STEALINGS ARE UP TO \$250,000

Most Men Piled Up a Large Indebtedness—A Particularly Bad Case.

MONTREAL, Feb. 2.—Further investigation into the affairs of W. J. McGee, defaulting treasurer of the People's Mutual Building Society, reveals a most astounding state of affairs and it is now estimated that the stealings will reach a total of a quarter of a million dollars, a small part of which comes out of the society. The failure of Colin Campbell, florist, is due to McGee's work and many other similar cases are reported where he succeeded in getting many thousands from individuals. A movement is on foot to get the attorney general's department to take up the matter.

Fatigue From Poisons in System

AND GOOD HEALTH CAN ONLY BE TURNED WHEN THE BLOOD FILTERS THE LIVER AND KIDNEYS, ARE SET RIGHT BY

DR. CHASE'S KIDNEY-LIVER PILLS.

Tired, languid feelings are the result of the accumulation of waste products in the system. On the failure of the liver and kidneys to remove these impurities the blood becomes filled with poisonous substances which instead of aiding the functions tend to arrest them and give rise to pains in the limbs, backaches, headaches and tired worn-out feelings.

There remains to be discovered a more prompt and effective means of eliminating and invigorating the action of the liver and kidneys than Dr. Chase's Kidney-Liver Pills. In fact this medicine is unique in its combined influence on the liver and kidneys and to this double action is attributed its extraordinary success in the cure of complicated diseases of these filtering organs.

Biliousness, headaches, indigestion, kidney disease and constipation are promptly and thoroughly cured by Dr. Chase's Kidney-Liver Pills and the whole system is cleansed of the foul impurities which result in disease and suffering.

Mrs. H. T. Mear, Montague Bridge, P. E. Island, writes: "I have used Dr. Chase's Liver Cure and five or six boxes of his Kidney-Liver Pills, and can say that this is the only treatment that I ever got to do me any good. For eight or ten years I was a terrible sufferer from biliousness and liver trouble, and though I went to a doctor until I was tired and discouraged he could not do me any good. I can truthfully say that I believe Dr. Chase's Liver Cure has saved my life. I found it a little strong at first but was very glad to get a cure."

Dr. Chase's Kidney-Liver Pills succeed where ordinary kidney medicines fail, because of their direct and combined action on the liver and kidneys. This has been proven in thousands of cases of serious and complicated diseases of the kidneys.

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or E. Imanson, Bates & Co. Toronto.

Porcelain Used To Build Houses

Glazed China Blocks Used To Replace Brick and Stone—Will be Possible to Have Sevres Salons and Derby Halls

LONDON, February 2.—The dweller in glass houses may be more or less fabular idea, but the dweller in a china house will soon be a common personage. The home of the future will be built of porcelain. It is now possible to build cheap, simple and cleanly houses with sheets of porcelain instead of bricks and slate and concrete, and to dispense with paint, wall paper and spring cleaning.

The porcelain used for building this Utopian house is procured by a new method, in sheets about an inch thick, but equally as strong as a brick wall. It is made of a mixture of Cornish clay and French flint boulders in certain proportions.

The raw material is worked into a liquid state, then pressed and rolled into sheets. When dry the sheets can be decorated in colors, by hand or by a printing process. The final process is glazing and firing used in ordinary potter's trade.

Glazed on both sides, the porcelain walls reduce construction and interior decoration to simplicity itself. The outside and inside walls of the house have decorative schemes burned into them indelibly before the house is put together.

Cleanliness is one of the greatest merits of the porcelain house. Water and washleather only are needed to replace the annual household terror known as "spring cleaning."

The more artistic decorations can be introduced into the rooms, and in style the Elizabethan, Louis XIV.

Adams, etc. would be replaced by the Sevres, Crown Derby, Rockwood, Worcester, and all the beautiful kinds of china known to the collector.

The sheet porcelain, glazed and decorated on both sides, can be produced at about \$2.50 the square yard. This cheapness and cleanliness make the porcelain house the ideal home for working people; and it is hailed as a possible solution of the problem which besets English cities, the housing of the poor.
