PROVINCIAL LEGISLATURE

(Continued from page 1.)

committee to take the matter up with a view to legislation. He thought he had pointed out than legislation would be out of the question unless they got information from the Fox Breeders' Association which they were not going to get. If the Government had heard anything more that any action had been taken to confirm the case as left with them, they would have had legislation formed. But at the annual meeting of the Association when the matter was considered it did not seem to meet with the approval of the Association and they dropped the case. He was not at all unwilling to have that resolution go through if it were so changed as to meet the requirements of the House in that regard. They did not want to set back any resolution that had a good object in view, but they did ask those members proposing that resolution not to ask the House in the circumstances that he had stated to move to action upon that resolution, by which as it stood they would have to appoint a committee and that committee would have to see to legislation being prepared that would involve them in a very unfortunate position indeed.

On the motion of the Hon. Mr. Arsenault the debate on this matter was adjourned.

Mr. A. A. McDONALD called the attention of the Premier in the absence of the Commissioner of Public Works to an item which appeared on 18th inst., in a local newspaper, under the heading "Bangor News," having reference to what was described in the news item as the disgraceful condition of a bridge across the Marie River on the Road to Millburn. The hon. member asked: "Is the said bridge in the condition mentioned? Was or was not this bridge reported on in the month of June last by the Engineer of the Public Works Department and visited by the Commissioner in person? Did not the report recommend the erection of a steel bridge at that place? Will a steel bridge be placed there this summer?"

The PREMIER, replying said: I don't think that I would undertake to deal with the accuracy of the item that appeared in the newspaper. If we knew which paper it was we would have some idea as to the amount of reliance to be placed upon it. But I may say to the hon. member that this matter is under careful consideration and upon the report of the officer, whatever action he considers necessary in order to put the bridge in proper condition will be taken as soon as possible. If a steel span is considered necessary it will be erected, and if it is not considered advisable to put a steel span there, a new wooden bridge will be built.

A QUESTION OF ORDER

Mr. A. McWILLIAMS called the attention of the hon. Premier to Order 128—a notice of a resolution by him, seconded by Mr. Richards, moving that the hon. leader of the Government be asked to lay on the table a return of all convictions made in Prince County for offences against the Prohibition Act from the 1st. July, 1913, to the present day, giving the names of the persons convicted and stating whether for first, second or third offence—how many and which of such fines had been paid and what fines remained unpaid and why.

The PREMIER said that it was customary for the mover of a resolution to state the nature of it and to explain something as to the reason for it.

Mr. McWILLIAMS said that that was a matter that did not go back very far, so he did not think there was any trouble in asking for those returns. He hoped that the question would be answered and the returns given.

The PREMIER: Is your resolution seconded?

Mr. McWILLIAMS: It is seconded by Mr. Richards.

The PREMIER: Is he in his seat?

Mr. McWILLIAMS: He is not in his seat now, but he was in his seat when it was seconded.

The PREMIER: This resolution is now brought before the House for the first time, though notice might have been given before. However, I tell the hon. gentleman he need not have any trouble about that; we are not going to take advantage of that. I beg to lay on the table returns embodying the information he asks for.

A MATTER SUB JUDICE.

Mr. McWILLIAMS next drew attention to the following motion standing in his name, seconded by Mr. Richards: "Resolved, that an order of the House be made for the Leader of the Government to lay on the table of the House any and all complaints and charges made within the past six months to the Government by the Temperance Alliance in connection with the amendment of the Prohibition Act or any against any of the Government appointees under such Act."

The PREMIER: Again I would say, Mr. Speaker, that we would treat this not as a resolution, because the hon. gentleman cannot move either one of these resolutions for want of a seconder, and I would be sorry indeed to take advantage of that, though he may well be counted for two. (Laughter.) I remember several occasions when he counted for a good many more—the occasions when he used to sit in the chair with a large stick beside him, that was probably an ancestor of the big stick of Theodore Roosevelt. (Renewed laughter.) In fact, he made the statement one night that he was Governor of this House. It would be absurd for hon. gentlemen to regard him as not being competent to move and second his own resolutions. (Laughter.) I would second them for him. But when it comes to answer the question, that is a very different matter. This is a question. I may point out to the hon. member that should never have been asked. This is a question as to charges against certain public officials. I have already given the answer to a question put in this House, that these charges would be the subject of investigation by a Commissioner to be appointed in pursuance of a statute that was passed at the present session of the House; and, pending investigation, these charges will be treated as they should be treated, and as all correspondence in connection with the matter should be treated, as sub judice.

Hon. Mr. DALTON, with the consent of the chair, presented a petition from the Directors of the Tignish Trading Company asking for an Act to be passed amending their Act of incorporation so as to empower them to pack and cure fish as well as agricultural, horticultural and animal products. The petition was received and read, and on the motion of the hon. member was referred to a committee of three for report thereon. As chairman of that committee, Mr. Dalton reported the Bill effecting the amendment desired, which was received and read a first time and referred to the Committee on Private Bills.

BILLS PASSED

The following bills were then read a third time and passed: An Act to amend an Act to incorporate the Dark Silver Patch Fox Company of O'Leary, Ltd.; an Act to incorporate the Victoria Hall Company; and Act to incorporate the Prince Edward Island Sheep Breeders' Association; an Act to incorporate the Prince Edward Island Trust Company; and Act to incorporate the Town of Kensington; an Act to further amend the City of Charlottetown Incorporation Act; an Act to incorporate the Cardigan Silver Black Fox Co., Ltd.; an Act to further amend the Fox Tax Act.

