

Guaiacol Emulsion of Cod Liver Oil

If your little daughter is not so robust and sturdy as you would like to see her, give her Foster's Emulsion of Cod Liver Oil with Guaiacol.

This is a fine old standard remedy, a great flesh producer—prescribed for either children or adults who lack flesh or strength.

It has been known to arrest the ravages of wasting diseases and is a great help in restoring thin or emaciated convalescents to complete health.

The addition of Guaiacol adds greatly to the germ-killing power of this preparation. Easy to take. Try it 60c and \$1.20 per bottle.

Martial Law in Varna

PARIS, April 4.—The Sofia correspondent of Le Martin reported today that extremist socialists in Varna attempted a Bolshevik movement. The town was occupied by British troops who declared martial law.

TERRIBLE ENGINE OF WAR INVENTED

WORCESTER, MASS., April 5.—Dr. Robert E. Goddard, professor of physics at Clark College, acting under the patronage of the United States War Department, the Smithsonian Institution, Clark University and Worcester Polytechnic Institute has invented a new rocket that is reported to be a terrible engine of war, with an altitude range of 70 miles straight up into the air and a distance range of at least 200 miles.

The rocket in the opinion of the scientists who have investigated its workings, is the most efficient rocket ever developed. It is claimed the best known rocket in use today has an efficiency of less than the three per cent while the Goddard rocket has an efficiency of 3 per cent.

The rocket has been developed in a special laboratory at Worcester Tech, and the signing of the armistice prevented its being put to actual use in warfare against the Germans, as all the local tests had been completed. These tests, made by models, showed that a rocket weighing 30 pounds, equipped with the Goddard system of propulsion, could be sent into the air far above the earth's atmosphere.

The Goddard rocket is propelled by a perfected gas engine installed in the lower part of the shell, the explosions that generate the power coming from cartridges that are fed into the chamber by a clock-like time device. The range of the rocket is limited only by the amount of propelling cartridges it could be fitted to carry. The rocket is in the head, where a man can get. The weapon feature of the rocket is in the head, where a chamber is fitted to contain either high explosives or gas. Men who have followed the development of Dr. Goddard's rocket claim it can be made as efficient in naval warfare as in land battles.

A PARADOX

From The Washington Star.
"I have no superstitions whatever."
"What's the reason?"
"I have observed that superstitious people are nearly always unlucky."

Doctor Prescribes Vinol

DOCTOR PRESCRIBES VINOL. For This Weak, Nervous Mother, Because He Knows the Formula.

Jacksonville, Ill.—"I have a twenty-months old baby and keep house for my little family, but got into a weak, nervous, run-down condition. I had all the time and no ambition. My doctor told me to try Vinol and I am now strong again, look after my baby, and do all my housework."—Mrs. G. H. Lamson.

The reason we recommend Vinol, is because it is a constitutional remedy, containing beef and cod liver peptones, iron and manganese, peptones and glycerophosphates, the most successful tonics known.

E. A. Foster, Central Druggist, Charlottetown. Vinol is sold in Montreal by H. J. Mahon, and at the best drugstores in every town and country.

and comprise gun metal patent, mahogany, chocolate in buttoned and laced. Never did you see a finer lot and the prices defy competition.

MORRIS SMITH-BEER

Reception To Returned Soldiers

On Wednesday evening, April 2nd, the Court House at Bonshaw was filled by the people of that locality, eager to do honor to two of our returned heroes.

After singing of the opening chorus the chairman, Mr. C. W. Crosby, gave a short address in which he heartily welcomed the boys—the first to return of the Bonshaw School District who have fought at the front for Home and King and Country. He made feeling reference to the fact that four of the ten had made the supreme sacrifice, one being among the first from P. E. Island to give up his young life, and another after four years of service, passing away after the armistice was signed.

After a short programme, consisting of solos, readings and choruses an address accompanied by a ten dollar gold piece was presented to each of the young men by Misses Elsie McLeod and Catherine McNeven.

Messrs S. Beaton, Alan Stewart and McFadyen in short appreciative speeches complimented the boys up on their splendid record at home and abroad and wished them every prosperity and happiness as they go out to make for themselves homes in the West.

The ladies then took charge and served ample refreshments to the large audience.

Following is the address:—
We, your friends and associates of Bonshaw desire to honor the brave part you have taken in the defence of your Country and to extend to you a warm and hearty welcome on your return home.

It is with pleasure and pride that we recall the fact that in 1916 when Canada called for volunteers to go to the support of their fellow Canadians who were fighting on the fields of France in defence of the cause of Freedom and Humanity that you promptly responded to that call and volunteered abroad. In doing so you have the signal honor of having been engaged in a war that will live in history for generations to come.

This sacrifice you have borne in leaving the pleasures of a peaceful, happy land to go and fight for your King and Country, you have marched against the enemy to prove to the world that right should be enthroned and that German militarism should be swept away from the universe.

You have fought and suffered that we at home should live secure in peace and happiness.

This little reception is a feeble mark of respect and honor that we owe you and it is our sincere wish that you may be spared many years of prosperity and happiness.

As returned soldiers you share the honor and gratitude of a free people whose freedom has been purchased by sacrifice, you have merited our respect and admiration by your conduct and we will always look with pride upon your name as it stands upon our country's proud Roll of Honor.

In conclusion we now ask you to accept this token as a very slight recognition of your service.

