DEATHS

ANDERSON—In Boston Mass., Jan 27. George W. Anderson, aged 70 years. MCLEOD—At Bradalbane on Feb. 1st. 1916 Euphemia J. Hill wife of Robert McLeod, aged 49 years. Funeral Thursday at 2 p.m. Interment at Fredericton Cemetery.

PRESENTATION TO MISS AGNEW

A very pleasant surprise was in store for Miss Daisy Agnew, teacher in Alberton High School on Monday. Miss Agnew had resigned to accompany her parents, the Hon. John and Mrs. Agnew, to Charlottetown and the pupils took the opportunity of her departing to express in a tangible form their appreciation and the esteem in which they held her. Principal Neilligan on behalf of the pupils presented Miss Agnew with a finely finished Theros and other presents, and accompanied the same with the reading of the following address:

Dear Teacher: It would not be fair to let you depart without expressing in some measure how we appreciate all that you have done for us during the time that you have been our teacher. We are sincerely sorry that you are leaving us. You have always been patient and kind and never treated us harshly even though we often deserved it. We have always found you ready and willing to assist us in our difficulties and to help us in every possible way. Now dear teacher, as a slight token of our esteem for you and a reminder of the happy time we have spent here together we ask you to accept this small present. We assure you that we shall not forget you and we ask you to let your thoughts turn, now and then, to the pupils of the Intermediate Department of Alberton High School. We close by expressing again our best wishes for your future health and happiness. Lovingly, Pupils of Intermediate Department, A. H. S. Miss Agnew suitably acknowledged the gifts and feelingly expressed the regret she felt at parting with the pupils and her co-workers in the teaching staff.

CASTORIA

For Infants and Children. The Kind You Have Always Bought. Bears the Signature of J. G. Jamieson.

To the Electors of Charlottetown

Ladies and Gentlemen:— I have been requested by a number of the electors of the City to become a candidate for the Mayoralty at the coming election and I have decided to offer my services to the citizens.

If you do me the honour of election to that honourable position, I promise that I will give to the work the best service of which I am capable, keeping in mind the interests of citizens throughout the whole City. The year book of the City is now in the printers' hands and ought to be available for the inspection of the citizens before Nomination Day.

As it will be impossible for me to make a personal canvass of electors I take this means of soliciting your influence and support. Yours respectfully, D. J. RILEY, 6071-1-21Mt.

To the Electors of Ward Three

Ladies and Gentlemen:— Having been again invited to come forward as a candidate for the representation of your ward in the City Council I have decided after due consideration, to consent.

My experience as a member of the Fire Department for the past twenty-two years enables me to speak with authority on the requirements of the city in this connection, and I recognize the necessity of keeping the department up to the highest possible standard of efficiency consistent with economy.

The question of improving the conditions of the streets will receive my best attention. While a great deal is being done towards improving these, much still remains to be done. I would make it part of my duty to see that the streets in Ward No. 3, especially the side streets, received a fair share of the expenditure for this purpose.

I have always considered that Charlottetown ought to be one of the foremost cities in Canada and my aim shall be, if elected, to do everything in my power to make it so. I am, your obediently, R. B. RATTARY, 7100-2-1Mt.

To the Electors of Ward Five

Ladies and Gentlemen:— About two years ago you honoured me with a seat at the Council Board of our city to assist in representing your interests, and the time is soon arriving for you to give expression to the selection then made.

In the most hearty co-operation with your other representatives I have done my very best to carry out your wishes in extending civic improvements, particularly in Ward Five, and how faithfully that duty has been performed, you are the best judges.

Every section of a large Ward bears evidence of attention particularly the centre where long standing wants have been attended to such as surface drainage, new lights, macadamizing Bayfield Street, laying new sidewalks, opening up School Street and giving our children a sidewalk on which to reach their school without wading through mud.

