VERY IMPORTANT—Read every word of write up re the Community Carnival in this issue, 1372

MR. PERCY N. GULLISON, Manager of the Elite Beauty Salon, leaves on a business trip Oct. 3. Make your appointment now. 1377

ELECTED VICE PRESIDENT—At the annual meeting of the Association of Superintendents of Insurance, held recently in Toronto, Mr. H. R. Stewart, Superintendent of Insurance under the Insurance Act of this Province, was elected vice president for the current year.

THE WORLD'S GREATEST Silver Fox Show at Exhibition Grounds, Charlottetown, Nov. 6, 7, 8, and 9. Make up your mind to enter. Get your foxes ready. Money prizes, ribbons and championship trophies to winners. 1371

POLICE COURT—At the Police Court this morning a man charged with vagrancy was given 20 days in jail. A man found guilty of a breach of the Customs Act was fined \$100.00 or 3 months. The defendant in case of unlawful possession of stolen goods not exceeding \$25.00 was remanded in custody until this morning. A case of ejectment was dismissed.

DON'T MISS IT! What? The write up of the Community Carnival and Merchants Exhibition in this issue. 1372

CHURCH SERVICES—The Pownal Charge of the United Church of Canada. Services for Sunday, Oct. 1st are as follows: Clifton, 11 a. m.; Mt. Herbert, Sunday School, 1 p. m.; preaching service at 2 p. m.; Pownal at 3.15 p. m.; Millview Rally Day Service at 7 p. m. Kindly note change of hours of service, due to Rally Day. Rev. G. A. D. Elliott, Minister.

NEW GLASGOW STUDY GROUP—A meeting of this group was held in the schoolroom at New Glasgow on Thursday afternoon, September 7th, with seven teachers and Supervisor Court present. The next meeting is to be held on Thursday, October 19th at 7.30 p. m. The subject for discussion will be announced later.

GETS CERTIFICATE—Mr. A. J. Shelton, of St. John, formerly of Moncton, has been awarded by the Department of Marine an amateur certificate for proficiency in radio. He was the only successful candidate in this province.—Moncton Transcript. (Mr. Shelton is a son of Mr. Joseph Shelton of Charlottetown).

DESIGNATION SERVICE—The designation of Miss Mary McKenzie, deaconess of Hartsville, to the congregation of Glace Bay, N. S., will take place in the Hartsville Presbyterian Church on the evening of Tuesday, Sept. 26th, at 7.30 o'clock. Rev. Allister Murray, Moderator of the Presbytery of Prince Edward Island, will preside. Rev. R. Hensley Stavert will conduct the designation service and give an address. Rev. Chas. J. St. Clair, Jeans and Rev. G. Carlyle Webster will also give addresses. Representatives of the W. M. Society will be present and take part in the service. All are cordially invited.

BRIDAL SHOWER—A miscellaneous shower was tendered Miss Beatrice Lillian Gallant in honor of her marriage at the home of Mrs. J. C. Weatherbie, Spring Park Road, Charlottetown on August 29. After seating the bride-to-be under a beautiful arch decorated in crimson and yellow, little Ambrose Weatherbie, son of Mr. and Mrs. J. C. Weatherbie and Lorraine Weatherbie, little daughter of Mr. and Mrs. William Weatherbie, acting as bride and groom, a large well decorated carriage was wheeled in. Mrs. Eugene Kelly introduced the packages and Mrs. Vincent McKinnon read the accompanying verses, which caused much laughter. The beautiful and useful gifts testified to the popularity of Miss Gallant in the community, and although taken by surprise she thanked the assembled friends for their lovely gifts and kind wishes. A delicious lunch was then served by the ladies. The remainder of the evening was spent in music and dancing. After bounding the bride-to-be they departed to their respective homes having enjoyed a very pleasant evening.

DEATHS—BURLINGTON—At Lower Montague on Monday, Sept. 25, 1933, David A. Burton, aged 80. Funeral from Lower Montague United Church Wednesday at 2.30. (Patriot Please Copy)

RAMSAY—Suddenly, September 24, Nelson Ramsay, aged 65 years. Funeral Wednesday, Sept. 27th, 2 p. m. from his late residence Conway, Freeland Presbyterian Church, where service will be held. Interment in Freeland Presbyterian Cemetery.

