Roses Bloom
In Honor Of
Old Composer

ATHENS, Ga., June 15—(C.P.)—Roses are blooming at the Old Harden place here in memory of John Howard Payne, homeless lover who wept when his Georgia sweetheart first sang his immortal "Home, Sweet Home" to him more than a century ago.

The 141st anniversary of his birth was June 9 and the later generations of Harden's saw to it the garden was a mass of bloom on that day.

Payne, who was left an orphan at 13, came to Georgia to study law among the Cherokee Indians and was taken into the home of General Harden. He fell in love with the General's daughter but for some

unknown reason they never married.

Legend of the Harden family says Payne was penniless in London when he wrote his famous song. Mary Harden was given a first copy. When he returned from London the couple sat together in the garden. Mary strummed the music on a banjo and sang the simple words. Roses were blooming then and the family always associated the rambling vines with the song.

Payne died in Tunis in 1852. Mary asked that her copy of "Home, Sweet Home" be buried with her. But it wasn't. Her family feared vandals would rob her grave to get the precious manuscript. Later the copy was stolen.

Mrs. A.: "I prefer girls to boys. You never know how a boy is going to turn out."

Mrs. B.: "Well, girls are troublesome, too. I never know when my daughter is going to turn in."

THE VOICE OF THE ETHER THAT LURED TO DEATH!

Rev. J. W. S. Lowry
Receives Degree

Rev. J. W. S. Lowry, of the Scottish Presbyterian Church, received last week the Degree of TH.D., Doctor of Theology, from the Southern School of Divinity, at Dallas, Texas, which is in affiliation with the State University of Texas. Dr. Lowry has secured the degree by scholarship, having taken over ninety per cent in six Theological examinations and in his Thesis on "Prayer and the Christian Life." The diploma was granted with Magna Cum Laude in absentia.

Dr. Lowry has been appointed by his Presbytery and congregation a delegate to the World's Council of Presbyterian and Reformed Churches meeting in Belfast, Ireland, June 22-30, and hopes to attend in company with some others from New England and other parts of the U. S. A. This Council of the Church, which meets quadrennially, has not met in Ireland since 1884. Dr. Lowry, who was then a student in Belfast being present on that occasion, and at three meetings of the same body since. The last meeting of this Council was held in Boston, Mass., in June, 1929.—Cambridge Recorder.

Novelty Necklaces
Made of Spaghetti

PARIS, June 16—New necklaces are nothing if not novel and economical.

Macaroni makes the very latest ones for fashionable necks around Paris. The ingenious designer has cut lengths of spaghetti so dear to the heart of every Italian into pieces varying from a quarter of an inch to one inch long and then threaded them on wire or string.

They are dyed in all colors of the rainbow and even many the rainbow never saw and can match or contrast with every new ensemble.

In some, the threads run through the centre of the tube of paste and in others, through the sides. Pink macaroni is particularly pretty, giving the appearance of pale coral.

Other novel and economical necklaces are made of little mirrors, a dozen or more of them strung side by side, indicating that surely the women have abandoned all belief in the superstition that a broken mirror condemns one to seven years of bad luck. For these little reflectors are naturally very fragile. Some of them are barely an inch in diameter but one can see a great deal of the world through them, the passing traffic, a brilliant eye and a little nose to powder.

Lanvin makes silver lame necklaces with bracelets to match.

Colored mirror jewelry, brooches, buckles, clips, and rings, come in blue, pink, red and other fashionable shades. Even monograms for the bag are shaped in looking-glass, as well as bracelets.

Oxford Group
Head Departs

NEW YORK, June 15—(C.P.)—The work of the Oxford Group in Canada has been highly successful, declared Dr. Frank N. B. Buchman, returned, respected leader of the modern religious movement, as he sailed for the United Kingdom after six months' work in Canada, and the United States. Dr. Buchman indicated, nevertheless, he had no intention of diminishing his drive for converts.

