STOCK QUOTATIONS

MORNING STOCK LETTER

(Received over Pitfield and Co's Private Wire)

NEW YORK, June 4—According to Dow Jones the gold stocks have had another sharp setback in London this morning. The strikes of the independent steel companies are apparently still far from a settlement. Pure Oil has postponed its proposed offering date on new securities until June 25. We would expect another quiet irregular market today.

WASHINGTON, June 4—Roosevelt says court reform will be carried through at this session. No change in gold policy. Says no more messages to Congress this year.

MONTREAL, June 4—C. N. R. and C. P. R.—Combined gross earnings for May up 8 per cent and first five months up 10 per cent.

Canadian Industries Ltd.—To build new $2,000,000 caustic soda plant at Shawinigan Falls.

New York Broker Loans—Last week up $16,000,000 or 1.4 per cent over previous week but down 3 per cent from corresponding week last year.

Wheat—A below normal world carryover and smaller European crop expected to bring higher prices, according to Royal Bank of Canada letter.

Gold situation—Treasury Department at Washington announced United States borrowing $800,000.000. Indicates Treasury continuing its policy of sterilizing gold imports.

MARKET BULLETIN

(Received over Woods- Reade and Company Special Wire)

MORNING MARKET LETTER

Prices drifted slightly lower during the morning on light turnover. Both prices and volume showed a mild improvement toward the end of the session. The averages closed fractionally higher on the day. Little significance could be gleaned from the day's performance but some basis for a recovery in prices later probably could be based on the market's ability to hold at this juncture in the face of the increased tension with respect to the Spanish situation and the revival of gold rumors, not to mention the numerous problems with which business is confronted at the present time. The present impresses us as an in-between period during which potential buyers are inclined to procrastinate because of a mediocre near term business outlook. Yet holders of stocks find little reason to sell in the actual state of corporate earnings or the prospects beyond a mid-summer slump. Our feeling is that the market focus gradually will become adjusted to the outlook for relatively good business later in the year and that the price level of stocks will be favorably affected accordingly.

O'Brien—Some spectacular high grade in advance of downward extension of rich shoot.

Moneta—Decides on mill size. Capacity will be between 160 and 200 tons. Cross-cuts should reach ore end of June.

Bidgood — President optimistic. Reid theory of ore depositions appear to be working out. Good values on bottom level.

TKR strike throws 7000 out of work—DJ.

Strike shuts down Pontiac assembly line in Detroit.—DJ.

NOON COMMENT

The morning has shown little change in the general character of the market. While no indication of a rally has appeared, stocks show a good deal of firmness. The President's observation that he would not worry much about the gold situation may quiet fears in this regard, but an off-setting factor marketwise probably can be found in Mr. Roosevelt's expressed determination to insist on his complete court program. However, from the way the market has taken unfavorable news at various times recently and looking forward to the publicity likely to be given some weeks hence to large second quarter earnings, we are inclined to think that a rally of some degree over the near term is a fair prospect.

Laidlaw and Co.

NEW YORK—While neither Wall Street nor London expect any change in gold prices for some time to come, status of the yellow metal continues a feature of main interest with offerings in London again on a large scale.—D. J.

Duke Of Windsor May Visit Canada

TOURS, France, June 3 — (CP Cable)—A hint that the Duke of Windsor might visit Canada and the other dominions was given an Australian newspaperman today by Herman Rogers, the Duke's spokesman.

Referring to the Duke's statement to the press expressing his hopes of leading in the future a happy and useful private life, the Australian correspondent asked the meaning of the phrase.

Rogers said the Duke was not going to sit down to lead for the rest of his days either the life of the man about town or that of a farmer or country squire. From conversations Rogers said he had gathered the ambition of the Duke who he said was in splendid physical condition, was to become a kind of royal peace ambassador and take an unofficial part in international relations which would define itself as time went on.

The Duke often spoke of his former visits and looked forward to revisiting Canada, Australia, South Africa, and New Zealand, Rogers added.

LONDON—(C P)—So amazed were some Swedish Coronation visitors at children's street tea parties that they passed the hat round and about 200 Bermondsey youngsters had the time of their lives
