Eczema, Salt Rheum.

Eczema or Salt Rheum, as it is often **called, is one of** the most agonizing of skin **diseases.** It manifests itself in little **round blisters**, which contain an extremely **irritating fluid.** These break and subsequently **a crust or scale** is formed.

The intense burning, itching and smarting, **especially at** night or when the part is **exposed to any strong** heat, are almost **unbearable.**

The pre-eminent success which Burdock **Blood Bitters** has met with in permanently **curing a disease** of such severity is due to **its wonderful blood** cleansing and purifying **properties.**

No other remedy has done, or can do, **so much for those** who are almost driven **to distraction** with the terrible torture, as **our thousands of** signed testimonials can testify to.

Mrs. Jno. R. Keady, Linton, N.B., **writes: "I was so troubled with Salt Rheum for eight years, that I could not work my hands were so sore. By using Burdock Blood Bitters my hands were eventually cured."**

Mrs. Ira C. Buckner, Eden, Ont., writes: "I was troubled with Eczema for a long time. It came out on my face and between my shoulders. A friend told me about Burdock Blood Bitters. I took two bottles and it helped me so much I cannot recommend it too highly."

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000. The Guardian's daily circulation is therefore 1 to 1½ of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believe unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000 St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000 or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario bout 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 50,000. That is as 1 to 5 of the population of Toronto and 1 to 44 of the population of Ontario.

The point is this that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city, and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons alike. They have a right to know how completely their favorite Journal's endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this City and Province
