

EVERY WOMAN

Who is Weak, Run Down, Nervous, or Anaemic, should take

MILBURN'S
HEART AND NERVE PILLS

We want every woman and young girl who is weak, nervous, pale-faced and bloodless, troubled with heart palpitation, dizziness, faint spells, or run down condition of the system, to know that in Milburn's Heart and Nerve Pills there is a remedy which strengthens and regulates the heart, electrically renews the nerve centres, enriches the blood, infuses new life and energy into the system and builds up the health.

Read this statement of a woman who has tried them: "I was troubled with palpitation of the heart and weakness for some time, and at last became so bad that I could hardly drag myself about. I heard of Milburn's Heart and Nerve Pills curing so many that I thought I would try them, and before I had finished using the six boxes which I had purchased I was completely cured and able to work. I feel confident I owe my life to the use of these pills."

Clocks! Clocks!
NEW STOCK.

Clocks in Marble, Iron, Wood, all prices.
Jewelry in all lines and quality.
Watches, all grades, gold, silver and nickel.

G. N. TAYLOR,

CANADIAN RED CROSS GEN. BOOTH COMING OVER.

Final Statement in Course of Preparation—Society He Will Take Supreme Command of the Salvation Army For Six Months.

At the last meeting of the Council in Canada of the Red Cross Society, held in the office of the President, Dr. Ryerson, Commissioner to South Africa, presented his final statement, showing his receipts and expenditures; also a tabulated list of comforts and supplies furnished to over 30 hospitals, both field and general. The long list included articles of wearing apparel, bed linen, condensed milk and other foods, wines, brandy and whiskey, hospital supplies, surgical dressings, belts, medical stores, tobacco, pipes and cigarettes, blankets, sheets, pyjamas, dressing gowns, cocoa, corn flower, soap, scent and stationery.

The doctor also explained the difficulties that must necessarily attend the collecting and distribution of such an enormous quantity of stores as were furnished by the Red Cross Society, the expenditure alone of the British society being close on £5,000 per week. Many explanations forthcoming as to the distribution of the supplies which had been shipped from all parts of Canada, and which the Commissioner had bestowed exclusively on our Canadian sick and wounded.

The council have great pleasure in publishing the following resolution of the British society, which shows how greatly the efforts of the Canadian branch are appreciated, also the high estimate set on the important part taken by Lieut. Col. Ryerson in the Red Cross work.

Extract from the minutes of the 38th meeting of the Central British Red Cross Committee, held on Tuesday, July 24th.—"On the proposal of her Highness the Princess Christian, seconded by the Viscount Knutsford, a vote of thanks was unanimously passed to the Canadian branch of the Red Cross Society for the subscriptions which they have so generously made from time to time to the funds of the Red Cross Society; and to the Lieutenant-Colonel Ryerson, the Chairman of the Executive Committee, for the valuable services which he has personally rendered to the Central British Red Cross Committee in acting as their Commissioner at Bloemfontein and elsewhere with the headquarters of Lord Roberts' army. (Signed) Wantage, Chairman of Red Cross Committee.

The Hon. Treasurer Dr. J. George Hodgins presented the audited balance sheet which showed that the total receipts of the society have been over \$37,000. It was decided to ask the local branches to remit a final statement of receipts and disburse-

ment also a list of comforts and supplies forwarded to South Africa at the same time any balances in the hands of the local Treasurer will be remitted to the Honorary Treasurer.

Reports were received from Lieut. Col. Biggar the society's representative in South Africa showing that with the chain of representatives appointed by Dr. Ryerson the work of the society is still actively going on and it is the intention of the council to continue until the final return of the Canadian contingents.

Wornout Nerves.

So Weak she Couldn't Sleep or Work—Hands Trembled—Could Scarcely Walk—Restored by Dr. Chase's Nerve Food.

Mrs. Margaret Iron, Tower Hill, N. B., writes:—"Dr. Chase's Nerve Food has done me a world of good. I was so weak that I could not walk twice the length of the house. My hands trembled so that I could not carry a pint of water. I was too nervous to sleep, and unable to do work of any kind.

"Since using Dr. Chase's Nerve Food I have been completely restored. I can walk a mile without any inconvenience. I'm 76 years old, and quite fleshy. I do my own housework, and considerable sewing, knitting, and reading besides. Dr. Chase's Nerve Food has proved of inestimable value to me."

Dr. Chase's Nerve Food is the world's greatest restorative for pale, weak, nervous men, women, and children. In pill form, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Don't cough, use Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle.