As I have not heard a complaint from a single elector on the Ward, on the contrary, many words of commendation, I am encouraged to ask you for re-election on February 9th, instant, that may be of service in further assisting in extending improvements required and under consideration.

I have repeatedly stated from my place at the Council Board "that Ward Five is the hope of the city," although long neglected; and that civic improvements should be made with private enterprise. In fact, the former should precede so as to encourage the latter. This requires money, and more money we must have, for Charlottetown must take her place among the most thriving cities in Canada. To accomplish this, our tax, but I do propose that a most vigorous representation be made for a re-adjustment of our account with the Province, and it seems to me that the time was never so ripe as at the present. I am persuaded that we shall find a sympathetic Government, and we have in ex-Mayor Paton a representative who thoroughly understands our case and our needs.

Elector! The ballot is designed to afford you the greatest liberty of conscience and action; I shall not violate it by asking you personally for support; but, if you believe your interests are satisfactorily served by me, I respectfully ask you to so mark your ballots.

Thanking you for your confidence in the past, which I feel I have not forfeited. I am your obedient servant, L. B. MILLER, 7191-2-2Mt.

CARD

Ladies and Gentlemen:— We have decided to contest Ward Four, at the next Civic Election, and if you will do us the Honor of reelecting us, we will do our best to further the interest of the City, and particularly of Ward Four. Much remains to be done in the way of improvement in our City. Drainage and Streets should have our first consideration. Our main thoroughfares should be complete in the most up-to-date manner and the improvements gradually extended throughout the City, as our means will allow.

Our citizens, will no doubt, endorse any reasonable expenditure which will give employment to our citizens, in the days of high living. As voting is by ballot, we believe our citizens will exercise their good judgment, in voting for the Candidate of their choice without being canvassed. Thanking you in anticipation of kind favours We are respectfully yours

JOHN T. MCKENZIE G. D. WRIGHT

To the Electors of Ward Two

Ladies and Gentlemen:— I herewith present myself as a candidate in the coming Civic Election to represent Ward 2. If you see fit to favor me with your support in my election, I will do anything in my power for the best interests of Ward 2 and the City in general.

Respectfully Yours, R. J. LEDWELL, M. D. 7133-2-2-dly. d.

To the Electors of Ward Four

Ladies and Gentlemen:— At the earnest solicitation of a large number of the voters, I have consented to contest the ward at the forthcoming civic election.

On two previous occasions, you, Ladies and Gentlemen have done me the honour of electing me as your representative and while I sat at the Council Board, I have, as the City records will prove faithfully and conscientiously, carried out your wishes to the best of my ability.

Should you again see fit to return me I will in the future as in the past protect your interest as well as the interest of the city in general. As the time is very short, I may not be able to see you all personally but I take opportunity of respectfully soliciting your support and influence. I am, Yours respectfully, J. D. TAYLOR, 7109-2-1Mt.

To the Electors of Ward Four

Ladies and Gentlemen:— Having already represented Ward Four, and being again solicited to accept nomination, we take this opportunity of presenting ourselves as candidates at the forthcoming election. Should you see fit to elect us it shall be our duty as well as our pleasure to advance the best interests of the City generally and of Ward Four particularly. The franchise is your sacred right; use it to the City's best interests and none will have cause to regret. We are, Ladies and Gentlemen, Yours respectfully G. D. WRIGHT, JOHN T. MCKENZIE, 7051-1-27Mt12L.

To the Electors of Ward Five

Ladies and Gentlemen:— I require Two Blacksmiths, One Saddler and One Fitter or Wheeler to complete my unit. This is a splendid chance for a young man to see active service soon. Wire, my expense, stating age, height, weight and experience. D. A. MACKINNON, (Capt.) O.C. No. 11 F.A.H.B.A.C., Halifax 7144-2-3m31

Farm For Sale

The valuable farm of the Late R.B. McMillan, Brackley Point Road contains 110 acres with good buildings good spring of water good well in yard with new pump. 6 miles from Charlottetown fine orchard. Apply to F. J. Holman or Louis H. McMillan at A. Home & Co., Charlottetown. 7047-1-28Mt2wks.