God keep and guide you through your paths of life.

REORGANIZATION OF U. S. ARMY BEING PLANNED

WASHINGTON, April 4.—Army reorganization plans upon which the war department is now working, it was learned today, provide for an air service with approximately 1,700 airplanes in actual commission and a minimum available reserve of 3,400 additional planes. This is based upon the proposed military establishment of 508,000 men in which total the air service personnel will be 1,923 officers and 21,853 men.

The organization table shows that the air force on a peace basis will be comprised of 87 service squadrons of which 42 will be assigned to coast defence work in the United States and insular possessions; 20 will be pursuit squadrons and 25 observation and bombing squadrons. The typical army plane squadron includes 186 planes in service and their personnel.

The tables also call for the maintenance of 42 balloon companies (divided into three wings of fourteen companies each).

The general plan of the army reorganization calls for 21 divisions, including one cavalry unit of nine regiments, to be formed into five army corps, each to be commanded by a lieutenant general. To each corps will be attached five observation and bombing squadrons of airplanes and four pursuit squadrons, representing a wing formation for each type of machine.

The effect of this will be to give the air service definite recognition as the fourth of the line, or combat forces of the army, the others being the old trio of artillery, cavalry and infantry. All other units are supplemental forces generally known as auxiliary arms or staff corps troops.

Carrying out the organization of

For Special Train Arrangement See Announcement Elsewhere in Press

this new element of the line, the tactical formation of the airplane branch of the air service will be in squadrons, groups and wings and the balloon section in companies, groups and wings. The formation is elastic, however, above the squadron, two or more squadrons, as circumstances require, forming a group and two or more groups a wing. The same arrangement prevails with the infantry division, two or more of which form a corps. Machines in sufficient numbers to equip all of the air units planned for are now being stored at the aviation fields that are being retined by the government. Storage capacity has been provided for approximately 6,000 complete planes, not including those in service or in immediate reserve with the squadrons.

THREE OUT OF FIVE WOMEN IN CHICAGO VOTED FOR "WETS"

CHICAGO, April 4.—The pronouncement of wet vote in the election here yesterday was said by "personal liberty" leaders to mark the actual beginning of a campaign to repudiate national prohibition.

TO KEEP UP FIGHT.

"Through the overwhelming defeat of the dries, Chicago has spoken in tones that will ring in the ears of those subservient law-makers who have so cravenly surrendered the liberty of American citizens at the dictation of a clique of paid prohibition lobbyists. There will now be no let up in the protest against prohibition tyranny until the freedom of the people has been fully restored to them. This is the message Chicago sends to Congress."

THINKS IT SEDITIOUS.

On the other hand, E. J. Davis, Chicago superintendent of the Anti-Saloon League, said:—

"I am not surprised at the result. We made no fight and asked no one to vote for a dry Chicago. To have done so would have to dishonor the acts of Congress. The efforts of the Chicago wets to us Chicago results in an effort to terrorize Congress and the Supreme Court is little short of seditious."

The wet and dry election was planned for two years ago, but court proceedings delayed it until yesterday. Meanwhile the Presidential proclamation and the prohibition amendment to the constitution deprived local option, which was the issue on the ballot of its importance, except as allowing an expression of sentiment. Had the amendment carried, Chicago saloons would have been compelled to close May 1 next.

HAD TRUST IN HER BIGAMOUS HUSBAND

PHILADELPHIA, April 3.—Mrs. Wm. M. Stuart, a pretty light haired woman of twenty-four wishes today she had taken the advice of the priest who married her to make sure her husband, now under arrest, did not have another wife living. Mrs. Stuart married Wm. Stuart, formerly sporting editor of the Montreal Standard, a \$3,000 clerk in the investigating branch of the Plant Protection section of the Emergency Fleet Corporation last December. He was arrested yesterday on a charge of embezzling \$17,000 from the corporation.

"I did not know Mr. Stuart very long," the second wife declared, "I made no investigation of his past before I married him because I loved and trusted him. When we went to get married the priest asked how long I was acquainted with him. You should look into this more closely before taking such an important step," he said. "You cannot be sure that another wife won't turn up and walk through your door some day."

"I never knew exactly what Mr. Stuart did. He was very guarded in his talk. He told me that he was sent on missions that were important, but secret. He never said anything about another wife. He told me he had worked in Quebec and Chicago. I got many letters from him when he was on his recent trip to Texas."

Reports were current today that Stuart might plead he is insane. He readily admitted both the embezzlement and the bigamous marriage. He said he could not understand why he married a second time.

RECESS AT EASTER FOR PARLIAMENT

OTTAWA, April 4.—Sir Thomas White gave notice of a motion in the House this afternoon for an Easter recess from 6 p. m. on Thursday, April 17, to 3 p. m. on Tuesday, April 22.

In reply to a question by Mr. Anderson, the Hon. Mr. Rowell said that there now were 854 totally disabled soldiers on the pension list. Of these 39 had lost both eyes. Since July, 1915 the number of ex-soldiers suffering from pulmonary tuberculosis who had received treatment, and who had been discharged, or who had died, totalled 5,730. There were now 1,712 under treatment.

Replying to Mr. Sinclair, Hon. Arthur Meighen said that the total expenditure in connection with loans under the Soldiers' Settlement Board to December 31 last, in the Province of Nova Scotia, was \$2,809.
