Weekly Livestock Market Report

Ottawa, Canada - - May 13tr 1943

SUMMARY

Cattle markets appear extremely sensitive to supply at the moment, any appreciable increase in receipts bringing about a reduction in price, but on the other hand any moderate offerings are readily absorbed and at good prices. During the past week, while trading was slow on eastern markets, values held to previous levels, but in the west, under fairly light runs, markets as a rule were firm and advances in many cases of 25 cents to 50 cents in prices were chalked up. Aside from a decline of 25 cents on some calf sales at Montreal, there was practically no difference in prices paid by purchasers of other classes of live stock during the week.

EASTERN CATTLE MARKETS

Values of all cattle remained unchanged at Toronto, although a slow clearance was made on a moderate run, with weighty steers topping the market at $11.50 to $12.50 and a few prime animals as high as $13, and butcher steers making up to $12.25. There was some weakness at Montreal, where steers and cows were lower, good steers making $11. 75 to $12.25 and a couple of loads topping at $12.50. Good butcher cows were rated at $9.50 to $10, with an odd sale a shade higher. In the Maritimes, beef prices were steady to strong, but the receipts were still below market requirements and the better grades of steers and heifers were quoted at $11 to $11.25.

WESTERN CATTLE MARKETS

Despite unfavorable reports from outside markets, the western cattle as a rule all killing classes moved up 25cents to 50 cents. Winnipeg had best slaughter steers at $11.75 to $12.25 and there was also a good inquiry for replacement cattle, with suitable light stocker steers at $10. 50 to $11. Other western markets had an active trade and the best of the steer division at Calgary sold at $11.50 to $12.25; Edmonton up to $12; Prince Albert $11; Moose Jaw 11.25; Regina $11.50; Saskatoon $11. 25 to $11.50; while Vancouver had not sufficient cattle to establish a market.

UNITED STATES MARKET

Shipments of dairy cattle across the border during the week totalled 1,181 head, compared with 582 in the corresponding week last year. Exports to date this year totalled 12,945 dairy cattle as against 6,494 head in the same period of 1942.

CALF PRICES MOSTLY UNCHANGED

There was little change in prices paid for calves except for a little easiness at Montreal. Toronto had the best of the veal offering at $14 to $15, while Montreal paid $14.50 to $15 for good veals. Winnipeg quoted a top of $15, Calgary $12 to $13, Edmonton $13.50, Prince Albert $12.50, Moose Jaw $12.50, and Saskatoon $12.50 to $12.75.

NO CHANGE IN HOG MARKET

The hog market continued at an even keel during the week, with practically the same prices prevailing as in the past week. Toronto sold the basic grade at $16.75 to $16. 90; Montreal $16.85 to$16.90, with an odd small sale up to $17; Winnipeg $15.75 to $1585; Calgary $15.40; Edmonton $15.40; Prince Albert, Moose Jaw, Regina and Saskatoon $15.50; Vancouver $16.30 to $16.40; and Moncton $17.25.

The Dominion hog run for the week ended May 8th was 140,123, compared with 137,879 in the same week last year. Up to date this year, hog gradings totalled 2,295,446, and in the same period last year were 2,363,922.

Victory Garden Carrots Delicious Health Food

If Victory Garden crops were to be rated accordnig to the quantity of vitamins they are likely to contribute to the family diet all season long, the carrot would probably be rated next to the tomato.

Carrots are definitely a health food. They say that pilots of the Royal Air Force are required to eat them nearly every day to keep their eyesight keen. But not everybody likes carrots.

If your family belongs to the anti-carrot facton, and you are planning your first vegetable garden do not omit carrots from the schedule pust because of that prejudice. If you have never eaten carrots fresh from your own garden, then you have no idea how delicious they can be.

Sow a row, with the very first crops you start in the garden. First, mix the carrot seed with a pinch or two of early radishes, because carrots germinate slowly, and the radishes will come up right away and "mark the row' as gardeners say, so you may avoid disturbing it in cultivation. In a shallow drill, sow the seeds thinly (fifteen to the inch). When the radishes appear and mature, pull up and eat them promptly, so they will not crowd the carrots which succeed them.

Let the carrots grow without thinning until some are as thick as lead pencils, then begin to thin out and cook the excess roots. You will be amazed at the flavor and tenderness of these tiny carrots, and from then on your prejudice will disappear.

While carrots are most delicious when they are young, they still remain sweet and tender afte, they have grown all summer in the garden. They will mature well standing so clore in the row as to touch each other. But the best plan is to make successive sowings, and harvest them before they are full grown. If you wish to can carrots, the smaller they are the more delicious you will find them next winter. It is a good plan to sow a special row for canning, and harvest them when they reach the size desired.