"The Rev. Dr. George Pidgeon, first moderator of the United Church of Canada, said this demonstration marked the greatest spiritual awakening in the history of Canada," Dr. Buchman said. "Premier J. E. Brownlee of Alberta remarked he had never seen anything like it even at election time. He said the enthusiasm went way ahead of elections and that it showed people were awakening to find the answer to the unrest and depression in the world today."

Dr. Buchman was optimistic about Vancouver where, he said, a great religious revival had occurred, with thousands turned away from the Oxford Group's meetings, and every church in the city crowded to the doors.

"At one house party in Canada," the group leader declared, "a Conservative and a Liberal both spoke and remarked it was the first time they had ever stood on any platform side by side. Well, there's your answer to coalition government. Let God control it. Liberals and Conservatives will get together when a new quality of life binds them."

Dr. Buchman sailed on the Berengaria to act as master of ceremonies at a house party at Oxford, for which he already has received 1,600 acceptances, some of them from delegates to the London Economic Conference. After that the leader and his colleagues will move on to Holland, Germany and Switzerland. They do not expect to revisit Canada until next Spring.

Honeymooners
Hit "Trail"

(Special to The Guardian)

MONTREAL, Que., June 15—Among the passengers of the Canadian National Liner "Lady Rodney" sailing from Montreal last night were several honeymooners who are hitting the now popular honeymoon trail to the Paradise Isles of the Caribbean, the British West Indies. Travel to these Empire Isles of the sub-tropics shows a 30 percent increase over last year.

APPREHENSION OF MANY
INDIAN CIVIL SERVANTS

LONDON, June 16—Apprehension of many Indian civil servants regarding the Government's proposal for a Federal Indian Government was expressed today in a memorandum submitted by the Indian Civil Service to the Parliamentary committee examining the Government's scheme.

The memorandum pointed out that the proposed Constitution Act for India will put the Civil Service under the control of authorities responsible not to the British Parliament but to the Indian Legislature, widely different in outlook and experience from those men, who have been responsible for the administration of the country.

It emphasized that members of the service are anxious to have their existing right, pay and pensions protected and suggested steps be taken to this end. It said in view of hostile declarations by the Indian National Congress the possibility of reputation of policy cannot be ignored.

SUCCESSFUL SOCIAL—The ice cream social and dance in Elliott hall on Tuesday evening under the auspices of the Ringwood Women's Institute was held despite the unfavorable weather, as a goodly number of people had gathered regardless of the rain. The young people tripped the light fantastic until morning to the splendid music furnished by Mr. Jerome Peters on the violin, and a good little sum was realized from the sale of fruit, candy, ice cream, etc.

ELECTRIC LIGHT AT RACES—Mr. A. W. Peterson, chief electrician and engineer who has constructed a new steam lighting plant for Milligan & Morrison, and which will be used to light their track and surroundings on June 21, writes the following. There will be 10,000 watts more electricity used to light the track on June 21, than is required to light the streets of Charlottetown. This amount of light being used on a half mile track should make it white. Mr. Peterson was Chief Electrician at the Maritime Electric Co., Charlottetown and also installed the new electrical plant for Mr. Ives at Tryon. So with Mr. Peterson's words backing up those statements the public will be assured a good evening's entertainment.

WESTERN STEERS PROVE
DOCILE

MONTREAL, Que., June 16—"Fnest and best behaved cattle that ever embarked for the Old Country." This was said of 440 Canadian prairie steers which took ship aboard the Canadian National freighter "Canadian Prospector" bound for Great Britain. Their exodus appears to mark new life in the cattle exporting industry. A small crowd gathered, anticipating rare sport but the steers trotted stoically and with docility down the long fenced gang-plank to their respective "cabins". Guards armed with persuasive poles gave the appearance of travel experts in charge of conducted sight-seeing. The "Canadian Prospector" was hastily adapted to cattle-carrying during her stay in port. For her bovine passengers she carried an abundance of hay, oats, corn and fresh water. The animals are already pleasingly plump and should delight the British market.

ORPHANAGE
WORK IS REVIEWED

The work being done for the neglected and dependent children of the province, has been considerably increased during this time of so-called depression.