Ask for ASCO The Better Tablet for Headaches Neuralgia and Pain

If you have never tried ASCO, then you can not realize the beneficial effects in sudden attack of Rheumatism, Neuralgia or Headache. ASCO is the latest discovery for the relief of headaches and pain; it is better because it's more effective and is perfectly harmless. ASCO gives almost instant relief and does it without the use of harmful drugs and without any bad after effects. Each tablet stamped A-S-C-O

AUCTION SALE

Auction sale of furnishings at 72 King Street (formerly the Aberdeen Hotel) on Tuesday afternoon at 1.30. Sale positive as property is sold. J. A. MacDONALD, Auctioneer.

Trinity United Church

TUESDAY 10.30—Presbytery—Discussion and Conference on the work of the Church—Meetings afternoon and evening also—Open to the public—Hertz Memorial Hall, 1342.

SUCCEEDS TO

(Continued from Page 1)

Canadian corps in 1914, and proceeded with this unit to France in Sept. 1915. He was promoted Brigadier General and appointed to command the 6th Canadian Infantry Brigade in April, 1918. Wounded near Cambrai on October 1, 1918, he was evacuated to England, where on his recovery, he was given various commands. Brigadier O. F. Constantine graduated from the Royal Military College of Canada on the 22 June, 1905 and was then gazetted to a commission as Lieutenant in the Royal Canadian Artillery. He qualified at the Artillery Staff course in 1907, the gunnery staff course, Shoeburyness, England, in 1911 and graduated from the Staff College, Camberley, England in 1922. During the Great War Brigadier Constantine held various senior artillery staff appointments, and finally commanded an artillery Brigade in the field.

Commandant at R. M. C.

After his return to Canada he was employed as Professor of Artillery at the Royal Military College, and later commanded the Royal Canadian Horse Artillery Brigade from June, 1922, to August 1925, when he took over the appointment of Commandant, Royal Military College, in which he remained until the 31st January, 1930. He was promoted to the rank of Brigadier on the 1st July, 1928. He was then selected for the post of District Officer Commanding, Military District No. 7, at Saint John, N. B., and on the 1st May, 1931 was transferred to Halifax as District Officer Commanding Military District No. 6.

For services rendered during the Great War he was awarded the Distinguished Service Order, the Legion D'Honneur of France, and mentioned in despatches 4 times.

Colonel H. F. H. Hertzberg, Corps of Royal Canadian Engineers now General Staff Officer, Military District No. 2, Toronto, Ont., is promoted to the rank of Brigadier and will replace Brigadier Constantine as District Officer Commanding, Military District No. 6, at Halifax.

He received his first commission as a Lieutenant in the non permanent active militia in January, 1905, and was gazetted a Lieutenant in the permanent force (Royal Canadian Engineers) effective on the 26th June, 1915.

He served throughout the Great War, received rapid advancement and commanded the Royal Engineers, 1st Canadian Division from the 1st January to the 5th June, 1918, and later the 3rd Canadian Engineers Brigade from the 22nd July, 1918, to the 19th March, 1919. His promotion to the rank of Colonel was dated 22nd July 1918.

Canada In Empire Games

BURLINGTON, Ont., Sept. 25.—Organization of the British Empire Games Association of Canada has been completed, it was announced Saturday by M. M. Robinson, Honorary Secretary. The Association is headed by Mr. E. W. Beatty, K.C., who is taking an active part in Canada's preparations for representation in the Empire games to be held in London, England, next August.

Meanwhile, the Commission head asserted, the Commission's engineering staff was working in conjunction with E. H. James, Montreal consulting engineer, in testing the remaining portions of the concrete structure and preparing the engineering details for reconstruction.

The engineers have not determined as yet the actual damage caused by the fire. Cargo stored in the shed was valued at about \$300,000, but there has been no accurate estimate of the damage to the building itself.

The salvation of the creaky structure of civilization lies in the amplification of science and a corresponding spread of human understanding to comprehend its truths.—Lord Bledisloe, Governor-General of New Zealand

HALIFAX, Sept. 25.—Immediate rebuilding of Pier Two, damaged last week by fire, has been decided upon by the Halifax Harbor Commissioners. Transit facilities on the main floor of the new structure are expected to be ready for operation in early November; top floor storage space, a month later.

