Look for the name Gold Medal on every box and accept no imitation

New and Old Industries

Sir,—We have followed the report of the Board of Trade meeting re "new industries" also the letters of the St. Peters Starch Company and Mr. Carter with reference to the same. As this old County of Kings makes at least 90 per cent of all the potato starch and flour made in Canada, we naturally are interested. Divesting Mr. Carter's letter of its irrelevant verbiage, it practically says that Charlottetown has a right to get any foreign industry they can without any consideration for other existing local concerns. The one main object is to boost Charlottetown. Of course; it is qualified and sugar coated by saying that such would be a benefit to the Province as a whole. If our interpretation of that letter is correct all we have to say is "go to it." On the same line of reasoning, it might be a good thing for the Province to have another large seed and feed warehouse and the Board of Trade of this County would be just as much in order to extend an invitation to say the Steel Briggs Company and offer them their sympathy, etc., as an inducement. The same thing could apply to many other lines of business.

The plea that this is a different business is not well taken. The same raw material is used and the food value of the product is practically the same. The starch mills are in a better position to handle this business than any mill built exclusively for the purpose for the reason that the waste from the peeler and unsuitable potatoes can be utilized by extracting the starch. Nothwithstanding what Mr. Hartman is reported as saying that the starch mills cannot be used for this business, I may inform you that such is far from the truth. The starch mills have first of all, the necessary power which is quite an item nowadays. They have also the necessary WASHER which is also worth money. They have also the buildings which counts for something. As a matter of fact all they require in addition to their present plant is a PEELER a COOKER and a FLAKING AND DRYING MACHINE with a GRINDER. They are then in a position to make either natural flour of the genuine flour or starch and save everything.

Many "war created' industries will now have to be scrapped. Take the immense plant built at New West Minster, B. C., to make dried vegetables of all kinds for the Allies and which plant during the war produced millions of dollars worth of stuff. Does anyone imagine that this plant can now find a sufficient market for their product. Can you wonder that we weighed the matter carefully before launching in this "war created" industry. Up to 1914 there was NOT ONE PLANT IN AMERICA making this stuff. Just FOUR YEARS ago the first plant to make this was erected at Idaho Falls, Idaho. At that time the food situation was serious and the price of wheat flour was not only very high but the quantity is sight to feed the Allies was limited. Anyway, this mill was started and evidently the product was sold and some other mills were built. Just what will happen when wheat flour gets cheaper no one knows.

What is this wonderful new stuff anyway? Why, our grandmothers used this very same stuff years ago when the flour was not so nice as it is today. They claimed that it made the bread RAISE better. They boiled a pot of potatoes and mashed them and mixed this mash with the dough. That is all there is to this new stuff excepting that the mash is dried and ground into meal. The same thing can be done today by any housekeeper. We confess that we cannot see just what advantage there is in paying 9½ cents per pound for this especially if flour is much cheaper. Anyway, if the people want it, we can make it for them. Of course they are eating, besides starch some protein, carboyhydrates, fibre and ash, etc., but "people will swallow anything if advertised enough." We eat all this with out bacon and beef and it helps to FILL UP. The important part however in all vegetables and cereals is the PURE STARCH.

There are many "new industries" not represented in Charlottetown. What about the chocolate and confectionery making one of the best paying lines and one in which many fortunes have been made in Canada in the last few years. This would be a real new industry. What about our wool which is now sent abroad and brought back in the shape of blankets, etc. What about our hides that are now about all exported at a time when there is big money in both leather and boots. What about cutlery and glassware and scores of other industries that we could mention that would be the REAL STUFF.

Let it be understood that we have nothing whatever against this or any other company locating here. All we ask is a fair field and no favor. What we do object to is their being, as the St. Peters Starch Company say, favored by anyone whomsoever. We know that we can pay as much for potatoes as they can and we can make anything out of potatoes that they or anyone else can make. We know that we have been in the business longer than they have and know all that there is to know about it. We also know and have much pleasure in informing our Charlottetown friends that we are negotiating for the most improved machinery for making this stuff that can be found in the world. We may also state that this machinery is NOT MADE IN THE UNITED STATES either for the reason that we find that such has not given the best of satisfaction but although it may shock some to say so, it is MADE IN GERMANY and can be landed here at a very much lower price than the American made article. We may also state that this will be installed at the PRESENT STARCH MILLS where we can make either the genuine starch or the Natural whichever will allow us to pay the most for the raw material. This County has supplied the Canadian market with at least 90 per cent of its potato starch and flour requirements for at least 30 years and propose to continue to do so. We will also supply what NATURAL POTATO FLOUR they require and pay as much at least for the raw material as any foreign firm from any place wheresoever. We confess that we are not particularly interested in Charlottetown any more than they are in us. We neither ask nor expect any assistance from them and it would make very little difference to us if a Chinese wall 1000 feet high was erected around that hamlet of traders. A terrible fuss was made some time ago about standardizing the railway. Since that has been accomplished to CHARLOTTETOWN we hear nothing more about continuing it to Kings County although more than one-half of the whole railway lies east of Charlottetown. Straws show best how the wind blows.

We must apologize for taking up so much of your space but as this is a matter that affects this County particularly and owing to the action of the Board of Trade we thought it advisable to inform you of the true state of affairs regarding this so much talked of natural potato flour.

