CASE OF BLOOD POISONING

And Two Other Cures in Charlottetown

The good work of the Farador in our island is continually spreading. Here is another remarkable cure:—

Dear Sir,—Three years ago I was operated on for blood poisoning, which I had in one of my knees. The operation seemed successful, but a year later the disease broke out again in my arm, shoulder and face. It would get better for a while and return from time to time. About two months ago it occurred again. My hands were so swelled that I could not use them. My face was so swollen that one of my eyes could not be seen and my shoulders and neck looked like raw beef.

Soon after the disease broke out I began to use the Farador and it was checked almost immediately. The pain and itching were at once subdued and in two weeks I was more than half cured. In less than a month later I was entirely healed. On previous occasions when the disease broke out I would be laid up for about two months, suffering greatly and unable to do anything for myself, but this last time I was not laid up at all, thanks to the Farador, which I consider the best friend a sick person can have.

Two of my grand children have also been cured by means of the Farador. One was subject to fits and the Farador made a complete cure of him within a month. The other child was pining away and had been given up by the doctor, but the Farador brought him round in great shape. In less than three weeks he was cured and a more healthy child cannot be found in Charlottetown to-day.

MRS. AUGUSTUS MCLEOD, 32 Brighton Ave., Ch'town, Aug 7 1915. The above statement is addressed to W. E. Egan, Farador Agent, 12 Alley Street, Charlottetown. 2593-8-19M11

—WOMEN'S INSTITUTES.—The regular meeting of the Women's Institute at New Annan was held in the schoolhouse on August 13th, with a good attendance. Four new members joined. A new secretary was appointed in the place of Miss Ethel Duffy, in the person of Miss Ella Cullen. Since this institute was organized the schoolhouse has been renovated throughout which is being appreciated by the children and parents of the district.

BANKER'S CLOTHES

Mill to Man

It used to be that Bankers Captains of Industry and man with "big rolls" generally, were the only ones that could afford to gratify their desire for good clothes—today—it doesn't matter if you are so short of the "ready" that you have to skimp and squeeze to get together the price of a decent suit—you get exactly the same all-round value as the man who comes in and peels our price off a fat wad without noticing any difference.

We stand ready to serve all—the family man with a brood of youngsters to raise, or the young chap just starting out in life, each man gets the square deal every time he leaves us fifteen dollars in exchange for a specially tailored suit that "stands up."

We look after your "extra" wishes without holding you up with "extra" charges. The little specials are given in free—you can't pay us more than \$15 "the famous price for the famous suit" that brought good tailoring within the reach of every man.

Suit or Overcoat Made-to-Measure
At 158 Richmond St. Ch'town, P. E. I.

Out-of-Town-Men

At no cost to you we send you, anywhere, widely varied samples, style book, self-measuring chart and tape. If you're "back o' beyond" all you have to do to dress like the best in Town is to mail us a postal and we'll do the rest. Fifteen dollars—that's all. Address:—Mail Order Dept., 415 St. Catherine St. East, Montreal.

Getting Close to the Customer

Many little extras can be added to a suit to please a customer if the tailor feels so disposed, without making such a great difference to the cost of production, and I have yet to run across the man who doesn't appreciate anything we do for him along the lines of personal attention. There's a lot of "human" in all of us, and though it's only good business to strive to please, I like to see a salesman get close to his customers and make them feel that we appreciate their confidence in us in coming back time after time, as much as we do the patronage they give us.
