The Pandora Thermometer

The thermometer on the Pandora range oven means precisely in accuracy to the cook what the square and compass mean to the draftsman. Without the square and compass the draftsman would have to work entirely by guess, just as you do without an accurate and reliable thermometer on your oven.

The Pandora thermometer reduces cooking to an exact science. You know precisely how much heat you have and what it will do in a given time. It is one of the small things which makes the Pandora so much different and better than common ranges.

SETTLED THE FATE OF CHINESE LABOR

Horrible Condition of Affairs in South Africa, British Parliament Aroused by The Reports, Immediate Steps to be Taken to Stamp Out Evil

LONDON, Nov. 20.—Both houses of Parliament Thursday night debated the unpleasant subject, arising from the recent publication of the contents of the report of an enquiry into the conditions of Chinese labor in South Africa, and which reveals the systematic practice of unjust and oppressive conditions there. Notice of this debate was given Thursday by R. C. Lehmann, Liberal, who, in the house of commons, obtained leave to move the adjournment of the house to discuss the "prevalence of gross immorality in the Chinese compounds in the Transvaal," as disclosed by the Bucknill report, and "the imperative necessity for the government to take immediate steps to stop this state of affairs, especially by a more rapid and systematic repatriation of the Chinese."

The motion that all strangers should withdraw having been rejected by 200 votes to 150, Mr. Lehmann, before a crowded house, moved the adjournment. In a steadily moderate speech he declared the country was in the presence of a great moral disaster, and asked the government for information on specific points and what it intended to do in the matter.

PRINCE RUPERT IS SPLENDID HARBOR

Inspector of Agencies Bredt Returns From Northern Trip.

P. M. Bredt, of Regina, Dominion government inspector of agencies and foreign colonies, accompanied by Mrs. Bredt, arrived in Victoria yesterday after attending the New Westminster fair.

In the fall of last year Mr. Bredt visited the coast for the benefit of his health inspired by too close application to the arduous duties of his office and made his headquarters in Victoria. The balmy climate of the island had its salutary effect and in a few weeks Mr. Bredt was sufficiently recovered to make many excursions about the island making notes of its conditions and advantages; and among other functions, he attended the Cowichan Agricultural exhibition at Duncan, where he acted as one of the judges, afterwards taking a sea trip up the west coast as far as Port Simpson.

"My opinion of Victoria and its surroundings," said Mr. Bredt, "is sufficient to express the fact that I have taken the earliest opportunity of coming back again to spend my summer holiday with you and that I have brought Mrs. Bredt this time to share my enjoyment. I have this year visited my west coast trip, this time ending it as far as Skagway. It is certainly the most picturesque country one could imagine. We were delighted and surprised at its grandeur, it is like several Norways in one wonderful panorama. Among many other changes for the better that I noticed was that of the improved conditions of travel. The boat in which we made the trip was commodious and comfortable, luxuriously fitted with the latest improvements with the additional recommendation of good cuisine and attendance, a good seaboard, a general comfortable and pleasant and quiet officers."
