Western Guardian

—AUCTION SALE stock, implements at Jack Lea, Victoria, Friday, November 14th. 9056-11-8-12-13-41.

—FOR SALE.—One wood heater, cast iron; also small globe heater. Apply Mrs. John Pond, 26 Eustace Street, Summerside. 9054-11-8-31.

—CORRECTION—In reference to the recent motor accident in Kensington, Mr. Leaman Caseley of Kelvin advises the Guardian that he had both his headlights on and was in the centre of the road.

—VISITING IN NOVA SCOTIA—Mr. John Steele, of Summerside, for many years jailer at the Prince County Jail under the Conservative regime, left on Saturday morning for a visit to his daughter in Nova Scotia.—S.

—THANKSGIVING AND ARMISTICE—The different churches at Summerside observed the double celebration of Thanksgiving and Armistice Day on Sunday. Appropriate sermons preached and special music rendered. There were large congregations at all services.—S.

—HONEYMOON IN NIAGARA AND TORONTO—The marriage took place on Wednesday, November 5th, at the home of the bride at Carleton, Rev. A. J. Reynolds officiating. Miss Hazel MacMicken, to Mr. Ralph Campbell. They left immediately after for a honeymoon trip to Niagara Falls and Toronto. They will also visit the MarTimes on their way home and will be the guests of Mrs. Frank Gardiner, of Moncton for a few days.—S.

—ALONG THE WATER FRONT—Summerside harbour has been the scene of much activity for several weeks and potatoes have been moving in large quantities. Two large steamers were in port last week and another large English steamer, the S. S. West Devon, arrived on Saturday from Montreal. She will load 30,000 bags of table stock for the Harris Abattoir Co. on Saturday morning. The S. S. Songa sailed for New York with 87,000 bags of seed potatoes for the Potato Growers Association. The S. S. Glenisly also sailed this week for New York carrying a cargo of seed and table stock potatoes and turnips for the Harris Abattoir Co. for the American market. The S. S. Cornwallis, which had brought coal from Sydney for Messrs. R. T. Holman, Ltd., returned light and will load coal from Sydney for Charlottetown. Many other steamers are expected at Summerside before navigation closes. Most of the small pleasure craft has been laid up for the winter.—S.

—BUCHANAN—MINOR NUPTIALS—A wedding of considerable local interest was solemnized at the home of the officiating clergyman, Rev. A. K. Herman, at Dufferin street, Moncton, N.B., on Friday, November 7th, at eight p. m., when Miss Geraldine M. Minor, daughter of Mrs. Florence Minor, of Moncton, was united in marriage to Mr. Eldred B. Buchanan, youngest son of Mr. and Mrs. William J. Buchanan, of Summerside. The ceremony was performed in the midst of immediate relatives and friends of the contracting parties. The bride, who was given in marriage by her mother, was becomingly gowned in blue georgette with velvet trimmings. Her pretty hat was in corresponding shade. Blonde shoes and stockings completed the ensemble. The bride and groom were attended by Mr. and Mrs. Roy Buchanan, brother and sister-in-law of the groom. Among the out-of-town relatives and friends who attended the ceremony were Mr. and Mrs. William J. Buchanan, of Summerside, and Mrs. R. L. Noyes, of Brooklyn, N.S. Following the ceremony a reception was held at the

home of the bride, where a delicious luncheon was served. The bride, who is a popular member of the younger set in Moncton social circles was the recipient of many lovely gifts of cut glass, linen, silver and china; also a substantial cheque from the groom's father. Mr. and Mrs. Buchanan left on Saturday for Prince Edward Island, where they will spend their honeymoon. The groom whose home is in Summerside, is also well known in Charlottetown. The Guardian joins a host of friends in wishing the happy young couple every happiness in the future. On their return they will take up their residence in Moncton, where the groom is a valued member of the adjusting staff of the T. Eaton Co.—S.

—BEWARE OF COUGHS THIS WINTER. Stop them at once with Beechwood, Carew & Fraser, Manufacturing Chemists, New Glasgow, N. S.

PERSONALS

—Miss Zinck, Red Cross Nurse, spent Thanksgiving at her home in Chester, N.S.—S.

—Miss Norma Callbeck spent the Thanksgiving holiday at her home in Summerside.—S.