Business Chances

Wanted—Managing Director for Gatlin Institute about to open on the Island. Established and meeting with success in St. John and Halifax. Investment required \$800 dollars fully secured and control given. Salary 1000 Dollars with profits and living expenses. Bank reference given. Write Managing Director Gatlin Institute, St. John, N. B. 7042-1-28-M7L.

Synopsis of Canadian Northwest Land Regulations.

THE sole head of a family, or any male over eighteen years old, may homestead quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Application must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions. Duties—Six months residence upon and cultivation of the land, each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions as soon as homestead patent is required except where residence is performed in the vicinity. In certain districts a homesteader in good standing may pre-empt a quarter-section along-side his homestead. Price \$300 per acre. Duties—Must reside six months in each of three years after earning homestead patent; also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as homestead patent on certain conditions. A settler who has exhausted his homestead right may take a purchase homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years cultivate 50 acres and erect a house worth \$100. The area of cultivation is subject to reduction in case of drought or other causes. Live stock may be substituted for cultivation under certain conditions. W. W. CORY, C.M.G., Deputy of the Minister of the Interior N. B.—Unauthorized publication of this advertisement will not be paid for. 6488. 6500-1-10Mt12Mt

To the Electors of Ward One

Ladies and Gentlemen:— At the request of a large number of taxpayers of the Ward I have consented to become a candidate for election at the forthcoming civic contest. With a great many others, I claim better treatment for Ward One. A portion of the very large amount of tax paid by the property holders in the Ward should be spent therein which has not been done. King Street, from east to west has been neglected and the surface drainage of the Ward never attended to. It is as desirable that a resident of the Ward should represent it at the Council Board. If I am your choice for the honour I will do my utmost for the Ward, not forgetting the best interest of the City in general. I remain, yours etc., P. A. SMITH.

To the Electors of Ward Three

Ladies and Gentlemen:— At the request of a large number of the Electors of Ward Three, I am a Candidate for Councilor at the forthcoming Civic Election. I am a property holder in the Ward and my place of business is centrally situated in the Ward also.

If elected I will use my best endeavours for the good of Ward Three in particular and the City in general. Soliciting your support. Very respectfully yours, F. W. HUGHES, 7132-2-3Mt5L.

To the Electors of Ward Five

Ladies and Gentlemen:— Having been requested, to again nominate as a Councilman in Ward Five, I have decided to do so, and take this means of soliciting the same generous support that you have heretofore accorded me, and if you do me the honor of re-electing me I will do my utmost to further the best interests of the City, paying special attention to the welfare of Ward Five.

As Chairman of the Street Committee during the past two years, I have been interested in having performed the important work of laying down the storm sewer which has proved such a boon especially to the central part of the Ward, and if re-elected I will continue in the future the same policy of making permanent improvements in the Ward, as the means at the City's disposal will permit. Yours respectfully, JOHN McNEVIN, 7135-2-3Mt5L.

Wanted Immediately

I require Two Blacksmiths, One Saddler and One Fitter or Wheeler to complete my unit. This is a splendid chance for a young man to see active service soon. Wire, my expense, stating age, height, weight and experience. D. A. MACKINNON, (Capt.) O.C. No. 11 F.A.H.B.A.C., Halifax 7144-2-3m31

S.R. SAM HUGHES' GREAT SPEECH

(Continued from Page One.) That the statement, when it is furnished to those who have a right to see it and who are concerned in it will more than satisfy them that everything being done that could be done, that the wishes of those who contributed money to this cause are being carried out to the letter, and that the wishes of the Canadian people and the Canadian Government in the same regard are also being observed to the letter. If that is not the right thing, the leader of the Opposition, or any member of Parliament who chooses, will show the details in connection with the matter and I am sure when they see them they will be more than satisfied.