To this end, according to announcement made tonight by Col. E. C. Phinney, Chairman of the Commission, contract for clearing away the debris left in the wake of the disastrous fire has been awarded to the MacDonald Construction Company. "This will be a rush job in order to prepare for immediate reconstruction," Col. Phinney declared.

RETURN FROM SCIENTIFIC ADVENTURE

Captain Bob Bartlett and Crew Return From Arctic With Important Scientific Data.

(Canadian Press)

BRIGUS, Nfld., Sept. 25.—Captain Bob Bartlett, who has spent a life-time braving Arctic dangers, is back from the north again. The famous northern skipper reached Brigus today in the sturdy little schooner Eorlie Morrissey, bound for New York with the fruits of another voyage of scientific exploration. After a hazardous 11,000 mile voyage through Polar waters, the Morrissey was carrying back valuable scientific data, specimens of Arctic flora and fauna and archaeological items for museum exhibits. Captain Bob and his men spent more than two months gathering material, penetrating territory about which virtually nothing has been known.

Heads Scientific End

The scientific end of the expedition was under Junius Bird of Rye, New York, who was commissioned by the museum of the American Indian, the Heye Foundation, and the American Museum of Natural History. It was not the first trip north for Bird, who found some rare archeological specimens on a previous voyage with the noted navigator.

This trip, however, was fraught with more perils than its predecessor. Ice conditions in the north were especially bad, and Captain Bob and his hardy crew had their hands full bringing the little vessel through the dangerous fields. But the Morrissey was equal to the task. She had logged 50,000 miles through the Arctic, and this time she had been completely overhauled before sailing.

The crew

Her crew included Billy Pritchard, the cook who accompanied Peary to the North Pole; Tommy Pritchard, his son, who went north as mess boy; Will Bartlett, the explorer's brother, first mate; Len Gushue, engineer; George Richards, Jam Dooning, Joe Crowley, Hal Batten, Bob Dove, Jack Angel, Pyrmont Smith, photographer, and Robert B. Moe, wireless operator, made up the complement.

The Morrissey's latest voyage was financed by Arthur D. Norcross, wealthy New York publisher, who backed Bartlett on two other expeditions. The exploratory and scientific work was by way of completing work started by the Norcross-Bartlett Expedition three years ago.

WILL REBUILD PIER TWO IMMEDIATELY

(Canadian Press)

HALIFAX, Sept. 25.—Immediate rebuilding of Pier Two, damaged last week by fire, has been decided upon by the Halifax Harbor Commissioners. Transit facilities on the main floor of the new structure are expected to be ready for operation in early November; top floor storage space, a month later.

GIRL GUIDE NEWS

At last Friday's meeting of the Second Charlottetown Company there was a splendid attendance of Guides and many visitors in spite of the wet evening. The girls had the advantage of seeing Miss Vera Williams demonstrate dances and of learning a few steps.

Next Friday there will be a closed meeting (no visitors) on account of the election of Patrol Leaders for this year. Many more names have lately been added to the waiting list and it is regretted that there will not be much room for new recruits this time. The names of those to be admitted on October 6th will be published next week.

On Saturday evening a delightful corn boil was held at Inkerman, Mrs. J. A. Lawson kindly lending her spacious summer residence for the occasion. While the huge boiler of corn was bubbling the Guides played "spooky" games in the different rooms. After they had done justice to the corn and hot chocolate they gathered in the living room where a piano and a bright fire were at their disposal and the evening passed only too quickly with merry songs and games. It was regretted that Miss Scarth was unable to be present. Miss Reay was ably assisted by Miss Hilda Richardson, one of the Patrol Leaders.

Upon arrival at Esbjerg, the group of students left immediately for Elsinore, the headquarters of the International People's College, under the direction of which the summer's work was carried out.

The speaker dwelt upon the importance of Elsinore, which is situated on the island of Zealand. In days gone by, it was the seat of Kronborg Castle, from which the south between Denmark and Sweden was controlled by the Danes, as they exacted toll from every ship entering the Baltic. Students of Shakespeare too will remember Kronborg as the castle of Hamlet, through the dim corridors of which the ghost of Hamlet is still supposed to take his midnight rounds.

