MILLINERY OPENING

(Continued from page 1.)

tume. These are trimmed with flowers, sometimes in bunches at the sides, sometimes having garlands of tiny roses festooned about them, sometimes having the whole crown made solid of flowers.

The Cavalier style with its wide brim, rolling gracefully on the left side, is perhaps the most popular shape for spring, because of its adaptability for flower trimmings, and the large sailor is much in evidence. Scarcely a hat of this character is seen without a facing of velvet or taffeta.

Turbans made entirely of flowers are again being worn. Lace flowers, which are made of brussels lace or fine maline formed into petals have the regular flower centres and used in the semblance of the cabbage rose, crysanthemum or dahlia on many of the smaller hats. The leaves are sometimes traced with gold or silver veining to give the touch of metal so desirable.

The dress hats are developed in a wide variety of net and lace. Willow plumes and aigrettes are used almost exclusively in the trimmings and the Gainsborough styles prevail.

Certainly this firm's millinery opening will be looked forward to with fond anticipations, and will be a treat to the fashionable ladies of this city and country. The fact of taking such particular care to have the ideas brought to Charlottetown, that appeals directly to the people of this Province is a very commendable feature.

...What might have ended in a serious accident occurred at Marie recently, when a young man returning home in the early hours of the morning was thrown out of his sleigh, the horse escaping, leaving the young gentleman to cover the rest of the journey on foot. Fortunately neither the horse nor man was hurt, but the carriage builder at St. Peters had more work on hand than was anticipated.

...A very pleasant and enjoyable time was spent on the evening of the 15th instant, at the home of Isaac and Mrs. Ives, of Montague, when they celebrated the anniversary of their wedding day, twenty-six years ago. The evening was spent in festivities, coupled with games and music, rendered to suit the occasion. Among those present were many of the leading citizens of Montague, also H. W. Ives, of Charlottetown. Their many friends join in giving them a hearty welcome into their twenty-seventh year, and hope to hear of their annual celebrations for many years to come. Owing to the distinct wishes of Mr. and Mrs. Ives, there were no presents, as they forbade any such. (The Guardian regrets delay in the publication of the above.)

PUFFINESS UNDER EYES—SWELLING FEET

These Symptoms are Among the Surest Indications of Real Kidney Disease.

For nearly a year my kidneys failed to do their work, writes William F. Plankett, a well-known dairyman residing in Britannia. "I had swollen feet so badly at times I could scarcely walk, my skin grew yellowish, and a general puffiness under the eyes gave my face a very unnatural appearance. My strength failed, and as I am a working man, loss of time and the prospect of serious illness caused me great anxiety. I read of several cures from Dr. Hamilton's Pills and decided to get five boxes. Now I feel it my duty to testify that they are the best kidney, liver and stomach medicine on earth. While my kidneys were so badly affected after all I think it was because the liver and bowels were clogged up. Anyway in less than a month the swelling in my feet ceased—my skin lost its yellowish cast—my eyes grew clear and natural, and, considering my age is nearly sixty, I am as fit as most men. Dr. Hamilton's Pills are a wonderful medicine that every man can use to advantage."

Don't be misled into using any other pill but Dr. Hamilton's. Sold in yellow boxes at 25c per box, all dealers, or The Catarrhozone Co., Kingston, Ontario.

THE MORNING PAPER.

Some Reasons Why it Makes The Best Advertising Medium.

A woman's curiosity to know about society, marriages, births, deaths, forces her to read it.

The Morning Paper is before her all day long, and it is when she is doing her household duties, arranging and improving the appearance of her home, that the missing and necessary articles of furniture, rugs, carpets, curtains or other necessities, show up the plainest, and there could be no more opportune time for a dealer to tell about the new goods, the new styles and the bargains offered, for the day or week.

In a majority of homes the newspaper is practically the bulk of the reading matter, and the long, all-day life from 5 a. m. to 10 p. m. of The Morning Paper gives not only the housewife but every member of the family an opportunity to read it.

The Morning paper is read at the breakfast table, again at home at ants. It is read in doctor's offices, professional offices, clubs, hotels, cafes, barber shops. It is read by daylight everywhere you go by both employer and employee.

It is a known fact that throughout the world, possibly with a half-dozen exceptions, the papers with editorial influence and national reputation are Morning Papers.

With these facts in mind, the business man who is looking after the real money-spenders of the family to interest in his goods will consult his best interests by placing his announcements where the women will read them.
