Keep Up Your Vitality

Whenever a reliable tonic is needed, especially for cases of chronic throat or lung trouble, for loss of weight, wasting diseases there is one remedy you can depend upon to give prompt results. It is our

Elixir Cod Liver Oil.

The value of Cod Liver Oil is conceded, but it is a remedy that often can not be taken by those who need it most.

In our Elixir of Cod Liver Oil we present the essential medicinal properties of the oil with the greasy, disagreeable properties left out. It is very pleasant to take. Price one dollar full pint bottle.

THE CHARGE OF INTOLERANCE IN ULSTER.

Between the contending factions in Ireland it would be reckless to attempt to decide at this distance, although both parties have their strong sympathisers in this country. Each charges the other with intolerance and bigotry, while there is no doubt a plenty of it on both sides. But just why a hearing should be refused to the advocates of Home Rule in Belfast, or sought to be refused, we can by no means conceive. The mere fact that the majority in the city, or in Ulster do not want Home Rule is no sufficient reason for the attempt to restrict the British right of free speech.

For that matter the people of Dublin or Cork are very strongly in favor of an Irish Parliament, yet it appears they tolerate the presence of prominent Unionist speakers to oppose Home Rule on the public platform in those cities, without let or hindrance. There might be equal tolerance on the other side in Belfast without any great danger to anybody, it would seem, but that is not the Ulster way. Wherefore the Ulsterites are charged by their opponents with intolerance and fear of free discussion.

Home Rule Notes, a publication whose title sufficiently expresses its aims, affirms that "the only religious intolerance in Ireland is to be found in Ulster—the very corner which produces the platform orators who have the impudence to attempt to alarm British electors about what the Irish Catholics might do under self-government." This is going it strong, to use a current phrase, but the attempt is made to sustain the statement by challenging a refutation of the following statements:

That nearly one-third of the population of Belfast is Roman Catholic. That there are 437 salaried officials in the Belfast corporation and that only nine of these are Roman Catholic. That the sum paid yearly in salaries to the officials in Belfast is £67,723, and of this only £765 goes to those of Catholic faith. That the Belfast Poor Law Board spends £10,000 yearly in salaries, but of this sum only £45 a year is paid to the one only Catholic whose name appears on the list of officers "required to give security."

We are left to conclude from this that the official list in the boasted progressive city of Belfast is framed on much more exclusive lines than we are accustomed to in this country, to say the least.

A WESTERN CONTEMPORARY.

The Summerside Pioneer, of which some of our readers have no doubt heard, devotes a large portion of its usual editorial space to a discussion of The Guardian, for which compliment we are duly grateful and would be pleased to reciprocate in kind, but for some rather obvious reasons. In the subject chosen by our western contemporary it has fallen upon an interesting and an inspiring topic of discussion and one which the reading public will feel is well deserving of consideration.

How much depends upon a good choice of subject! All preachers and editors and all hearers and readers also, are aware of the importance of a judicious choice of a subject. But were we attempt to give a dissertation upon The Pioneer we should feel that the subject had great limitations. It is too narrow, too dull, too empty of interest and of inspiration for either serious or jocular consideration. We therefore must decline to discuss it at the present time.

EPIDEMICS ABROAD.

There is a prevalence of scarlet fever in the city and also some infectious sore throat and diphtheria—all contagious and dangerous diseases. Under such conditions all good citizens should feel obligated to observe strictly the reasonable restrictions of the city Board of Health as to placards and strict isolation. These are necessary to prevent the wide spread of sickness and death. That alone should be sufficient to cause the utmost care. It should also be kept in mind that a mild case is usually quite as much a source of danger to others as is a malignant case. Also that unless the spread of the prevalent maladies is at once checked, we are close upon the time when a general order will be issued to close the places of amusement, schools, churches and colleges. This would be in every way a bad thing socially and in a business way. There is no need that it shall occur, but it can only be prevented by a careful and prompt observance of necessary precautions.

LAUGHS WITH JOY NO MORE INDIGESTION

Montreal Man So Ill, Though He Would Die of Stomach Disorders.

Just read what Mr. Larose says of the curative powers of Dr. Hamilton's Pills:

"I suffered from dyspepsia and indigestion for five years. I suffered so much that I could hardly attend to my work. I was weak and lost all courage. I enjoyed no rest until I decided to follow your treatment. To my great surprise I immediately began to feel better. I am now using the second box of Dr. Hamilton's Pills and I feel so well that I want to tell you that Iowe this great change to your famous pills. I recommend Dr. Hamilton's Pills to every person who is suffering from dyspepsia. Your grateful servant D. R. Larose, 338 Joliette St., Montreal, P. Q.

STUDENTS AND EPIDEMICS.

Editor Guardian:

Sir:—We students notice that at a meeting of the civic Board of Health held yesterday, some twenty cases of Scarlet Fever and several cases of Diphtheria were reported by the Health Officer. We would fain hope that even this report were an exaggeration of the true state of affairs with respect to these diseases in our city, but are inclined to believe that there are other cases in our midst which have not been reported to the Health Officer. There is always a tendency among citizens to fear quarantine, and consequently to neglect reporting cases because of this. We hope that in the interests of all such a tendency will not be fostered by the citizens of Charlottetown. We notice a timely warning in last evening's Patriot, and in adding a few words to that article we would like to say that whilst we do not desire an epidemic scare, we would prefer the scare to the epidemic itself. And the latter may be averted by the former.

Viewing the situation from a student's standpoint, we would urge that every precaution be taken to prevent any spread of these diseases among the students of our colleges. The student's case is peculiar of itself. He is very often away from home, and stopping at boarding houses where he cannot be expected to receive the care that he would receive at home. Besides he is put to great expense and loses his college year, if he becomes a subject of the disease. Therefore we claim that every extra precaution should be taken by the faculties and Board of Health to preserve the health of the student bodies. Hoping that a word will be in season, "a word to the wise being sufficient," we are, thanking you, Mr. Editor,

Truly yours,
STUDENTS.

