BASEBALL ORGANIZED. — A meetings of the young men of Borden was held on Thursday evening last for the purpose of organizing a Baseball Club, Eldon Campbell presided. It was unanimously decided to form a baseball club and the following officers were chosen, Honoury President—Ed. E. Crosby. President—Willard McNeill. Vice-President—J. R. McAleer. Secy and Treas.—M. Arnett Howatt. A subscription list was opened to purchase outfit, etc. and over $100.00 in cash was subscribed on the spot.

A RECORD HOLSTEIN PRICE.—Three enterprizing farmers of Guernsey Cove, namely Messrs. Fred LeLacheur, John Burhoe and Perley Harris, have purchased the richly-bred young bull recently offered for sale at Bunbury Farm. The price set my Mr. Jones nearly $300.00 was not high considering the quality of the animal both as an individual and as to his pedigree. His dam's record of butter in 7 days is nearly 6 lbs. higher than any Island cow of any breed and until recently was ten pounds higher. She is surpassed in the Maritime Provinces only by her dam's full sister. One feature which is remarkable in this wonderful cow is her high fat test. Her milk tested around 4.8 per cent on average and official tests have been made as high as 5.6 per cent. The official tester says that his family is the highest testing for fat in his experience. A three-quarter sister recently furnished a year in Record of Performance with a 4.6 per cent test. The sire is Sir Dekol Pontiac Jewel whose sire is a son of King of the Pontiacs the greatest sire of any breed and his dam is Oakland Pontiac Kate a full sister of a former world's record heifer. This bull was at Syracuse, N. Y., for Bunbury Farmers 1916 and has proved himself an exceptionally good sire. Probably the price is the Island record for a yearling calf and Messrs. LeLacheur, Burhoe and Harris should be congratulated and heartily supported for their enterprise.

Two of the four above mentioned lambs gave birth to two pairs of twins April, 29th, of this year. WORLD'S CENTRAL CURIO MARKET MAY BE TRANSFERRED FROM PARIS

PARIS, May 5.—Otto Kahn, the New York banker, proposes to return to their French owners the works of sculpture and paintings he has recently bought here because of the positive refusal of the French Government to lift the ban on exportation of art, and even to permit rare works to be exhibited in New York.

Arnold Seligman today predicted that unless the ban is removed, the world's central antique and curio market will be transferred from Paris to Amsterdam or London. The value of antiques here has already dropped some 40 per cent. as a result of the ban.

Meanwhile, wealthy French collectors are filling their mansions with art treasures acquired at low prices, of which they hope to dispose in New York when the restriction is lifted.

INSISTED ON UNIFORMITY

The new colonel had summoned his adjutant to him after the regiment had painstakingly gone through the intricacies of a formal guard mount. "Captain," he began pompously, "I was not at all pleased with guard mount this morning." "Why, sir—" began the amazed adjutant, who had thought the movement exceptionally executed. "That will be all, captain. As I said I was not at all pleased. As you know, there must be uniformity in an army to differentiate it from from a mob. This morning there was a noticeable lack of uniformity, especially in the band. You will immediately inform the band leader that he will instruct the trombone players to work the slides of their instruments back and forth in unison. Sir, I will have uniformity in my regiment."
