Since negotiations of the Canadian treaty a year ago, Government agencies here concerned with law enforcement on the borders have been working to establish a similar understanding with Mexico. **REGULAR MONTHLY MEETING  
OF CITY COUNCIL**

**Pedestrian And Motor By-Laws Discussed—Streams at West and East Ends of town again receive Attention of The Council.**

The monthly meeting of the City Council was held last evening in the Council Chambers, with His Worship the Mayor, the City Health Officer, and all the Councillors present. After the reading and adoption of the minutes of the last meeting and special meetings, and the transaction of the usual routine business, a communication from the City School Board, asking that busy street crossings be chalk marked from curb to curb in order to safeguard children going from and to school, was read.

Coun. Moran said he felt that something should be done in this respect to help solve the city traffic problem. At Hughes' corner for example practically all pedestrians crossed at an angle and accidents were liable to happen at any time. At the MacKinnon Drug Company and Prowse Bros., corners the same conditions prevailed in a lesser degree.

Followed a discussion as to the best and most expeditious way for marking the street. It was pointed out by Councillor Ratray that white asphalt could have been used when the streets were being laid.

A resolution was passed authorizing the marking of several such busy corners and any others the Council thought advisable.

Coun. Ratray thought that a large amount of good could be done by the school teachers educating their pupils into the safe and correct way of crossing busy streets.

Coun. Moran stated that a local ladies society had petitioned the School Board and been successful in having the pupils of Queen Square marched across the street into the Square before being dismissed.

A letter from the Board of Trade complained of the unsanitary condition of the stairway at the North side of the Market Building and all the parking spaces along the street during the summer at least, of the loose boards that covered the steps. The matter was referred to the Market Committee.
