Pope Benedict's Body Entombed in St. Peters

Ceremony Attended by Pontifical Household, the Sacred College and Nobility. Cardinal Lafontaine Spoken of as Successor.

(Special to The Guardian.)

ROME, Jan. 26. — Pope Benedict was entombed with solemn and impressive ceremony this afternoon. His body, enclosed in three caskets and dressed in the pontieical robes lies in a crypt under the Great Basilica of St. Peters at the right of the entrance. The historic and beautiful ritual was witnessed only by members of the sacred college, members of the pontifical household and the papal nobility and diplomats accredited to the vatican, Pope Benedict's body being enclosed in three caskets, the inner of cypress the middle of lead and the outer polished hardwood. The ceremony began at 3 o'clock in the afternoon and at noon the huge bronze doors of St. Peter's swung shut excluding the public from the vast Basilica until after the funeral.

Cardinal Lafontaine, Patriach of Venice, is highly considered as a successor to Benedict XV. It is reported that the late Pope expressed hope that Cardinal Lafontaine would succeed him.

Eggs and Poultry Ass'n Conclude Annual Meetings

At the closing session of the annual meeting of the Egg and Poultry Co-operative Association, yesterday morning, the following directors were elected.

Prince County— W. N. Jenkins, W. H. McGregor, J. B. Millman, J. D. McLellan.

Queen's County— J. D. Hughes, J. R. Munn, Hon. J. E. Sinclair.

King's County—Russel G. McLaren, F. C. Lelacheur, J. A. Gillis.

A number of resolutions were then passed including the following.

Whereas the amount for which the officers of the Association are bonded appear to be inadequate in view of the volume of business transacted, be it resolved that such bonds be increased to an amount commensurate of the requirements of the business and that they be for not less than $10,000 in each case.

It is the sentiment of this meeting that the Association confine its attention to the handling of eggs and poultry, it being felt that this line is of it self of sufficient importance and may be developed to an extent to demand the unbroken or entire energy of the organization and its management.

Resolved that we accept and indorse the action of the Department of Agriculture in offering to cooperate with our association in making it possible to hold a short course of instruction in flock culling and again to ask each circle at once to consider the sending of at least one delegate from each and provide for his maintenance while in attendance, it being understood that the Department of Agriculture will provide railway fare, instruction and housing. Moved by Mr. Seymour, seconded by Mr. Machon.

Votes of thanks were extended Mr. Kerr, Mr. Jones and Mr. Lightizer for their work in the Association, to which they replied briefly.

A vote of thanks was also extended Hon. Mr. Lea for the co-operation extended by the local Department of Agriculture.

The matter of revision of the constitution was also discussed.

After discussion re auditor and other matters the meeting adjourned.

RICHARD CROKER IMPROVING

DUBLIN, Jan. 21.— Richard Croker, who was stricken seriously ill following his return from a visit to the United States in November, continues to improve, it was stated this morning at his home, Glencairn, at Sandford, near here. He is still confined to his room, but his condition is ow such that he is to read the newspapers.

Measures for Relief Of Unemployment

(Special to The Guardian.)

OTTAWA, Jan. 26.— Measures for the relief of the unemployment and distress throughout Canada, the necessary funds to be provided by Government General's warrants were approved by the federal Government last evening. A special feature of the regulations is, that in the case of unemployed former members of the Canadian or British forces now in Canada and who are discharged physicially fit the government will reimburse municipal authorities to the extent of one half the disbursements made for unemployment relief, the provincial and municipal authorities to bear the remaining half.

Closing Session of Farmers' Institute

The closing session of the annual meeting of the Central Farmers Institute was held yesterday morning, Mr. E. G. Gildings in the chair. After the reading of minutes, the address of the President was adopted.

The following resolution was then passed:

We firmly urge upon the Federal authorities the need of the immediate standardization of the remainder of the railroad of this province as owing to the increased shipment of live stock from the province and the importation of crushed limestone feeds and fertilizers in car lots we require a standard road throughout, as the increased business from this would soon repay the cost, we strongly urge the government to have the work done the coming summer.

