While descending the stairs about 11 o'clock at night he slipped, and fell breaking the lamp which he was carrying. The oil ignited and before Mr. Rice could escape he got his hands badly burned. A Quick Cure For Catarrh

Make Wonderful Cure for, Catarrh, Colds, Bronchitis Throat Weakness

To cure an ailment in the throat or chest, to rout out Catarrh or Asthma, it is essential that the medicine be conveyed direct to the affected parts. This is why no other remedy has achieved such world-wide success as Catarrhose, which alone can be breathed in one second to every air cell in the breathing organs. The healing vapors of Catarrhose mix with the breath and descend through the throat, down the bronchial tubes, to the deepest air cells in the lungs, parts are saturated with the rich pithy essences that ease, heal and cure. Catarrhose has entirely displaced the old-fashioned remedies, such as cough syrups, sprays, tablets, and sedative powders. It contains none of the opium, chloral and drowsy narcotics, so commonly found in liquid cough and catarrh remedies. The extraordinary curative power of Catarrhose is well explained in a letter from A. B. Cowan, the well known restaurateur of Carleton, who writes: "Some time ago I suffered severely from a frightful cold in the head and chest. It was nothing but one continual cough, hawk, headache from morning till night. My nose and throat were so completely stuffed up that I could scarcely breathe. Catarrhose eased the cough instantly, that would not yield even to the doctor's medicines. Hour by hour Catarrhose relieved me, and by pursuing its treatment I have been permanently cured of all trace of Asthma, Catarrh and Bronchial Irritation." Once you try Catarrhose you'll realize how indispensable it is—the large dollar size contains an indestructible hard rubber inhaler and sufficient medicine to last two months. Smaller trial sizes 25c. and 50c. Beware of the substitutor and imitators of Catarrhose—use the genuine and you'll get cured. By mail from the Catarrhose Company, Kingston, Ont. There passed away at Wood Islands, P. E. Island, on August 24th, 1911, Isabella Lamont, beloved wife of John R. McKenzie, and daughter of the late Angus Lamont. Her capable and good disposition and character earned for her the fond appreciation of all who really knew her. At the last she humbly fed upon the Word of God and from Him received her comfort. The remains were laid to rest in the River Cemetery. A large number of people assembled at the home where the services were conducted by Rev. Ewen MacDougall. While James McInnis, one of the attendants at the Hospital for the Insane at Falmouth, was out shooting in the Asylum Marsh about a half a mile east of the Institution last evening he made a gruesome discovery. When he found the body of a man lying in the grass and seaweed. The body was partially imbedded and fully clothed with the exception of the headwear. The discovery was made about 6.30 and Mr. McInnis immediately returned to the Hospital and notified Coroner H. D. Johnson, M. D., by telephone. Accompanied by Undertaker Wright the Doctor left for the scene and arrived there shortly after seven.

Guided by Mr. McInnis they proceeded to the Marsh but owing to the approaching darkness, the treacherous nature of the marsh, over which they were travelling and some slight difficulty on the part of their guide in locating the spot they did not reach the body until after eight o'clock. It was then too late to make a proper examination of the remains and accordingly Undertaker Wright was given instructions as to their removal this morning.

The body was in a very bad state of decomposition and the Coroner states that it may have lain there several months. Nothing could be done last night towards identification—only the facts that the remains are those of a man and that they are in a badly decomposed condition are available to this end.

An inquest will be held in the matter, probably tonight, when it is expected that more light will be thrown on the matter.

The boots were observed last night and, peculiarly enough, considering the state of the remains, they appear to be quite new.

There is just a possibility that the body may be that of young Plaisted who was drowned with Mrs. McInnis off the head of the Marine wharf about a year and a half ago. It is thought, however, that this is hardly likely owing to the length of time which has since elapsed.