The Protestant Orphanage has been doing its part quietly and a large number of children have been well cared for by an experienced staff under highly trained direction.

The Trustee Board has made no special appeals for funds though many times only through the expert ability of the head of the finance committee were we able to avoid it.

As in all lines of endeavor, cash has been very scarce; ordinary contributions have fallen off heavily and our annual fall collection dropped considerably below previous years, to offset this drop we were fortunate in having an increased revenue from our Endowment Fund which coupled with the strictest economy has been of great assistance in surmounting many difficulties.

Recent contributions have been received from: Ladies Auxiliary, Bedouque \$5.00; City Auxiliary (Mite Boxes) \$100.00; East Point W. L., \$16.00; Home Auxiliary \$4.00 and Mt. Moriah Lodge A.F. & A.M., \$7.90.

The June meeting of the Trustee Board was very largely attended and plans for the coming Annual Meeting on June 23rd were carefully arranged. The annual meeting of the Provincial Auxiliary is also this same date; this one day in the year is coming to be known as Orphanage Day as all officials both on the Board and of the Auxiliaries gather together to review the work and discuss and plan the future.

The Auxiliary holds their meeting in the afternoon in the Orphanage and St. Paul's Parish Hall is again at our service for the regular annual meeting at 8 o'clock in the evening, and at which everyone is welcome.

The period through which we are passing has produced many new problems—Governments have found them—Cities have had to meet them and the Orphanage has had them brought to them; unemployment has not been the least of all troubles and where we have idle hands a misguided idea soon finds wrong use for them; through all this the Orphanage is beset with applications to receive children for all the reasons from honest need to wilful neglect.

The committee on adoption has a most responsible task and in their minds the first consideration always is the best interest of the child.

There is a golden opportunity today for careful thinking people everywhere; about us are the children that tomorrow will be the law-makers or law breakers; a large number are without parental care and another large number would be better so but we are their living examples and our chance to point them the right road will soon pass.

A few, not all, can be preachers, another few teachers and so it comes that in our Orphanage work, a number send in money others send clothing, each striving to do his or her duty toward these unfortunate as they see it while on the inside the officials labor long and earnestly without remuneration that the children may be properly cared for and guided in paths of right.

And still there are many who do not know the joy that comes from helping others, especially little children such as our institution has been a real home for, and on whom their past should cast no shadows. The evening of life soon comes and if we are to "Lie Down To Pleasant Dreams" we must do our duty NOW.

The chief mourners present were: his brother Patrick P. Duffy and his sisters Mrs. William Clark, Mrs. James J. Trainor, Mrs. Fred Sinnott, Mr. P. A. Monaghan, Kinkora, was funeral director.

After the burial services the Clergy and the other visitors from different parts of the Province were entertained to dinner in the Hall by the ladies of Kinkora Parish.

"DEPRESSION" SOUP

MONTREAL, Que., June 16—Dining car and sea-faring chefs of the Canadian National organization recommend it: Take all the kitchen "trimmings" such as potato peelings, carrot tops, beet tops, the outer leaves of lettuce and the trimmings from celery, the stems of spinach—everything, in fact from green or root vegetables which would commonly go into the garbage. Cover these with cold water and boil gently until they seem done, then strain. Now boil some lentils or dried peas which have been soaking overnight with an onion and a carrot. When early done, add the vegetable broth. Now boil 1-2 lbs of liver and when done put it through the mincer. Return to the broth in which it was cooked, simmer until there is only about half a cup of liquid and mix it with the vegetable soup. Serve with force-meat balls or sliced brown bread and butter.

GOWAN BRAE WOMEN'S INSTITUTE

The regular monthly meeting for June was held in the School house, with an attendance of ten members and three visitors. Meeting opened with singing the ode. Roll call was answered by spelling Gowan Brae and Writing Souris River. Minutes of last meeting were read. The Convention which was to be held in Rollo Bay on June 6th was discussed and it was decided that some of the children put on a small programme and each of the members prepare a lunch, after which
