RHODES ON VISIT TO NOVA SCOTIA

Minister of Finance Calls At Amherst And Tidnish Enroute to Cape Breton.

(Canadian Press)
AMHERST, N. S., Aug. 27.—Arriving from Ottawa to spend ten days in his native province, Hon. E. N. Rhodes, Canada's Minister of Finance, visited Amherst and Tidnish over the week-end. Accompanied by Mrs. Rhodes, he plans to visit his constituency of Richmond-West Cape Breton early this week, later going to Halifax.

The former Provincial Premier declined comment on the outcome of last week's elections in Nova Scotia, stating that he had not been in close touch with the situation here following the World Economic Conference in London and was not fully familiar with the issues.

Expresses Regret
He expressed regret, however, at the defeat of the Conservative Administration, which he had started in 1925 and headed until he was succeeded by Hon. Gordon S. Harrington as Premier in 1931.

GOODWILL AIR TOUR PLANES FORCED DOWN

Two Planes Forced Down Between Halifax and Moncton — None Injured.

(Canadian Press)
MONCTON, N. B., Aug. 27.—Ten planes of the Ontario-Quebec Goodwill Air Tour through the Maritime Provinces, arrived here tonight and awaited arrival of two more, forced down along the route. Both planes, halted by rain and poor visibility, landed safely, according to word reaching Pat Reid, tour leader.

The planes forced down were piloted by Art Flack of Toronto, accompanied by Ernest French, and Jack Charleson of Ottawa. Flack telephoned from Great Village to say he had landed at Folleight Lake, west of Truro. The Ottawa pilot also telephoned but the message given to Reid failed to reveal the landing place, though it stated the machine was undamaged.

Undercarriage Damaged

The undercarriage of Flack's plane was damaged but it was expected he would be able to rejoin the tour.

The fleet, which originally numbered 13, divided today, seven leaving Halifax for Moncton while the other five left for Annapolis Royal, where they gave a brief display of stunt and formation flying. The squadron lost one of its planes at New Glasgow last Tuesday when the machine flown by Charlie Bogart of Toronto, crashed between two motor cars while taking off in a "football game".

Start Trek Into British Guiana Mining Area

GEORGETOWN, British Guiana, Aug. 27.—(C. P. Cable)—Adventurous fortune-seekers in large numbers are trekking their way to new diamond and gold fields in British Guiana's Hinterland made accessible by construction of the Barletta-Potaro road.

The new highway, cutting through almost virgin territory, has greatly reduced the time required to reach the fields and has made it possible to transport equipment and supplies to the scene quickly and easily. A fleet of seven government trucks carried 500 tons of freight over the road during the first seven months of this year, and brought 1,700 persons to the fields in this time.

Bennett Given Cordial Send-off From London

LONDON, Aug. 27.—(C.P. Cable)—Prime Minister R. B. Bennett was on the high seas tonight aboard the Empress of Britain, returning to Canada after a visit of three months here which culminated Friday in signing of a wheat agreement by the World Wheat Conference, under his chairmanship.

The Canadian Prime Minister got a great send-off both at London, where he boarded the boat train, and at Southampton. Friends and well-wishers crowded to wish him

farewell and Premier Bennett, in the best of spirits, said he was sorry to leave after such a wonderful time as he had spent.

Mr. Bennett expressed himself as "eminently satisfied" with the wheat agreement, which called for regulation of exports while the principal importing nations agree to stimulate consumption and, when the international price reaches a certain figure, to revise their customs duties on wheat.

U.S. Navy Menace To World Peace

(Canadian Press)
OTTAWA, Aug. 27.—"The growth of the United States navy is becoming a menace to the peace of the world," Count Michimasa Soyeshima of Tokyo told newspapermen here today. "The fact that her Atlantic fleet is in the Pacific Ocean is causing ill-feeling in Japan. If the United States would remove her navy and repeal the Japanese Exclusion Act, it would do much to disarm the minds of the people of Japan."

Count Soyeshima, a former member of the House of Peers, is here following his attendance at the Pacific Congress at Banff, Alta.

Hon. H. H. Stevens Tells Of U. S. Recovery Plan

Canada Should Not Be Stampeded Into Following Such Action.

(Canadian Press)
STANDSTAD, Que., Aug. 27.—Canada should "with sympathy and interest" watch what is being done in the United States by President Franklin D. Roosevelt but this country "should not be stampeded into aping what they are doing" Hon. H. H. Stevens, Minister of Trade and Commerce, told a weekend gathering of Standstead County Conservatives.

"We have done things which President Roosevelt and his Government are now seeking to do," said Mr. Stevens, "we have been doing them in the last three years. Let the people take note of that and realize that the great work that is going on south of us is what we have done in part."

DENY REPORTS OF CRUELTY IN PENITENTIARIES

Administration Refute Charges of Unnecessary Cruelty in Handling Convicts.

(Canadian Press)
OTTAWA, Aug. 27.—Administration of the Canadian penitentiary system broke their long silence today, answering wide-spread efforts of maltreatment of prisoners and general charges of stringent and harsh jail regulations.

In a statement issued by General D. M. Ormond, Superintendent of Penitentiaries, a blanket denial was made there was unnecessary cruelty in handling convicts. A recent revision of prison regulations was made in an effort to remove harsh rules and to provide greater freedom and exercise for the men.

Here are some of the highlights of the Ormond statement:

1. No convict is kept in solitary confinement in a Canadian penitentiary. This statement was made in refutation of a published report a prisoner had been kept in solitary confinement in Portsmouth Penitentiary, Kingston, Ont., for 23 years.
2. No prisoners have been "flogged like dogs," a phrase used by a convict at the recent Kingston trials.
3. There are no "holes" or dark dungeons in Portsmouth Penitentiary.
4. Shackling to cell gates by the hands has been abolished. A body belt for recalcitrant male prisoners is used now which allows considerable freedom.
5. Application of the hose as a punishment has not been used at Portsmouth since April, 1913.

Prison Life

Details of the prison life of the man who was supposed to have spent 23 years in solitary confinement were given in the Ormond statement, it emphasized the man "merely intended to state he had served 23 years imprisonment." The records showed he had been convicted of murder in 1904, sentenced to be hanged and later given life imprisonment. Later he was declared insane and removed to