That we ask the Dominion Department of Agriculture to add sufficient land to the Prince Edward Island Experimental Station at Charlottetown to provide for the necessary extension of the work with annual and Field Husbandry. They would further suggest that a second breed of dairy cattle be established at the Station for experimental and demoustrative purposes. That we request the Maritime Stock Breeders' Association to provide accomodation approved by the Veterinary Director General for accredited herd or herds in the process of accreditation for the next Maritime Winter Fair.

A resolution asking the Department of Public Works to adopt the section system operated by our railways was not passed but referred back to the institutes for consideration.

This resolution was discussed by Hon. W. M. Lea, Peter Brodie, M. P. P. Fulton Simpson and others.

The other resolutions were discussed by Mr. C. E. MacKenzie and others.

Resolutions of thanks to the Federal and Provincial Departments of Agriculture were passed.

The following directors were elected:—

PRINCE COUNTY.— W. H. McGregor, Lot 16; E. W. Johston, Elmsdale; Horace Wright Bedeque.

QUEEN'S COUNTY.— W. J. Gibson, Marshfield; D. H. Murchison, York Point; J. J. Lacey, Tracadie Cross.

KING'S COUNTY. — E. G. Geddings, Murray River; Edwin Reid, Rollo Bay. J. J. Campbell, Elmira. Mr. W. J. Reid gave an address on the results of experimental work, conducted in feeding of dairy cattle at the Agriculture and Technical School. He said that the cost of production was about 96 cents pr 100 lbs. of milk. He referred to the published statement of relative values of the different feeds, hay, bran, etc. The more hay fed per day the higher the cost of production. It pays to feed less hay and more grain.

Mr. R. H. Rogers, Chief Superintendent of Education, gave an address, referring to the permanent element in agriculture, the need of providing for the future. Our public school instructions should be adapted to the needs of the people.

British Firm Secures Large Electrical Contract

(Special to The Guardian.)

LONDON, Jan. 26.—The Vickers Electrical Company of Manchester announced the receipt of a contract amounting to between three quarters and on million pounds sterling for material to electrify South African Railways. The fact that the contract, it is stated, was secured in the face of foreign competition has aroused a chorus of delight in Great Britain. The newspapers profess to believe that it signifies the breaking of the back of German competition in the electrical trade of South Africa.

Serious Disorders Reported at Cairo

(Special to The Guardian.)

LONDON, Jan. 26.—Despatches to the evening star report that fresh disorders in which 190 persons were killed and 1000 were wounded have broken out in Cairo Egypt. English troops are reported to have quelled the riots.

SERIOUS FIRES IN NOVA SCOTIA

LUNENBURG, N. S., Jan. 25— Fire last night and this morning destroyed the fish storehouse of Adams and Knickle on the Lunenburg waterfront, and 17,000 quintals of codfish in the building was a loss estimated by the firm at $175,000.

The fire broke out at nine o'clock last night and, after being brought under control at 2.30 this morning became serious again at five o'clock with renewed danger to adjoining buildings. The flames were prevented from spreading, however. A vessel moored neatby had a narrow escape.

The firemen of Lunenburg were aided by the departments from Bridgewater and Mahone Bay, the three forces fighting all night in below zero weather.

LIVERPOOL, N. S. Jan. 25— Four large buildings valued at upwards of $100,000 were destroyed by fire here early this morning. Two families were forced to flee from their homes and four business establishments were wiped out.

The buildings burned were on the south side of Main street and were known as the Hindry Block, Seaman building, Hendry buildings and Rubin block.

The fire started at 2.30 a. m. and was not safely out until 10 o'clock.

The Knaut block adjoining the Rubin block, and occupied by the hardware store of J. C. Hemeon, Ltd. caught fire again and again, but the firemen stayed the flames at this point. On the north side of Main street opposite the fire, buildings were severely scorched and their glass broken.

The burned buildings were occupied as follows:

"Hendry block, owned by A. W. Hendry, W. D. Penny and family, residence; Guy Mousear, restaurant; Archibald McKenna, billiard room.

Seaman building owned by Hanna Seaman, Hanna Seaman and family, residence; dry goods store John Seaman.

Hendry building, owned by A. W. Hendry, grocery store; L. C. Murphy.

Rubin block, owned by F. O. L. Patch, Samuel Rubin, boot and shoe and men's wear store.

The Weather, Temperature, Tide, Moon, Etc.

TORONTO, Jan. 27.—North to northeast winds. Milder.

High tide this morning at 10.54 and tonight at 10.12.

