Lloyd George Says Stead Account is "Stupid Invention."

LONDON, Nov. 16.—Both Georges Clemenceau and David Lloyd George today declared there was no truth in Wickham Stead's account of how the two former premiers nearly fought a duel in the days of Versailles.

Lloyd George Denies.

The former British Premier characterized the Stead account today as a "stupid invention which contains not the slightest basis of truth."

In reply, Mr. Stead said "I should naturally have published a story of that kind without having verified it in advance from persons who were present."

The author added that he had no intention of entering into a personal controversy in the matter.

The youngster's foot, which was badly bruised, was dressed by Dr. Dewar and it is expected that it will be all right again in the course of a few days.

Baldwin To Confer With Dominion's High Commissioners

(Canadian Press) LONDON, Nov. 16.—An important precedent has been established by Premier Stanley Baldwin in asking the high commissioners of the various Dominions to meet him in company with the Secretary of State for the colonies next Tuesday. This is the first time that the high commissioners have received such an invitation from a prime minister.

It follows considerable discussion in the press as to the relations of the dominions to the colonial office by summoning next Tuesday's conference. Baldwin indicates his appreciation of the importance of the problem and he shows a higher appreciation of the status of the high commissioners than has hitherto been displayed.

(Special to Guardian) PAIRRY SOUND, Ont., Nov. 16.—A double drowning occurred at Bayfield, near Point Au Baril, Georgian Bay, on Wednesday of this week when Peter Light, Sr., and William Longland, both of Penzance, lost their lives. The two men had set out to take in their fishing nets, but were overtaken by heavy gale. When they did not return in a reasonable time, a search party went out, and found their boat overturned, but no trace of their bodies. They were experienced fishermen. Mr. Light was 68 years of age.

Montague Norman Is Recommended

LONDON, Nov. 16.—Directors of the Bank of England have unanimously decided to recommend that the proprietors re-elect Montague Norman, governor of the bank for the coming year, to make his sixth consecutive year in office. Such an honor is unprecedented. The governorship is normally limited to two years, a previous rare exception being Lord Cunliffe, who served five years. While it is recognized that the directors have paid a high compliment to Mr. Norman, it is also pointed out that the post-war financial problems such as the funding of the British debt to America and participation in European reconstruction schemes, have made continuity of the governorship almost a necessity. It is understood that the customary two-year limit will be resumed when the situation becomes normal.

MOVE FOR ALLIANCE BETWEEN BRITAIN, FRANCE AND BELGIUM

Chamberlain Favors Entente And Would Substitute Agreement To Replace One Framed By Clemenceau, Wilson And Lloyd George.

PARIS, Nov. 16.—Once more with the change of government in England an active discussion has begun of the possibility of a re-formation of the Entente and the creation of a substitute alliance for the tripartite treaty of guarantee framed by Clemenceau, Wilson and Lloyd George at Versailles. Every French Government since the failure of the United States and English to ratify that treaty has sought some way of maintaining in definite accord the alignment of the Allies of the war, and everyone has failed. Reparations and Ruhr were always stumbling blocks between England and France, but with these now out of the way, the road seems once more open and the prospect full of hope.

At Brussels yesterday Foreign Minister Hymans gave fresh impetus to the idea by his suggestion that the Entente should again be a three-cornered one, including Belgium, which has already a treaty of alliance with France. This suggestion is not entirely new. It has been made several times, but its renewal is considered here only timely, but almost certain to bear results. Tonight obviously at the inspiration of the Quai d'Orsay, two leading newspapers, the Temps and the Journal des Debats, devote their principal columns to favorable support. In England Colonel Repington in the Daily Telegraph has been already discussing the possibility, and it is known here that the new foreign minister of England, Mr. Austen Chamberlain, is very favorably disposed to such a reforming of the Entente.

There is no doubt that Belgium in which a change of government is probable shortly, is the key to the whole situation. For England always has been a cardinal point of foreign policy. It was for that that England and France fought successive wars which culminated

50,000 Sacks Potatoes Shipped Last Week From Charlotte-town

During the past week over 50,000 sacks of potatoes, about 150,000 bushels, were loaded in steamers and left for different markets. TRIED TO SELL TIMBER LIMIT FOR HOME BANK

Further Evidence was Heard at Trial of Director Stewart.

TORONTO, Nov. 16.—At the trial of J. F. M. Stewart, Home Bank director, this afternoon on a charge of concurring in false returns to the Government, F. W. Reynolds, of the Reynolds Timber Company, in which the main shareholders were Home Bank directors including the accused, said that he had been authorized by M. J. Haney, then vice-president of the bank, to sell timber limits in British Columbia owned by the bank. The total estimated value of the limits was \$250,000 and it was to have been paid a 5 per cent commission on the sale. He was unable to sell the limits, or any part of them. His salary all the time he was in British Columbia was paid by the bank and on one occasion he had acted as relieving manager of the Vancouver branch. The failure of the Reynolds company, he said, was due to the lumber market falling away and because the company did not have much capital, and because it was situated too far from the directors who all lived in eastern Canada.

A. E. Kemp, chief inspector of the bank, submitted the reports of his inspections made during 1922 and 1923. I. F. Hellmuth, one of the defence counsel, argued that this could not be evidence unless it was proved that the reports had been brought to the attention of the accused.