Reference has been made to the discharge of soldiers, and to returning soldiers, and to pensions. I believe that these matters have been satisfactorily explained to the House and disposed of. However, if there is any question put to me at any time I will be only too glad to give any data in connection with these subjects.

I might point out in connection with the training of officers, that when the war broke out we had a large number of very finely trained officers. A great many of the best of these naturally were selected to go with the first contingent. But we had to keep a lot of them home in order to supervise the training of the new recruits. However, as contingents after contingents went over, we were obliged—and we were glad in one way and sorry in another to do so—to send these good officers to the front, until we must now train up in their place a large number of officers to fill the gaps in the new regiments which are being raised in Canada. In order to get the best men for these positions we are about to open military schools in every military district in the Dominion of Canada, and these will be opened at a very early date. Admission to them is practically open to every man who has any sort of a decent education and shows any fitness whatever for soldiering. Certificates will be given to men who attend these schools, showing the qualifications which they have attained, whether it be sergeant, lieutenant, captain, major or so on. In order to make it as democratic as possible, we are taking men in from week to week and giving them as thorough a training as possible, graduating them from class to class and stage to stage, until they are finally able to get the certificate of whatever grade they aspire to and are able to attain. It is partly on the lines of the old military schools in Canada, and partly on more democratic lines. The plan is meeting the approval of all those who have had an opportunity to look into it and I am satisfied that the success of these schools will be such that every one will have the same good opinion of them that we have already formed.

In connection with every overseas battalion organized, we immediately organized schools for the training of non-commissioned officers, and also for the training of officers in the district. At the present moment we have hundreds of officers in the schools. But under this system, if an officer has not been able to attend on the date set for the opening of a school, he has had to wait for three months in order to take his course. Under the new policy they will be able to enter every week, and thus we will prevent useless delay in the case of many excellent men. A splendid lot of men are coming forward and offering themselves as private, non-commissioned officers and officers. In this regard I wish to point out that a large number of the class of engineers, business men, men of strong character and superior education are tearing themselves away from their occupations in life and are coming forward. They are put into training at once and from these the most efficient will be chosen to fill up the new corps.

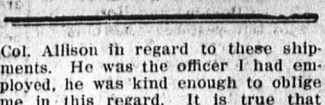

I might say, in passing, that the right hon. leader of the Opposition (Sir Wilfrid Laurier) last session brought up the question of the purchase of the Valcartier camp site. I am pleased to inform him that the claims of the proprietors have been before the Exchequer Court, and, I think, have now practically all been settled.

I have also observed that some question was raised in this debate about Colt pistols and Colt machine guns. As this is a Canadian matter, I wish to give the fullest information at once. At the beginning of the war, as every one knows, the United States manufacturers doubted whether they could legally contract during war time with a foreign government engaged in war for the delivery or sale of munitions of war to the United States Government, after a certain time, settled that matter in the affirmative, deciding that the manufacturers could sell. In the meantime the British Government was purchasing a very large supply from the United States. The problem was how to get these supplies out without possibly involving the manufacturers in trouble, because they would not assume the responsibility of shipping direct to a belligerent power. I took the matter up. I secured the services of a life-long friend of mine, Col. J. W. Allison, a man in whom I have had life-long confidence, a man who is the soul of honour and kindness, yet millions of dollars' worth of war materials were brought in from the United States to Canada by arrangement with our Customs Department, and which was shipped by way of Canadian routes to the old land. Finally, Col. Allison followed to Washington that a declaration should be made that these commodities could be shipped by these people direct from New York, or any other United States port, or directly to Canada, without violating any United States law. That accounts for the letter written by the hon. member from Charlottetown, N. B. (Mr. Carvell), yesterday as being sent by the director of contracts of the Dominion of Canada to

4 Points.

1. So strengthening and invigorating as a hot drink in cold weather.
2. Better than beef-tea in sickness.
3. Very delicious for enriching soups, stews, etc.
4. Economical and ready in a moment.