WANT BRANCH RAILWAY AT BRIDGETOWN.

A large and representative meeting was held in the hall at Bridgetown on the evening of Jan 31st for the purpose of taking steps or the purpose of getting the federal government to grant a branch railway to Bridgetown. John Duff was appointed chairman and the undersigned Secretary, Stewart Hunter, William McLeod, John Duffy, Edwin Clay and others addressed the meeting showing what a boon the railway would be for the people of this section of country had never received our just share of federal moneys, after which the following resolution was put to the meeting and unanimously adopted.

That, whereas the Federal Government has promised us the Car Ferry and also to widen the railway to standard guage, therefore we, the electors of Bridgetown and surrounding country, take this opportunity of expressing our approval of the same and wherefore, we could not receive the benefit from the Car Ferry that we should without a branch railway to Bridgetown, therefore resolved that we forward petitions to our representatives at Ottawa praying that they will press our petitions on the present Government and grant us a branch railway to Bridgetown as soon as possible.

T. J. WIGGINTON,
Secretary.

NOTES.

It is proposed that the federal Government shall establish a grain elevator at Vancouver for the shipment of wheat from the Northwest to the European markets, via the Panama Canal when it is opened. Roughly the distance from Calgary to Liverpool by this route would be at least 10,000 miles. The grain would have to pay railway carriage for, say, 500 miles and water carriage with canal tolls added for the remaining distance. Taking into account the relative distance from market and the greater certainty of the crop, the raising of wheat, oats or other grains should be more profitable in the Maritime Provinces than in Alberta.

The Guardian has received from Dr. G. R. Parkin the annual statement of the Rhodes Trust for 1911. It shows the number of Rhodes scholars in residence at Oxford last were from the Dominion and Colonies from the Dominions and Colonies of the Empire, 89 from the United States and 10 from Germany. Of the Rhodes scholars who graduated during the five years 1906—1910 inclusive the principal lines of work taken up by the graduates have been Education 84, Law 66, Religious Work 19, Civil Service 13, Medicine 11 and 53 to other various lines. The next qualifying examination for the scholarships of 1913 will be held about the middle of October next.

It is given out from Vancouver that the Hindus there, having grown tired of waiting for permission to bring their wives to Canada, are returning home to India in large numbers, also carrying home with them a strong sense of injury regarding the treatment extended to them as British subjects. Such conditions seem not unlikely to react upon the Oriental mind in a manner that may create additional unrest and discontent in India.

We thought it had been made sufficiently clear to our many valued correspondents that all letters on the automobile question must have the name and address of the writer affixed for publication in order to secure attention. The rule cannot be departed from, although letters are being received that do not comply with it and which cannot be used. The same rule applies equally to those who favor or are opposed to the free use of automobiles on the roads.

H. Rider Haggard's New Book

146 MARIE H.RIDER HAGGARD 147

—The title of a book destined to be one of the best sellers for 1912.

The author's name—H. Rider Haggard—assures wide popularity for any story he may write, and competent critics believe "Marie" to be the notable writer's best production.

"Marie" is quaintly or diffidently sub-titled "An episode in the life of the late Allan Quatermain"—but that hardly does justice to the book.

The story is practically a complete and wonderfully fascinating history of Allan Quatermain's early life—a story that also reveals many incidents in the strenuous life of South African settlers more than half a century ago.

The book shows Africa's big mystical philosopher at his best.

PAPE'S DIAPEPSIN SURELY PUTS THE STOMACH IN ORDER

As there is often some one in your family who suffers an attack of Indigestion or some form of Stomach trouble, why don't you keep some Diapepsin in the house handy?

This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy Stomach five minutes after.

Tell your pharmacist to let you read the formula, plainly printed on these 50-cent cases of Pape's Diapepsin, then you will readily see why it makes Indigestion, Sour Stomach, Heartburn and other distress go in five minutes, and relieves at once such miseries as Belching of Gas, Eructations of sour, undigested food, Nausea, Headaches, Dizziness. Constipation and other Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with the common, every-day cures advertised that they have about made up their minds that they have something else wrong, or believe their is a case of Nervousness, Gastritis, Catarrh of the Stomach or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours, turns to acid, Gas and Stomach poison, which putrefy in the digestive tract and intestines, and besides, poison the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Pape's Diapepsin.

LETTERS FROM THE ISLAND PROVINCE.

During three years I have used Herbageum regularly for my herd of hogs, and I find it excellent for the appetite and for keeping them in a healthy growing condition. At about five months I averaged good bacon hogs of from 140 to 180 lbs., live weight. I use it for my young pigs from the time they are weaned till after the shows; if not for show purposes, until they are three months old. For calves it has proven to be the best preparation I ever used. When fed regularly it keeps them in a healthy, hearty condition, is a positive preventive of scouring, and a perfect bowel regulator, and with it skim milk is equal to new. I have also used it for horses out of condition, especially if they had worms, for which I find it a certain remedy. It is positive death to intestinal worms.

J. W. CALBECK.
Augustine Cove, P. E. I.

Herbageum is the very best thing that can be given milch cows. It is a great advantage both before and after coming in. It will help cows weak in the knees; it is a good preventive of scouring and as a preventive of constipation it is even better. It maintains a cow in flesh when milking heavy and for increasing quantity of milk there is nothing equal to it. I have had good results feeding it when pasture was poor.

Crapaud, P. E. I. D. McLEAN.

I have used Herbageum with cows at calving time, also found it satisfactory for horses, and customers speak well of it