We are, Sir, etc.,
THE CANADIAN DENATURED ALCOHOL CO.

Kings County,
March 6th, 1920.

IN MEMORIAM

MR. B S BINNS

There passed peacefully away at North Battleford, Sask., on February 21, 1920, Benjamin Binns in the 39th year of his age. The late Mr. Binns who was a former resident of P. E. Island had been in failing health for the last three years, and his many friends here will regret to learn of his early demise in the very prime of his manhood. He leaves to mourn besides a sorrowing mother, four sisters and two brothers. The sisters are Mrs. Bruce Camaford, North Battleford, Sask who with her mother was with the deceased until his death, Mrs. G. A. Drake, Calgary, Alta; Mrs. R. H. Binns, Charlottetown, P.E.I.; and Mrs. E.N. Hill, New Glasgow, P. E. Island. The brothers are Rowan C. of Boston, Mass., and Russel D. of Charlottetown, P. E. I.

Interment took place to North Battleford cemetery.

ALONZO McEWEN

There passed away at St. Peter's Bay, on Feb. 25th, at the age of 75 years, after a short illness of influenza and heart trouble one of the most esteemed citizens of the community, Alonzo McEwen.

As a citizen, he was respected as an upright and honorable man who by his kind and gentle manner, won many friends. As a farmer, he occupied a foremost place, as his fine residence and good property testify. He was a faithful member of the Presbyterian church, St. Peter's, where he will be missed.

He is survived by one son Howard on the homestead, and one daughter, Mrs. D. Anderson, Sandon, B. C., and two sisters, Mrs. Bowley Webster, Marie and Mrs. King, Boston.

The funeral was largely attended and the remains were interred in Midgell cemetery, beside his wife, who predeceased him about four years ago. The services at the house and the grave was conducted by his pastor, Rev. J. M. McLeod. "The memory of the just is blessed."

MISS PEARLE CHING

The funeral of Miss Pearle Ching reference to whose death was made in The Charlottetown Guardian a few days ago, took place from the home of her father Mr. Benjamin Ching of Bothwell, on Monday afternoon. The services were conducted by Rev. W. R, MacWalker, Minister of the Baptist and Christian churches of East Point. The Scripture lesson, Isaiah 55 was one selected for the occasion by the deceased. The text chosen was verses 8-9 of the chapter read. The hymns When the Roll is called up Yonder, Nearer my God to Thee, and Shall we meet beyond the River, were sung by the united choir. Reference was made to the beautiful life of the deceased, her desire to live that she might minister to others, and her triumphant death—in her own words, not death but going to be forever with the Lord. Her removal from our midst was so sudden that we scarcely realize she is gone. Those who knew her best loved her most and we deeply realize that place is left vacant in the home, in the church and in the community that can never be filled. The words of Whittier in reference to his friend Channing may be fittingly applied to her:

With us was one, who calm and true
Life's highest purpose understood
And, like the blessed Master,
Knew the joy of doing good.

Mr. and Mrs. Ching and the family have the heartfelt sympathy of many friends in their sore bereavement.

(Patriot please copy.)

::Relief for Suffering Everywhere—He whose life is made miserable by the suffering that comes from indigestion and not tried Parmelee's Vegetable Pills do not know how easily this formidable foe can be dealt with. These pills will relieve where others fail. They are the result of long and patient study and are confidently put forward as a sure corrector of disorders of the digestive organs, from which so many suffer.

MAKING MERRY

AT MEALTIME, MEANS GOOD APPETITE, GOOD DIGESTION, GOOD CHEER AND STUART'S DYSPEPSIA TABLETS

DO YOU USE THEM? IF NOT, WHY?

To sit back after a good meal and know there is not going to be sour risings, gas, drowsiness and discomfort is the logical result of using Stuart's Dyspepsia Tablets immediately after eating. Most people believe they can trace each attack of indigestion to the something they ate and can still "taste." And it surprises them, invariably, to note how quickly relief comes after using one or two of these tablets. Whether it is highly seasoned food-rich pastry, the heavy hearty foods or some one particular offender the relief comes just the same. Those who are susceptible to attacks of indigestion or dyspepsia should try Stuart's Dyspepsia Tablets as they supply the stomach with an alkaline effect just at it does naturally when it is working in a perfectly healthy condition.

A glance around the table will likely indicate one or more who plainly look as if they anticipated the dyspeptic's mournful assemblage of distresses shortly after the meal is finished. Many a bon vivant, however, has learned how to leave the table in a happy frame of mind by the use of Stuart's Dyspepsia Tablets immediately after eating. And whether it was rich soup, pastry, cheese, or dishes usually rated as "heavy," these tablets contain ingredients that digest food, assist the stomach in the work of digestion and supply the alkaline effect that the stomach requires. Thus before you conjure up the troubles that ordinarily would follow eating some favorite dish, try this plan of avoidance.

Or if the trouble is already doing its worst get a 50 cent box of Stuart's Dyspepsia Tablets of any druggist and note how gently and smoothly your stomach settles down to good behavior.

"Who said FRY'S?"

He just loves its delicious chocolaty flavor.

Kiddies who get FRY'S regularly are vigorous, warm-blooded and healthy. They throw off colds quickly. They are more likely to escape epidemics. If you have some little pale faces at home, just try FRY'S. You'll be glad you did. But—remember

"Nothing will do but FRY'S"