The thirty-two day tour of the folk high schools, ordinary state schools, co-operative institutions of Denmark, Sweden and Norway, was then discussed in some detail.

The speaker dwelt upon the life of the party as it was lived during the summer among the students of these schools, and among the rural people of Scandinavia generally. He described in an interesting manner the characteristics of the Scandinavian people, contrasting their present outlook upon life with what it had been in the near past. To use his own words "In the early years of the nineteenth century, the Danish peasant was still unprogressive, sullen and suspicious, averse to experiment, and incapable of associative enterprise. Today he is forward-looking, cheerful, scientifically minded, resourceful, co-operative."

The success of the co-operative movement in Denmark is largely responsible for the atmosphere of prosperity and cheerfulness that abounds, and to a very large extent the folk high schools have been responsible for the development in the people of a spirit and an attitude which have made the co-operative movement possible. While not attempting to deal fully with the folk high school, the speaker pointed out that the function of these schools was not so much the development of a technical knowledge among the people, as it is the awakening of them to an appreciation of culture through the study of literature, history, art, music and folk dancing. Music and gymnastics are stressed very much in all type of Scandinavian schools, and the authorities look upon these activities as contributing very greatly to the cheerful co-operative spirit existing among the people generally.

After outlining some of the very many co-operative enterprises with which over ninety per cent of the Danish farmers are associated the speaker closed with the following statement:

"It was Gladstone who called the co-operative movement the greatest social wonder of the present time. The fact that in Denmark it was accomplished by ordinary men of the people makes the wonder yet more pronounced. A man of university education introduced the idea into Denmark, but apart from that, university men have played no part in the movement. Farmers and small holders, elementary school teachers and artisans, all have been the leaders in both the local societies and the large national associations, and it is to them that the credit for this enormous social wonder is due. While the Danish system as it there exists could not be transplanted

LEIPZIG, Germany, Sept. 25.—(A.P.)—Ernst Torgler, who led the now-outlawed Communist party in the Reichstag, indignantly denied on the witness stand today that either he or his party set fire to the Reichstag building last February.

Speaking with great emphasis and passion, Torgler told the court that "the fight for socialism has become the meaning of my life." He rejected with disgust the accusation that he sought to advance that fight by "this monstrous and unseemable deed."

"For seven months I have been in confinement and I mean to tell the world that I am innocent," he said. "For seven months I have been under the fire of a preliminary cross-examination, and five of these months I was handcuffed."

Causes Sensation

His indignant reference to his treatment caused a sensation in view of repeated denials by German official quarters that Torgler had been kept in chains.

The court was just about to finish the "personal particulars" and start investigating "factual matter" directly bearing on the incendiary charge, when Torgler was called upon to give an account of himself.

Pale, and with his lips tightly pressed, he declared he was able to bear up only because he knew that he and his party were innocent. The courtroom was surprised that no move was made to halt him.

Exhausted by what seemed a supreme effort, he sat trembling, his red-rimmed eyes staring straight ahead long after he had finished.

Torgler is the only German among the five defendants who are being tried for the Reichstag fire.

Late Rally In Chicago Grain Exchange

(Associated Press)

CHICAGO, Sept. 25.—Grain values rallied at the last today, although disappointment of traders who had looked for fresh stimulating business factors had served to pull values downward most of the time earlier.

Aggregate dealings in grain, however, were not large, and the markets were easily influenced. Price changes at times proved rapid, reflecting in the main individual speculative operations rather than anything in the news.

Wheat closed firm, at the same as Saturday's finish to 1/4 higher, corn 3/4 off to 1/4 up, oats unchanged to 3/4 lower, and provisions varying from 15 cents decline to a rise of 5 cents.

TOUR OF SCANDANAVIA DESCRIBED

Prof. L. W. Shaw Gave Interesting Address Before the Rotary Club Yesterday.

An interesting description of his trip to Denmark, Norway, and Sweden, was given by Professor L. W. Shaw, at the Rotary luncheon yesterday. Professor Shaw spent several months this summer in Scandinavia on a tour made possible by a Travelling Scholarship, granted by the Carnegie Corporation in co-operation with the American Association of Adult Education.