Sun sets this afternoon at 4.59 and rises tomorrow morning at 7.27.

Potato Growers Meet In Annual Conference

Comprehensive Report Submitted by Directors of the Co-operative Association Which Has Done Much to Improve the Quality of Seed Potatoes.

The annual meeting of the P. E. I. Potato Growers' Association was held yetserday afternoon and evening at the Agricultural High School. The president, Mr. A. E. Dewar was in the chair and there was a large attendance of members.

The annual report of the directors was read by the secretary, Mr. Wilfred Boulter and was adopted clause by clause, after much interesting discussion.

The report was as follows: —

DIRECTORS' REPORT

The Directors appointed at the last annual meeting have endeavored to carry out the work of the Association, always having in mind the work of the Association. The first work to occupy our attention was the incorporating of the Company. This was done by a Bill passed in the House at the last session. The work of the Association was thereby made easier.

Trade Mark.

The Secretary was authorized to obtain and register at Ottawa a Trade Mark suitable for the Association. Your Directors decided to registerd under the name of "Garden of the Gulf" Brand Certified Seed Potatoes. This was done and the stock is now marketed as you already know, bearing tickets on which is stamped the above inscription.

Spring Marketing.

The marketing of Seed in the spring of 1921 was a very difficult proposition. The slump in the price made it impossible to handle seed in any quantity. The only seed asked for was that of a very superior quality. We could not make sales of any except practically free from disease tubers. As a result we were not able to handle all the seed which would pass as No. 1. Our total shipment for the spring was 2,777 bushels, netting us $1,968.98.

Demonstration Seed Tests.

The Association sent to the United States for experimental purposes several barrels of Green Mountain and Irish Cobbler Seed. This was distributed by the United States Department of Agriculture to Virginia, New Jersey, Maine, Vermont and one sample was grown at Washington. The County Farm Agent of Suffolk County, Long Island, carried on the largest demonstration of Seed Test of any. Six varieties or samples of Green Mountain and two of Irish Cobblers were supplied. The tests are of great advertising value and this year a greater quantity will be sent for this purpose.

Widening Market for Seed Stock.

The idea which you suggested at the Meeting of sending a man to some of the Potato Growing Sections of the United States with a view to widening our market for Seed Stock was acted upon, and our Secretary, Mr. Wilfred Boulter, left here about the middle of June and visited the potato growing sections in Virginia and elsewhere. While he was at Norfolk, Virginia, Professor Wm. Stewart, of the Department of Agriculture, Washington, harvested potatoes which were grown from Island seed. These gave very satisfactory results, showing absolute freedom from disease and yielding at the rate of over 300 bushels per acre. As a further evidence of the good effect of our seed in these tests Mr. Boulter was able to meet the Directors of a large co-operative Company and explained to them the methods we are following in growing, harvesting and marketing our stock. We have been able to place with this Company six carloads of Irish Cobblers, and had more Cobblers been available we would have had a market for a greater quantity. There is a market in this State for a tremendous quantity of Cobblers, providing the stock we have already sent gives the results we are hoping for. The one Company to whom shipment was made require at least 200,000 bushels each year for seed purpose.

The Secretary then proceeded to New Jersey and in company with Dr. Martin, Plant Pathologist of the Experimental Station, and our Mr. S. G. Peppin, who met him here, visited a number of the potato growing sections. At some of these centres tests from our Island Seed were seen. Owing to the very dry season the Cobblers were not looking very good, nor was the yield from the tests as was afterwards learned so great as it otherwise would have been. Nevertheless in comparison with tests from other countries the results were satisfactory. We have several inquiries from growers in this State and we trust in another year to be able to market some part of our crop there. The Secretary then came up to Long Island. Arriving a day before their Potato Tour began, Mr. Peppin and he were able to visit several fields where Canadian seed, principally Prince Edward Island, was grown in Seed Source Tests. It was gratifying indeed to find that in almost every instance the P. E. I., stock was equal to the best. Not only was this true of the rows which were grown for demonstration purposes, but on a visit to the farm of the growers who had purchased Island seed in 1920 it was found that the plants were vigorous, free from disease and gave promise of a heavy yield, which from reports received later in the season was verified. The result of the 1921 Seed Demonstration gave our stock first place for fredom from disease.