Mr. MYERS moved the suspension of Rule 13 in order that he might move the second reading of a bill that day. The motion was put to the House and carried.

The member then moved the second reading of a bill entitled and Act to incorporate the Eureka Fox Company. The House resolved itself into a committee (Chairman, Mr. L. L. Jenkins) for the consideration of the bill, which was agreed to and ordered to a third reading.

The House resolved itself into committee (Chairman, Mr. L. L. Jenkins) to take into consideration a bill entitled an Act to incorporate the Presbyterian Church at Bradalbane. The bill was ordered to a third reading.

Mr. A. A. McDONALD moved that the third reading of a bill to incorporate the Imperial Malpeque Cup Oyster Co., Ltd., be discharged and that the bill be referred to a committee of the House for the purpose of having certain corrections made therein. The House accordingly resolved itself into committee, (Chairman, Mr. Myers) for the consideration of the bill, which was ordered to a third reading.

A bill entitled "An Act to amend an Act in further amendment of the Law and for the better advancement of Justice" was referred to a committee of the House (Chairman, Mr. A. A. McDonald), agreed to and ordered to a third reading.

The House resolved itself into committee (Chairman, Mr. L. L. Jenkins) for the consideration of a bill entitled an Act to amend the Public Roads Act. The Bill was agreed to and ordered to a third reading.

Hon. Mr. Dalton moved the suspension of Rule 13 to enable him to move the second reading that day of a bill to incorporate the Tignish Trading Company, Ltd. The bill was considered by the House in committee (Chairman, Mr. L. L. Jenkins) and ordered to a third reading.

An Act to amend the Summerside Incorporation Act was referred to a committee of the House for Consideration (Chairman, Mr. Arsenault). It was reported agreed to and ordered to a third reading.

The PREMIER at this stage moved the adjournment of the House until 8 p. m.

NIGHT SESSION

The House resumed at 8.30 p. m., Mr. Speaker Wyatt in the chair.

The PREMIER moved the second reading of a Bill entitled "The Appropriation Act, 1914."

The Bill having been read on the further motion of the Premier the House resolved itself into a committee of the whole (Mr. J. Kennedy in the chair) and considered it clause by clause. On the motion of the Premier, the schedules to the Bill, which had already been put through by resolution in committee in the ordinary course, were taken as read. The House resuming, the Bill was reported as agreed to without amendment, was ordered to be engrossed and further ordered to a third reading tomorrow.

The PREMIER moved the third readings of the Bills enacting the incorporation of the "Golden Pelt Silver Black Fox Co., Ltd.," and the "Fidelity Silver Black Fox Co., Ltd." The Bills were read and then finally passed.

The PREMIER then said that all that remained for the House to do were third reading of several Bills and the disposal of the Pauper Scales, and so he thought it would be well to take the adjournment at that stage. In moving the adjournment, he might say that arrangements had been made for the prorogation of the House at 12.30 tomorrow, and in order to guard against the possibility of any work remaining undone or any corrections having to be made in any of the third readings it would be well for the hon. members to be present at ten o'clock, and he would therefore ask Mr. Speaker, in adjourning the House, to fix that hour.

Before adjourning the House, the Speaker said he might state on behalf of his colleague, the hon. Commissioner of Public Works that the reason why he was not there today and would not be there tomorrow was that he was confined to his house with an attack of grippe and was under the care of his medical attendant.

The House then adjourned to 10 a. m. on the 22nd, April.

LIQUOR SPOTTERS ROUNDLY SCORED

GUELPH, April 23.—A matter in which more than ordinary interest was displayed was heard at the Courthouse here recently before Judge Chadwick. It comprised two cases entered as appeals from the decision of a magistrate in a liquor case tried recently at Elora. The first was an appeal against the conviction of Harry Hastings, of Elora, charged with selling liquor during prohibition hours. The second appeal was that of Inspector Groves against the dismissal of Hastings on another similar charge, the date of this alleged infraction of the law being on the 9th of March.

The chief witnesses were Henry Solomon and Frank Armstrong, two Government "spotters," who told of having secured liquor from the defendant on Sunday, Feb. 8th. A number of other witnesses were heard on both sides, after which Judge Chadwick gave his decision in favor of Hastings, reserving the judgment of the magistrate, who had ordered Hastings to pay a fine of $100 and costs. The two Government "spotters" were severely censured by the Judge and characterized as unreliable witnesses. Mr. Nicol Jeffery appeared as counsel for Hastings, and judgment was given without hearing his address.

HORSE NOTES

Attention is directed to the advertisement in another column of Kearney Bros., owners of the Clydesdale Stallion Sir Donald recently purchased from Mr. Thomas McLellan, Eldon. This magnificent Clydesdale stallion needs only to be seen to be admired. He is a beautiful dark bay in color with all the good parts of a typical Clydesdale. He has produced stock of the highest merit and its one essential is its chief feature in a stallion which is a sure producer and whose stock had proved to the public to be of the very highest class. In recommending this horse to the breeding public we do it with confidence that he is the right horse to produce the stock which bring the big prices. 2157
