

HE EMBEZZLED \$30,000.

Boston, May 12.—George E. Hodgdon, for twenty years the trusted bookkeeper of the Clinton Wire Cloth company, and the Bigelow Carpet company was today sentenced to a term of four to seven years for the embezzlement of \$30,000 from the two companies.

FROM KINGSTON POST OFFICE.

James McQuire, letter-carrier, who was almost totally disabled by corns on the soles of his feet, has been cured by Putnam's Painless Corn and Wart Extractor; it's the best.

EXPECTS FEW TOURISTS.

MONTREAL, May 11.—Manager Weldon, of the Windsor hotel, says that he is not looking for a successful tour at season this year. Presidential year always shows a falling off in tourist business and in addition there is the St. Louis fair, which will keep a great many people away who might otherwise come this way.

REVOLUTION IN NEWFOUNDLAND.

Since the introduction into Newfoundland of the new Inhaler Remedy, "Catarrhogene," the treatment of catarrhal diseases has been entirely revolutionized. The old-time snuff and internal medicine has been cast aside and everyone is inhaling Catarrhogene; it clears the head and throat in two minutes, and is very agreeable and pleasant to use. Catarrhogene is a wonderful cure for Coughs, Colds, Catarrh, Asthma, Bronchitis, Lung Troubles and Deafness. It relieves quickly and cures permanently. We advise our readers to try Catarrhogene. Price \$1.00, trial size 25c. Druggists, or Polson & Co., Kingston, Ont.

MONDAY, MAY 16, 1904.

DIRT AND RUBBISH.

Dirt has been defined as matter out of place. The soil, so necessary for the growth of plants becomes dirt when it sprinkles the floor of the home or of the office. By rubbish we mean the remains of things once perhaps useful but which by wear and wreck have become valueless. Things thus valueless are unsightly and all desire them removed from on or about their premises. The fire or the city dump are the obvious and sensible means for taking care of rubbish. But for some unexplained reason a great deal of Charlottetown's rubbish does not find its way either to the fire or the dumping place. A good deal of what is not left to litter our streets and back yards is hauled out into Royalty or beyond and dumped alongside the roadway.

Those who drive out along almost any of the streets leading from the city into the country are disgusted with the sight of manure piles and cartloads of rubbish, worn-out clothing or bedding, rusted stove pipe and a miscellaneous collection of the refuse of the city, thus offending the senses of those who pass and disfiguring the natural beauty of our suburban scenery. These things ought not so to be. A manure pile is properly placed in a farmer's field. The proper place for city rubbish is the city dump. Our road overseers should deal with these nuisances in a prompt and emphatic way. Possibly a hint from the worthy Commissioner or his deputy might give them the required stimulus. And while we are on the subject, let us remark that the legion of people—there must be a legion to accomplish so much untidiness—who throw waste paper upon the city streets and sidewalks, ought to be kept under police surveillance, and punished if they persist. Visitors who come hither from the

clean and well kept cities of the United States take note of these things and make very uncomplimentary but very just remarks upon them.

CHURCH UNION.

The sentiment in favor of the union of the Methodist, Presbyterian and Congregationalist churches in Canada seems to be growing apace. East and West from Sydney to Winnipeg and beyond, the subject is being discussed and at joint meetings of leading ministers and laymen, or at separate representative gatherings of the different religious denominations concerned the majority pronounce in favor of union. In many of these meetings the sentiment is entirely unanimous, while the desire for organic, corporate union appears everywhere to be strong. We are satisfied from what we read in our exchanges that the union is desirable and inevitable and that it will be accomplished in the comparatively near future. The united church thus soon to be brought together will present an imposing front, and will be a far greater power for good religiously, morally and educationally than any single Protestant body in Canada has hitherto been. We are not here arguing the question of the desirability of union but simply taking note of what is going on. Church union is in the air.

CANADA'S APPLE EXPORTS.

The Canadian export of apples of last year's growth is quoted by the Montreal Witness as 3,466,803 barrels, as compared with 2,461,933 the previous year and 794,424 in the next year before. This shows a rapid development in our export trade of this valuable fruit. Something over half, or 1,807,000 barrels, were shipped from Canadian ports, chiefly from Montreal and Halifax while over a million barrels of Canadian apples were shipped from New York and there were also large shipments from Boston and Portland.

It may be noted in passing that although the apple crop of the United States is much greater than that of Canada, it is mainly consumed in the country. The total export of apples from the United States for the year ending 30th June 1903 was 1,656,129 barrels, or considerably less than half the quantity shipped by Canada during the past year. Canada seems destined to yet become a great fruit-growing country.

Reports from ninety points along the C. P. R. in Manitoba and the Northwest down to May 11 show that about one eighth greater area has been seeded this year with wheat than last year. The proportion of other cereals show much the same increase. The season has been somewhat late, but the sowing of grain was practically finished on the date named. The farmers are in no way discouraged by the late seeding as in previous seasons equally late they reaped a bumper crop.

S. S. BONAVISTA DAMAGED BY DREDGE

Rained Her in the Hook and Broke Her Plates—Had a Cargo of Coal.

A peculiar collision occurred in the river channel at Port St. Francis at an early hour this morning when the Govern-

ment dredge Eureka, ran into the S.S. Bonavista, of the Dominion Coal Company. The accident occurred shortly after two o'clock, while the Bonavista, laden with coal for this port, was lying at anchor. The dredge was going down the river a short distance under her own steam, and in some unaccountable way was allowed to jam right into the bow of the Bonavista. The force of the jam was so great that it drove a big hole into the bow of the steamer right above the water line. The reports received at the Government offices is that the dredge is only slightly damaged. In order to allow the Bonavista to come up to Montreal with her cargo temporary repairs are being made, and it is expected that she will arrive in port this evening.—Montreal Herald 13th.

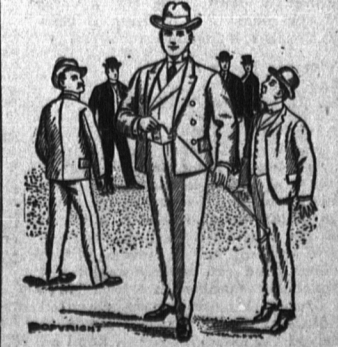

COMFORT FOR OLD PEOPLE.

Much of the suffering of the aged is due to the kidney derangements which lead to backache, rheumatism, lumbago and body pains. Dr. Chase's Kidney-Liver Pills bring comfort to the old folks by keeping the kidneys healthy and active, and so eliminating from the body the poisonous waste matter which causes pains, aches and fatal disease.
