WONDER WHY. — Notices were posted yesterday in the car department of the local Railway to the effect that the Repair Shop is to be closed from noon today, Wednesday until Monday, Dec. 29th, and again from Dec. 31st till Jan. 5th. The order applies to Halifax, Charlottetown and River du Loup. The large shops go on as usual. The reason given is "on account of Christmas and New Years holidays, repairs to machinery, etc." The Guardian understands that about a dozen men in the shops here will be taking these enforced holidays and repairing machinery at home. The men are wondering why this discrimination against the smaller shops while the larger ones are running on full time. Some of them have said that Halifax is being punished for what happened there at the last bye-election and that Charlottetown is being punished in advance for what is going to happen at the general election.

### Nutrition of Foxes

The Secret of Success in fox farming is acknowledged to be largely one of care and correct feeding. Dr. G. Ennis Smith who conducts an experimental station at Hull, Quebec, has rendered valuable service by calling attention to the necessity of a well-balanced diet at all seasons. His diet sheets for winter feeding consist of from 25 to 50% cooked cereals, which is obtained by feeding a good fox Biscuit. He also highly recommends Cod-Liver-Oil as containing more of the fat-soluble growth-promoting vitamins than any other known food. Experienced feeders know the value of energy foods (product of grain) during the mating and gestation period, when the foxes require to be well nourished. Imperial Cod-Liver-Oil Fox Biscuits are the result of scientific knowledge and practical experience of our successful fox feeders. No ranch can afford to be without them. We would advise sending in season orders as early as possible. Imperial Biscuit Co. Ltd. Charlottetown, P. E. I.