Tins of 4, 10, 50 and 100 Cubes.

Col. Allison in regard to these shipments. He was the officer I had employed, he was kind enough to oblige me in this regard. It is true that the matter of the Colt pistols has been before the Davidson Commission, inasmuch as this matter has also been referred to, I may be permitted to read to the House a letter which I received from the Colt firm. At the time the question of Colt pistols was brought before Judge Davidson, a wire was sent to the Colt Company asking how they happened to be selling these pistols in Canada to commercial dealers at a lower price than the Government had paid for them. I had had the assurance of the Company—I did not observe at the time that the words "sold to any Government" had been introduced—that the lowest price at which they sold to any Government was \$18.50. I naturally concluded that the Government would get a better price than the wholesale merchants but I was very much surprised to learn that great as our business with the Company had been, it was small compared with their business with some single wholesale merchants. I may say that an officer of the Company and another officer came promptly to Ottawa, and knowing that Judge Davidson was going to hold an inquiry, promptly offered to appear before him and give a full explanation concerning the prices. This company has an arrangement with the United States Government providing that the United States Government in their own factories can make one of their pistols to two made by the company and they control to a certain degree the price of the article. The United States Government takes hundreds of thousands of pistols, and, as probably the House is aware, the different states in the Union have for war purposes an agreement with the Federal Government that the equipment and material and weapons of the Federal Government should also be adopted by the various states of the Union. This is the letter received from the Colt Company:

Hartford, Conn., U. S. A., 13th January, 1916. Major-General Sir Samuel Hughes, Minister of Militia and Defence, Ottawa, Ontario, Canada. Sir,—In reference to the price at which this Company has sold and is selling automatic pistols, Cal. 45, to the Government of Canada and to wholesale hardware or sporting goods concerns throughout the Dominion, we desired to place you in possession of facts which we believe

fully justify our position and account for the difference in price to the wholesale distributors.

Policy.—For many years this Company has marketed its product very largely through the medium of the wholesale distributors who in turn sell the arms to the small retail dealers, by whom the arms are again sold to the individual consumer.

The established wholesale list price of the automatic pistol, Cal. 45, in the United States of America is \$18.50. From this price the distributor is allowed a discount of 12 1/2 per cent, and 2 per cent for cash, also an additional commission of 5 per cent, provided he agrees to cooperate in the upholding of the resale price and to assist to the best of his ability in creating a demand for the Colt's arms.

These concessions in price have been given in the past, and have been done, through the valuable space given in his catalogue for illustration and description of the pistol, to compensate him for investment represented by stock of pistols carried in his store, some of which he often keeps on hand for many months before selling, and to help share in other selling expenses involved in the conduct of his business.

Our customers in Canada are requested to use as their selling price the United States price of \$18.50, plus duty into Canada, which at present is 37 1/2 per cent, plus an amount sufficient to cover carriage charges and incidental expenses. This Government business—this company has in its selling arrangements with the dealers, reserved government business to be handled direct. Such business is of a spasmodic nature, not coming with any regularity as commercial business does, and usually when it comes in any volume, is due to abnormal conditions requiring special attention.

Since the outbreak of the present war, we have had very large orders from several governments involved and each one, like your own, has requested us to do everything possible to effect speedy deliveries. This we have done at very great inconvenience and largely increased expense of manufacture. We have had to provide a large amount of additional space, procure a great many new machines, pay a much higher rate of wage to workmen, and in addition, have given each and every workman a bonus of 12 1/2 per cent of his regular wage in order to get the full measure of cooperation and loyalty. All pistols made for governments are subjected to unusual tests and most rigid inspection which involves extra expense.

These very unusual expenditures have added materially to the cost of production. (Continued on page six.)

NUXATED IRON