Prince Edward Island seed has established a reputation for itself in Long Island. This, however, will stand only so long as the standard and quality of the seed shipped there, continues to be better than that from other seed growing centres. These Long Island growers are qualified and shrewd. In many instances they have the percentage of diseases found in their crops and are thus able to know from what source they obtain the best stock. Altogether the trip was valuable to the Association not only in increasing the market, but in giving the Secretary an idea from his association with the growers and a visit to the country of the class of men we were dealing with and of the conditions under which our potatoes must come in competition with others.

Your 1921 Crop

Your Directors with the experience of last year in mind and the increased quantity of Seed to dispose of decided that it would be impossible to handle the crop other than through agents who were on the ground. As a result, from the different visitors who came to the Province, a selection was made, and the sole right to handle Green Mountain stock in Long Island was given to agents who sold on a commission basis. As a result we were able to dispose of all the stock offering in the fall of 1921 at a highly satisfactory price. So high has been the price received for our seed that it would be well to issue a word of warning: We cannot hope to always command a price for seed stock so much in advance of the price paid for commercial stock. The total quantity of potatoes shipped of the 1921 crop was 45,000 bushels, or practically 60 carloads. $1.00 a bushel was advanced on these Unfortunately owing to overcharges on the Long Island Railway, which amounted to over $2,000.00 the Association was unable to make final settlement before the close of the year.

You are aware that this year there was a duty against Canadian potatoes entering the United States of 42 per cent. per 100 lbs. In view of the fact that this duty had to be paid in American funds before the cars were started, it cost the Association pratically 26 per cent. a bushel, adding to this the lower rate of exchange which we realized on our receipts, the net price to our growers with these extra charges deducted will show that all sales were put through at the best price the market would afford.

Potato Diseases.

We are pleased to report that very little of the 1921 crop was rejected, excepting in Irish Cobblers, which possibly on account of the seasonal conditions developed wilt. The Green Mountains were exceptionally free from disease and were delivered to the purchasers in the very best condition. Common Scab is the cause of considerable trouble. So far there does not appear to be any reliable means of overcoming this on land that has been heavily limed or shelled. Experiments are being conducted in the United States and at our own Experimental Farm with sulphur compound, with the hope of controlling scab. The season of 1921 was exceptionally dry. As a result there was little or no blight, but growers if they would have a No. 1. product to market must bear in mind that it is necessary to keep the plants covered with the bordeaux spray, which if properly mixed and applied will prevent blight, even in the wettest seasons.

Marketing Charges.

The Association is retaining 5 per cent of the net sales for handling charges. While it is not known yet what this will amount to for 1921 it will be seen from the financial statement that the total

(Continued on Page 3.)

New Steamship Line New York To Ireland

(Special to The Guardian.)

NEW YORK, Jan. 26.— it was announced today that a company has been formed here for the establishment of a steamship line to the Irish Free State. A second line to Ireland is also reported to be under contemplation by another group of Irishmen here. The Irish American line has been incorporated under the laws of Delaware with a capital of $5,000,000. Its promoters include a number of Sinn Fein leaders who were closely associated with De Valera in the United States. The new company is offering 500,000 shares at 8 per cent. preferred stock at $5 par value, and 50,000 shares of commons stock.

Farmers and Rotary

Address by Hon. John E. Sinclair on Co-operation.

Yesterday was Farmers' Day at Rotary when the Hon. John E. Sinclair and a number of leading officials of the farmers' organizations were guests of the Club, including Messrs., Fulton Simpson, J. R. King, Wilfrid Boulter, W. J. Reid, W. H. McGregor and C. E. McKenzie. In addition there were present Mr. Inman, Bedeque; Mr. H. C. Christie, Toronto; Mr. Andrew Williamson, Eldon and Mr. Graham Jardine, Manager Royal Bank. After a visit from the Club Stork, Rotarian Reuben MacDonald in a felicitous speech presented a Rotary Cup to Rotarian Dr. Allen, who recently had an addition to his family. Dr. Allen was most happy in his reply. Rotarian Dr. McMillan with due formality then presented Rotarian Reuben with a badge and medal won by the Patriot Rooster at the Poultry Show, a compliment which he wittily acknowledged. Mr. Andrew Williamson having been encored for his splendid rendering of "I'm Going Back to Glesca," responded with another Scottish song "Dougie the Baker."

