat Company, Ltd.

That women's feet are growing larger, and as a consequence dealers are unable to sell their stocks of the smaller sizes of shoes, is a complaint recently made by some of the leading shoe stores of Paris. Size 9 is the average for European women of today, and the smaller sizes are being sold in some cities at lower prices in order to get rid of them.

Sunbeam Laying Mash

This famous, scientific feed, has been proved to possess remarkable qualities for which there is no substitute. It gives hens power to make maximum egg production, insures health of the birds and gives fertile eggs a high degree of hatchability.

These claims are attested by the experience of L. R. Guild and Sons, the famous poultrymen, whose letter is here reproduced.

Standard Milling Company, Toronto.

In regard to the Laying Mash we feel that we cannot praise it too highly. Last Spring we did considerable experimental work along this line using a number of different mashes, some containing animal proteins from one source only. We tested the hatchability from these pens taking the eggs in which the chick died the eighteenth and nineteenth day to Professor Graham of the Ontario Agricultural College.

Without suffering there could be no fortitude, no courage, or forbearance. The beauty and grandeur of the starry heavens are only to be seen when set against the brow of night, so sorrow often reveals to us our Father, whom the sunlight of prosperity and pleasures hide.