Madame Ramsdell

is still at Mrs. McGregor's, Prince Street, where she will remain on or about Nov. 15th.

Anyone wishing anything in the hair dressing line, should avail themselves of this opportunity.

Will be in rooms from 12.30 until 2 o'clock and will attend to Ladies' and Children's Shampooing every evening after 6.

Her famous DANORUFF CURE is meeting with great success. Used as a tonic and restorative.

The New York Herald of November 1st says: General William Booth, commander-

GENERAL BOOTH.

in-chief of the Salvation Army, is coming here next September to take practically the control of the Salvation Army in the United States for at least six months.

This announcement was made last night by Commander Booth-Tucker, who arrived here from England on the steamer Teutonic. He went there early in October to invite the General to come over and assist in the solution of problems which the Salvation Army is endeavoring to solve.

One of the chief problems, he said, was that of organizing and maintaining the

farm colonies which the army is establishing in some of the states.

Here's people free from pain and ache Dyspepsia's direful ills. It is because they always take

Laxa-Liver Pills.

These little pills work while you sleep, without a gripe or pain, curing biliousness, constipation, dyspepsia and sick headache, and making you feel better in the morning.

DR. WOOD'S NORWAY PINE SYRUP. Heals and soothes the lungs and cures the worst kinds of coughs and colds.

THE SCOTTISH CANADIAN MINING COMPANY
of London, Canada.

Are You Satisfied With 3 per cent?

If not you must do as others have done—get out of the old rut and shew your faith in something outside a chartered Bank!

Nature has filled British Columbia so full of Mineral that it runs over in many places, and all that is necessary to get it out is—money!

There are properties now working where only sufficient money was needed to "grubstake" the men who they first started, and which are now turning out ore in fabulous quantities. These, though, are exceptions.

As a rule, the precious metals have to be sought for earnestly, and much time and labor expended in the getting of them.

Very few men are rich enough to run a mine alone—co-operation is necessary. Union is strength! A number of men get together and form a company to acquire and operate a certain property. Those who get in earliest get the lowest price stock and the most risk. As the price advances the risk lessens (or should!) until at length the mine pays dividends. For instance Le Roi (Rossland) were some few years ago offered here in the east at 5 and 10 cents per share, and they were hard to sell at that. Now they are quoted at £8.10.0 (\$42.50) each in England, and the last dividend was \$1.25 per share. At the same time the person buying low took all the risk of the property paying, or of losing his or her money. In this instance \$50.00 worth of stock is now worth \$42, 500.00 and the last dividend amounts \$1,250 on 1,000 shares.

A little over a year ago a property was offered some men in London, Ontario, who carefully investigated its merits and, when satisfied, took it up, formed a company and started in to develop it.

The company is the "Scottish-Canadian Mining and Development Co., of British Columbia, Limited," and the property "The Rob Roy Mine."

The first slot was exploded Aug. 1st, 1899, and to-day the company have 380 feet of rock tunnel driven, have built cabins, trails, mine works, etc., have surveyed the property preparatory to Crown Granting, and have shipped ore, as the Upper Level is now producing. All this is less than one year from time of starting.

There is no reason at all why Scottish-Canadian Shares should not prove just as profitable as those before mentioned, as the "Rob Roy Mine" have magnificent surface showing, which have been proved, at a depth, by the tunnels. In addition the management is a careful and conservative one, getting a dollar's worth of work for every dollar spent, and watching outlay very closely.

The company is free of debt, and only has to sell enough stock to carry on the work till shipments can be made to the Smelter.

Purchasers of stock to-day get in low, with the added advantage that there is hardly any risk in the shares now, development having shown that "Rob Roy" contains ore in apparently inexhaustible quantities.

The directors are well-known men, mostly from London and vicinity, and altogether, these shares offer a most promising field for profitable investment.

The shares are fifteen cents each, \$15.00 for 100 shares (not less than 100 sold), \$150.00 for 1,000 shares. The par value is \$1.00 each, so that the investment of \$150.00 buys \$1,000.00 worth of stock, and there can be no more calls or assessments on the shares.

If you buy a hundred or a thousand shares of stock you can never be called upon to pay a copper more than the fifteen cents per share, in any way, shape or form.

Many a man has a few hundred dollars to invest in something likely to bring better returns than he can get in the bank, and these shares are offered as being just what he needs.

Full particulars with reports, assays, etc., cheerfully given on application to **A. E. WELCH, Manager.**
209 Dundas Street, London, Canada.