The Chairman, in introducing Hon. Mr. Sinclair, congratulated him upon the honour conferred upon him by being admitted a member of the Cabinet. Mr. Sinclair was cordially received on rising to address the Club on "Co-operation" which he dealt with from a broad aspect, saying it was good for ourselves, good for the other fellow, and good for the country. Co-operation was necessary to get Canada back to work. They had learned from the last war that it was useless to depend upon the means of defence of the past for future protection. They must develop new ideas and other means, and this applied to progress generally. In Canada there were immense resources of oils and natural gas which could be developed when once Canada got back to work. There was likely to be a great emigration from the Mother Country to avoid the high taxation there consequent on the war, and Canada was certain to get its share. These immigrants would bring money, energy and initiative to help develop our resources, and when these were tapped it would be found that Canada was not only a pivot but the pivot of the British Empire. Before that could be accomplished co-operation was necessary, "each for all and all for each," which was the true co-operative spirit. But while Canada had undoubtedly the prospect of becoming the greatest part of the British Empire, it was necessary first for everyone to settle down to work. There must be retrenchment, also, even to the point of being cruel. Their greatest asset was in co-operation, co operation in the development of our resources and in a determination to stand by the Empire and our own country. Canada can "come back" quicker than any other country. (Applause). In tendering the speaker a vote of thanks for his address, the Chairman expressed the hope that at the first re-shuffling of cards in the Cabinet, Mr. Sinclair would be given the portfolio of Minister of Agriculture.

CENSUS OF B. COLUMBIA

OTTAWA, Jan. 26.—The Dominion bureau of statistics yesterday afternoon issued, subject to correction the poopulation of the Province of British Columbia by the electoral districts, and by cities hown by the returns of the sixth census of 1921. Figures give the population of the province in 1921 as 523,369, an increase of over 1911 census of 130,388.

Burns' Concert a Splendid Success

Large Attendance at the Strand Theatre Last Night Where the Anniversary of Scotland's National Poet Was Fittingly Celebrated.

There was a large attendance at the Burns Anniversary Concert, held last night in the Strand Theatre. The programme was a particularly excellent one and was rendered throughout with fine feeling and talent.

The first number was the Grand Gathering of the Clans, the stage being set very artistically as an out door Highland scene. In the foreground was a row of Scotch lassies dressed in the national costume; behind these stood the kilty band and behind these again another row of kilted lassies.

After selections by the pipe and drum band, the Reel O' Tulloch was danced with energy by Misses. Marion McDonald, Jean McDonald, Winnifred McEachern, Claire McCormack, Nora McKenzie Helen McDonald, Laura MacRae and Dulcie Walker and Masters Earl McDonald and Gordon McDonald.

This splendid old dance was followed by the Highland Fling, splendidly executed by Mr. T. S. McKay of Truro, N. S.

The performance of the original comic operatta, "Penelope, or The Milkman's Bride" which concluded the first part of the programme was very capably carried through. The "Happy Five" were in their best trim, the acting and singing being splendid. The plot of the operatta hinges on the love-intrigues of Penelope, a servant girl, whose three lovers, the milkman, the policeman and the Grenadier guardsman, are the cause of much merriment. The pepper-box, in the window, which Penelope uses as a signal to warn her Romeos of the premises when the "missus" is around, plays a big part in the fun-making. The musical part of the piece has been selected from the original operas and was delightfully rendered by Mrs. Trainor, Miss Cheshire, and Messrs. Ritchie Dingwell and Quigley.

Following was the cast:

Scene: Kitchen and Area Steps from the Street

Characters.

Mrs. Croaker, the Missus ..... Miss B. Cheshire
Penelope, a Servant ..... Mrs. Francie Holl Trainor
Chalks, a Milkman ..... Mr. Leigh Dingwell
Pitcher, in the Police ..... Mr. G. E. Ritchie
Tosser, in the Grenadiers ..... Mr. Roy Quigley

Solo,—"I Love the Box"; Duet,—"Oh, I Long Have Suspected"; Solo,—"Dreamt That I Dwelt"; Solo,—"When Other Lips"; Solo —"Ah! So Fair"; Duet,—"Oh Haste Crimson Morning"; Trio,—"Laughing"; Solo,—"Play No More, Sir"; Quartette,—"You Stole the Meat"; Solo,—"Say to Them"; Duet,—"Get Out of My House"; Duet,—"Yes, Yes, Yes." Finale,—Quintette.