When carrots are allowed to mature, they should be pulled when the tops begin to turn yellow. If left in the ground they will lose quality.

Young Carrots From Your Garden Taste Different!

Prime Minister King Arrives In Washington

WASHINGTON, May 18—(CP)—The use of Canadian troops in offensive action in Europe this summer is believed to be one of the topics that Prime Minister Mackenzie King will discuss here with the two master strategists of the United Nations, Prime Minister Churchill and President Roosevelt.

The Canadian leader arrived here today from Ottawa and, after seeing the Prime Minister briefly this afternoon, will begin his conferences in the White House tomorrow. He lunched at the Canadian Legation with Leighton McCarthy, Canadian Minister to the United States, and dined tonight with T. V. Soong, the Chinese Foreign Minister, at the Chinese embassy.

Mr. Churchill is scheduled to address a joint session of the Senate and House of Representatives at 12.30 p.m. E.D.T., (1.30 p. m. A.D.T.) tomorrow and Mr. King will be present. The speech will be broadcast in the United States and Canada. Later, he will return to the White House for uninterrupted discussions with the British and American leaders, staying the night there

Is Awarded V.C. Posthumously

LONDON, May 18 (CP)—Capt. Frederick Thornton Peters of the Royal Navy was awarded the Victoria Cross posthumously today for leading two cutters in a suicidal charge against the boom guarding Oran Harbor during the North African landings.

The 53-year-old Skipper led the Walney and Hartland to their objectives through point-blank fire of shore batteries, a destroyer and cruiser. Hew as the lone man of 17 on the bridge of his flagship who survived and he was blinded in one eye. He was killed a month later in an airplane crash.

His ship, the Walney, rammed the boom, sank a destroyer, attacked the cruiser, and reached the jetty, but was disabled and ablaze and went down with colors flying.

Restricted use of metals means steel shanks, which supported those three-inch heels, are being replaced by wood. Golf oxfords will have no metal spikes, and there will be fewer eyelets, tacks and functioning buckles. There will be priorities, though, for orthopedic and factory shoes designed with extra toe protection.

Plan Sufficient Food For All People In World

HOT SPRINGS, Va., May 18 (AP) (Advance)—President Roosevelt told the United Nations food conference tonight that "no hindrances, whether of international trade, of transportation or of internal distribution," must be permitted to keep the peoples of the world from receiving the food necessary to health.

"Society must meet in full its obligation to make available to all its members at least the minimum adequate nutrition," the President said in a message to the conference's opening session.

Delegates of 43 governments, a French representative and the Danish Minister to the United States assembled in the empire room of the luxurious homestead hotel for the first plenary session of the first United Nations conference on postwar problems.

Germans Jittery

STOCKHOLM, May 18 (AP)—The Germans have taken extraordinary measures to control shipping along the southeastern coast of Norway, reflecting new invasion tension. A decree issued in Oslo warned that every suspicious ship travelling between the Swedish border and Langesund Fjord would be fired upon without warning by night or day. Ships are forbidden to approach within 175 yards of any vessel lying at anchor in the restricted zone.

Decision In Battle On Attu May Come Soon

"One Day Of Good Weather Is All We Need" One Spokesman Says.

WASHINGTON, May 17 —(AP)—A swift conclusion to the drive to force the Japanese from Attu in the Aleutians appeared possible here tonight on the basis of meagre reports from the rocky north Pacific island.

Virtually the sole definite information is that heavy weather has been delaying the action, but one authority went so far as to say "one good day of clear weather is all we need."

From the Tokyo radio came indications that such a day may be at hand—in fact may have arrived—for the enemy broadcast asserted that naval and air bombardment was supporting streams of American reinforcements.

Heretofore the fog has been reported so thick that air activity, sea action and even major ground movements were almost impossible.

The United States Navy late today broke a three-day silence on progress of the action, but its communique said only:

"Operations against the Japanese on Attu Island are continuing."

The Navy denied one phase of the Tokyo broadcast—that poison gas had been used against the Japanese in rocky crevices where they dug in on the mountainous island.

"Enemy claims that the U. S. forces in the Aleutians have used gas are absolutely untrue," a spokesman said.

He declined to go beyond that statement to discuss the Japanese claims that American troops far outnumber the Japanese forces on the island. In some quarters the Japanese assertion that their troops were fighting against "tremendous numerical odds" was interpreted as a step to prepare the Axis public for word of defeat in the Aleutians.

The Tokyo radio—unconfirmed from any sources in Washington—also reported that a pitched battle is under way on the northern coast of Attu. The enemy broadcast a statement that the American invasion took troops onto the island from three sides—north, south and east. It asserted that the force landing on the eastern beaches was annihilated.