—Mr. Elmer Harris, of the staff of the Royal Bank at Hunter River, spent the Thanksgiving holiday at his home in Summerside.—S.

—Miss Leonore McNeill and her sister, Miss Helen, spent the Thanksgiving holiday with their parents, Mr. L. M. and Mrs. McNeill, of Summerside.—S.

—Mrs. Penzie Campbell, of Alberton, who has been visiting her sister, Mrs. Florence Ramsay, at Danvers, Mass., is visiting relatives in Moncton on her way home to the Island.—S.

—Mr. Richard McQuarrie, of the staff of the Canadian Bank of Commerce of Murray River, and his friend, Mr. Charles Horton, spent the week end with Mr. McQuarrie's parents, Mr. and Mrs. W. A. McQuarrie, of Summerside.—S.

—Mrs. Mabel Peacock and her son, Gardiner, visited Mrs. F. Gardiner, of Moncton, N.B., on their way to their home in Vancouver, after a three months' visit with friends on Prince Edward Island.—S.

—Many students of Prince of Wales College spent the Thanksgiving holiday at their homes in Summerside and other parts of the west of the Province. Many other young people took the advantage of the long week end to visit their homes.—S.

—Mr. and Mrs. Clifford DeCoff, of Taunton, Mass., arrived last Friday on a visit to Mrs. DeCoff's parents, Mr. and Mrs. Benj. Nesbitt, of Summerside. They are receiving a cordial welcome from their many friends.—S.

—Mr. Robert Dewar, of Summerside, who has been undergoing treatment in the Prince County Hospital, is progressing favorably and will leave in a few days for his home in Montague, where he will recuperate before returning to his duties at Summerside.—S.

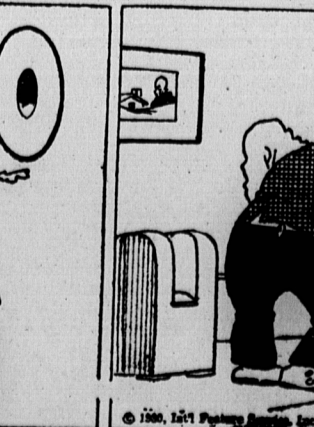

—Asthma No Longer Dreaded. The dread of renewed attacks from asthma has no hold upon those who have learned to rely upon Dr. J. D. Kellogg's Asthma Remedy. So safe do they feel that complete reliance is placed on this true specific with the certainty that it will always do all that its makers claim. If you have not yet learned how safe you are with this preparation at hand get it today and know for yourself.

BRINGING UP FATHER

Our Christmas Number.

Drawing and Story Competitions

To give young people a chance of winning, we are making an early announcement of the Guardian Christmas Number competitions. Prizes will be given in two sections, as follows:—

(1) BOYS AND GIRLS BETWEEN 13 AND 20 YEARS:—

For best stories:—1st prize, \$3.00; 2nd prize, \$2.00; 3rd prize, \$1.00. For best drawings:—1st prize, \$5.00; 2nd prize, \$2.00; 3rd prize, \$1.00.

(2) BOYS AND GIRLS LESS THAN 13 YEARS:—

For best stories:—1st prize, \$2.00; 2nd prize, \$1.25; 3rd prize, \$1.00. For best drawings:—1st prize, \$2.00; 2nd prize, \$1.25; 3rd prize, \$1.00.

Stories should not exceed 100 words. The subjects should be of a Christmas nature. The drawings should be in firm outline in Indian ink without shading lines, and should not be larger than a half-sheet of note-paper. They must, of course, be original work, not mere copies.

Entries, addressed to Christmas Competition care Charlottetown Guardian and marked "Christmas Story" or "Christmas Drawing" must be received not later than December 1st. The prize winners will be announced in the Christmas Number.

CARE OF FARM MACHINERY

(Experimental Farms Note.)

Larger machines, greater numbers and higher prices have combined to increase very considerably the average farm investment in machinery in recent years. It was estimated in 1929 that the average Manitoba farm had nearly \$2,000 worth of implements on which the annual charge for depreciation and repairing alone, amounts to \$460. An investment as costly as this, to be profitable, requires that machinery should not only operate efficiently but that the life of usefulness should be as long as possible. This cannot be expected unless good care is given.

