YVONNE'S PICTURE

When Richard opened the door of his laboratory the day of his return he felt a thrill at the prospect of close, interesting work. He crossed to his desk, puzzled by the unfamiliar look it wore. Yvonne's picture looked wistfully at him. He picked it up and looked at it.

"Whatever made her do this?" he asked himself. He was touched. "I'll thank her for it when I go down to lunch," he thought. But when lunch time came he was too deeply absorbed to go down for lunch, and ate his meal from the tray which Yvonne as in time past, placed quietly outside his door. Evening found him tired, his mind deep in problems of his work. As he cleared a space, making ready to lay aside his work for the night, his hand came once again against the picture.

"Queer child," he thought, and then absent-mindedly opened a drawer and laid the picture inside. It bothered him there on his desk, was in the way. He did not know—nor would he have cared—that the picture lay directly over the old one of Anne Lovelace.

Yvonne was in the kitchen, when ready perfect dinner. Although she

he went down. He settled himself with the evening paper. After the meal Yvonne played for him a little and then, saying she was tired, went to her room. Richard had completely forgotten the picture, but Yvonne wept once again, at the thought of his indifference.

For two weeks Richard submerged himself in work. Then quite suddenly it all went stale. He found himself spending hours fiddling away at specimens, accomplishing nothing. He took to reading in his workroom when he should have been studying. He felt restless and ill at ease in the house. Finally he was afflicted by one of his old nervous headaches which drove him to his doctor.

Dr. Loring went over Richard carefully. "Sound as an apple physically," the doctor pronounced. "Trouble must be somewhere else. Let me think about you for a while. Off-hand I'd say you needed amusement, relaxation, more than anything else."

"Then come over to the house for dinner tonight and we'll relax afterward over a game of chess," Richard invited.

"Fine, if you can square it with your wife," said the doctor accepting. Richard called Yvonne and told her he was bringing a guest for dinner. "Mrs. Ross doesn't speak English?" Dr. Loring asked as Richard finished the conversation.

"No, Yvonne has never learned the language," Richard said, a trifle apologetically.

Richard's message had come late in the afternoon. Yvonne scurried around, adding tidbits to her already perfect dinner. Although she

expected no entertainment for herself during the evening, she was glad of the excitement. The days since Richard's return had been dreadful. She had sternly repressed any longings for the stage. She had written her friend Mrs. Ogden, asking her to forget "Mademoiselle," completely. Mrs. Ogden had read the girls desire to be left alone for a time and had discreetly refrained from even calling. Yvonne had been very lonely. She had turned to her music again and could already feel a difference in her playing, so long neglected.

"TELL HER SHE'S BEAUTIFUL"

Dr. Loring came early. Richard shook cocktails for them all, and the doctor, his eyes fastened on Yvonne's beautiful face, complimented her on the tang of the canapes she brought in to accompany the cocktails.

"He says you are a wonderful cook, Yvonne," Richard translated for her.

Yvonne flushed. How she had come to hate that word "cook"! Once she had thrilled to the thought of her ability to please Richard's plate. Today the word seemed almost an insult. She went hurriedly to the kitchen. Richard thought her flush was one of pleasure.

"Never miss a chance of showing her I appreciate her cooking," he said to Dr. Loring in a self-satisfied manner.

"Try telling her she is beautiful for a change," the doctor advised dryly.

"She is a pretty child," Richard agreed diffidently.

At the close of the dinner Dr. Loring

ARCHGRIP

NATURE quickly warns when the weight of the body unduly "hammers" the arch of the foot at unprotected points... tendons ache, ankles swell, insteps pain. Unless the load is corrected to the balance Nature intended, foot trouble is inevitable.

ARCHGRIP Shoes for women, are scientifically built to support the arch and equalize the strain it takes at each step.

ARCHGRIP Shoes combine this feature with smartness and beauty.
