

Eucharistic Congress In Sydney

(British United Press) SYDNEY, N. S. W., Jan. 25.— Sydney show for 1928 will be the world Eucharistic Congress, which will eventuate next September. It will concentrate the attention of Roman Catholics in every country in the world on this city whose population of 1,100,000 is expected to be increased by 200,000 visitors during the congress.

Pope Pius has appointed Cardinal Bonaventura Ceretti as his representative. The cardinal spent several years in Australia as apostolic delegate and left many friends here.

Authorities in charge of organization of the congress have been notified that Cardinal Hayes of New York and Cardinal O'Donnell of Dublin are certain to be present, while Cardinal Bourne, head of the church in England, is another probable visitor. Altogether, it is expected that seven cardinals will be in Sydney for the great function.

Pilgrims are coming from all parts of the world to attend the congress. Three vessels have been chartered to bring visitors from the United States and another has been secured for a Canadian pilgrimage. Accommodation at all Sydney's leading residential hotels and boarding houses has been reserved on bloc by the congress organizers. The visitor who comes to Sydney at that time without being connected with the congress will, it is feared, have to sleep in the parks.

Rev. John Turner, B. A. Accepts Call to Central Christian Church

Rev. John Turner, B. A., a native of South Australia, who has just finished a Post Graduate Course at Drake University, Des Moines, Iowa, has accepted a call to the Central Christian Church of this City, to become their Pastor, commencing next Lord's Day, the 29th inst.

Mr. Turner graduated from Australia College of the Bible, Melbourne, Victoria, Australia, preaching in his home state two years, returning to America he preached in Honolulu for four months, after which he attended Eugene Bible University, Eugene, Oregon, graduating with B. A. degree, also taking different work for B. D. degree.

He has just completed a Post Graduate Course at Drake University, Des Moines, Iowa, and while taking this work, was Pastor of the Moadeson Avenue Christian church of that city.

Mr. Turner comes very highly recommended as a student and preacher of high standing, and this church is to be congratulated on securing his services.

The subjects of his sermons on Sunday will be, morning—"On the Threshold," and for the evening—"A Servant's Profession."

Power - in HARNESS

SURGING tides and wilderness waterfalls obey your whims. Your finger, pressing the electric switches with which your home is equipped, releases for your service and convenience powers undreamed of by earlier generations.

Four and a half million horse-power hydro-electric energy approximately has been developed at present to build Canadian industries, light Canadian cities and homes, transmit sound over telephone and telegraph lines, and operate street railways. Seven times as much more is awaiting development... waiting to serve the greater Canada of tomorrow.

Today everyone accepts electric light, heat, power and the telephone as commonplaces—prosaic things rather than the products of romance. Yet, at its source, the power you use is sufficient to destroy cities. It is useless as an active national asset and everyday convenience but for the fact that it can be transmitted in commercial quantities for safe use in homes and factories. Cables, wires and equipment are needed to carry the electric power in sufficient quantities to fill the needs of city and country, and to divide and subdivide that volume until you may use it simply and with safety by merely pressing a switch.

We are proud of the skill of our craftsmen who work year after year in Northern Electric plants to create, and constantly improve, so much of the material necessary to harness those tremendous water-powers and to carry electric current safely to you for your comfort and benefit.