The seventeen Illustration Stations in Manitoba and Eastern Saskatchewan, under supervision of the Dominion Experimental Farms, are a source for useful data relative to the cost of operation, the life period, and the influence of care on machinery. The majority of operators on these stations agree that there are two main essentials contributing towards the profitable use of a machine, (a) durability of build (b) the care given. As to what care should be accorded a machine there is, however, a different of opinion. It is generally conceded that proper lubrication and prompt repairing are necessary, but, as to housing some do not think it pays to build a shed for machinery, while others consider the implements shed a very valuable part of the farm equipment.

Granting that the importance of timely and thorough lubrication is fully recognized, and that unless breakages are promptly repaired, they often lead to a disastrous end, the more debatable point of shelter for machinery will be discussed.

It is far too common a practice on prairie farms to leave a machine in the field where it was last used until it is again to be put into action. A high priced seed drill may be seen in a field at harvest time being cut around and left in a smother of grain and weeds. A binder may sit along a fence row to decay throughout its long season of inactivity while other implements of lesser or even greater importance find resting places which are far from suitable to their preservation. The best and most profitable place for such machinery is not even in carefully placed rows in the corner of his farmyard but in a suitable shed which need not cost much to erect.

This is the opinion of a large number of Manitoba farmers who have implements sheds and who carefully store their machinery in them for the long winter season, and who take a pride in keeping machinery thus stored in good shape. In fact, care of machinery and good farming go hand in hand for it is generally observed that the man who takes a pride in keeping his implements in good shape, in maintaining a tidy yard

EYES TESTED AND GLASSES FITTED K. W. TAYLOR, J. J. TAYLOR, Optometrists, 122 Richmond Street

Comfort-Fit and Good-Nature are Brothers

Number 3200—Winter weight, Natural color. Soft and very durable. per suit \$3.00

YOU never saw a comfortable, ill-tempered man, did you? No sir!—for comfort bespeaks health—and no healthy man can be a grouch. In business or out of it, the world has no time for the irritable. Yet there's nothing more irritating than harsh, bunching, mis-fit underwear.

Stanfield's underwear fits perfectly—from the day you first put it on, until the last day of its long life. Made of finest yarns, by an exclusive process, Stanfield's is unshrinkable. No matter how many times it is tubbed, it invariably comes back soft, warm, perfect.

See this finest of all underwear at your favourite store today. Examine it. Notice its tailoring. Its softness. And then notice that you don't have to pay any more for it than for the ordinary kind. There's a weight and style to suit you, at the price you wish to pay. Try it!

STANFIELD'S Unshrinkable UNDERWEAR

SOFT—WARM—DURABLE

- ### 5 POINTS OF STANFIELD'S SUPERIORITY
- 1 Accurate measurements . . . superb tailoring . . . perfect fit.
 - 2 Exclusive easy-fitting closed crotch.
 - 3 Non-rip cuff seams . . . smooth and elastic.
 - 4 Always soft . . . always warm . . . outwears them all.
 - 5 Buttons that won't pull off.

For Sale By PROWSE BROS LIMITED

Charlottetown, P. E. I.

and farm placing these implements in a shed especially for winter, is a farmer who is neat and thorough in all his work. He knows that tools in poor shape cannot do good work and that the results of inefficient work are decreased cash returns.

Another factor usually overlooked, but, which affects materially the care given machinery, is the cost of maintenance and operation. Machinery accounts are so infrequently kept that the farmers have little idea how expensive it is to operate a machine. So high are the running expenses for many of our recently introduced large machines that if accounts were kept showing this, there would be a great incentive to take particular care both while the machine is in operating and while it is idle. During the last two years the Division of Illustration Stations, Brandon Experimental Farm, sent out questionnaires to 200 farmers relative to the operating of harvesters, thrashers. None of the replies carried complete cost of operating data while only 20 per cent were able to give any of these data at all.

These days when it is so essential to lower the cost of production, chiefly by the use of labor saving machinery, it is very necessary indeed to know what it costs to operate a machine and to give such careful attention as will ensure for it a longer and more profitable life.

Mrs. Jones gave a kettle to the local tinker to mend. Here is their conversation. Try to read it aloud:—"Are you copper bottoming 'em?" "No, I'm aluminiuming 'em, mum!"