After outlining the purpose of the scholarship, which was for the study of Scandinavian adult education, Professor Shaw went on to describe somewhat in detail the trip from the time of embarking on the S. S. Empress of Australia at Quebec. The trip across the Atlantic took eight days, and, although the weather was bad, was filled with interest for the party of six Canadians who were to spend the summer together as students. After one day in London, the party left by way of Harwich for the trip across the North Sea and landed in Esbjerg, the only port of any consequence on the western coast of Denmark. It is interesting to note that it was the bacon and butter trade with England that was largely responsible for the growth of this thriving town.

Upon arrival at Esbjerg, the group of students left immediately for Elsinore, the headquarters of the International People's College, under the direction of which the summer's work was carried out.

The speaker dwelt upon the importance of Elsinore, which is situated on the island of Zealand. In days gone by, it was the seat of Kronborg Castle, from which the south between Denmark and Sweden was controlled by the Danes, as they exacted toll from every ship entering the Baltic. Students of Shakespeare too will remember Kronborg as the castle of Hamlet, through the dim corridors of which the ghost of Hamlet is still supposed to take his midnight rounds.

The thirty-two day tour of the folk high schools, ordinary state schools, co-operative institutions of Denmark, Sweden and Norway, was then discussed in some detail.

The speaker dwelt upon the life of the party as it was lived during the summer among the students of these schools, and among the rural people of Scandinavia generally. He described in an interesting manner the characteristics of the Scandinavian people, contrasting their present outlook upon life with what it had been in the near past. 1933 ANNUAL REUNION 2nd. Canadian Siege Battery

The best programme yet, and listen! Practically free! No foolin'! Battery position. The Armouries. Zero Hour, 8.00 P. M. on Friday, October 13.

OPERATION ORDER NO. 9 (?)

8.00 P. M.—Business Meeting. 8.30 P. M.—Slides by Col. J. P. Hooper, M. C. and reminiscing by troops. 9.30 P. M.—Fall in for oysters and cordite. 10.00 P. M.—Ditto, plus a story. 10.30 P. M.—Ditto, plus a song. 11.00 P. M.—More of everything. 12.00 P. M.—Last post.

50c see the whole show except canteen charges. Cordite will be used this year as T. N. T. was found to be too violent at previous reunions.

Oysters will be served on the half-shell. Cordite according to Shakespeare—As You Like It. This is YOUR invitation. ARCHIE POTTER, Springhill, N.S. Vice-Pres.

C.N.R. Announces Change In Car Ferry Service

(Special to the Guardian)

MONCTON, N. B., Sept. 25.—With the Fall changes in train services on the Canadian National Railways which have been announced as effective Sunday, October 1st, next, the service across the Strait of Northumberland from Cape Tormentine, N. B., to Borden, P. E. I., by car ferry will also be changed in keeping therewith.

The car ferry will make two crossings daily except Sunday in each direction, leaving Cape Tormentine pier at 10.30 a. m. and 2.55 p. m., and Borden, pier at 9.15 a. m. and 1.00 p. m. The S. S. "Charlottetown," which is the last word in modern car ferries, performs this service and she is the most powerful vessel of her type in the world, being especially constructed to cope with ice conditions which occur during the winter season.

The "Charlottetown" has a special automobile deck which has accommodation for from forty to fifty motor cars.

5,000 PERSONS

(Continued from Page 1)

for Department in "unofficial" or "semi-official" capacity on the basis of information then at hand. Capital newspapers appeared with reports that 5,000 had been killed.

ABOARD S. S. SAPINERO, Sept. 25.—The hurricane which struck Tampico Sunday afternoon resulted in an estimated 200 deaths in the city and vicinity, with hundreds made homeless and heavy property damage.

Under Martial Law

The wind, which reached a velocity of 108 miles per hour, swept down all communication lines and levelled poorly constructed buildings. The city was placed under martial law.

Several barges tied up at the dock were washed completely over the piers. Drums of oil and gasoline floated in the Panuco River.

At least half of the roofs of the houses either were completely blown off or were badly damaged. Roads were almost completely blocked. The river, reaching flood stage, was closed to navigation.

With soldiers and police patrolling the streets heavily armed able residents set to work clearing the debris from streets and roads. No one was allowed on the streets after 7 p. m.