Part two opened with some favorite Highland marches stirringly rendered on the pipes by Piper Hugh McPherson. This was followed by Caledonian selections by the pipe and drum band which were warmly received.

The next feature was a double sword dance by four Scotch lassies excellently performed. This unique dance was performed for the first time at a concert here and showed remarkable skill It was followed by an excellent character song, "I'm going back tae Glesca Toun" by Mr. Andrew Williamson, well known in the old country as "Ben Lomand."

A dance, "Seann Triubhas, by Miss Helen MasDonald, was performed with spirit and elicited warm applause. A song, "Bounie Sweet Bessie" sung by Master Maurice Reardon, ten year old son of Mr. and Mrs. J. F. Reardon, city, was given excellently and was also warmly applauded, and a delightful encore given.

"Come Under My Plaidie" is an old favorite at every Scottish concert but last night sang characteristically as a duet by Miss Robina and Mr. Andrew Williamson, it made decidedly one of the hits of the evening.

A step dance, with violin music, by Mr. Kenneth McLean, was the next feature and was enthusiastically encored. This was followed by a stirring song "Where Has Scotland Found Her Fame" by Mr. G. H. Gorbell and by "My Laddie" excellently rendered by Mrs. Holl Trainor who at the last moment took the place of Mrs. Dingwell who was storm-staved.

A Sword Dance and "Gillie Callum,' danced with his customary skill and spirit by Miss Laura McRae, was the next feature, followed by the character song "Maggie Tamson," by Mr. Williamson, which concluded one of the finest and most varied concerts seen here for a long time.

A great deal of credit for the success of the concert is due to the capable direction of Prof. S. D. Earle, who superintended the musical part of the programme and also to Miss McRae and Mr. White for the success of the dancing features. The concert will be repeated again tonight and will no doubt draw a packed house.

Mr. Meighen Returned For Granville County

Has Substantial Majority Over His Progressive Opponent.

TORONTO, Jan. 26.—The counting of the votes in Grenville County is proceeding slowly as there are a number of polls to hear from. At mid night Hon. Arthur Meighen had a substantial lead over his Progressive opponent, Mr. A. K. Patterson the totals then being:—

Hon. Arthur Meighen, 4,274.

Mr. A. K. Patterson, 2,579.

It is conceded that ex-Premier Meighen will carry the election.

Prosecution Closed in Second Arbuckle Trial

SAN FRANCISCO, Jan. 25—The prosecution closed its case in the second trial of a manslaughter charge against Roscoe C. Arbuckle, reservin gthe right to examine witnesses in impeachment of one of its principal witnesses, Zey Prevost. The prosecution charges that Miss Prevost made statements in her testimony which conflicted with testimony previously taken from her under oath.

Adolph Juel, finger print expert of the San Francisco police department, and Milton Carlson, Los Angeles finger print expert, were called by the defense in an attempt to refute evidence offered by E. O. Heinrich, a similar expert of Berkeley, Cal.

Heinrich testified that finger prints found on a door of Arbuckle's rooms in the St. Francis Hotel were those of Arbuckle and Miss Virginia Rappe. Carlson testified that finger prints can be forged beyond the possibility of detection by a layman. He said that the prints on the door did not compare with those of Arbuckle and Miss Rappe. Juel testified that he could find no points of positive comparison between the police finger prints of Arbuckle and Miss Rappe and those on a door.

The prosecution contends that the nger prints were made by Arbuckle and Miss Rappe while she was trying to escape from the room on the occasion of a party during which he is alleged to have fatally injured her.

Under cross examination Juel said: "I will not say that the prints on the door are not those of Arbuckle and Miss Rappe.' He also said that the prints appeared to be those of a man and a woman.

SENATOR BOYER DIED WITH TRAGIC SUDDENNESS

MONTREAL, Jan 25—Senator Arthur Boyer died with tragic suddenness yesterday while visiting Dr. E. J. Shephard at his office at 139 Mansfield St. The Senator collapsed and died almost immediately.

PARRSBORO, N. S. Jan. 25— The house and its furnishings, owned by A Seaman, valued at $10,000 have been destroyed by fire here.
