When December comes round on the calendar year. There is only one way, you can be of good cheer: There are numerous things that must be done well. Or you won't be here in the Summer to tell. Make sure of your fuel in the woodshed or bin. Have the water pumped, and your kindling in. For when Jack Frost comes round with his victor and frost sure to be lost. Have a good stock of flour, and sugar, and tea. For many the day very hungry you'd be. If the wind rips northeast, with its fury and snow. There are days you can't travel this or that here below. If you're sick need a doctor in one of these blasts. You may need, you may die as long as it lasts. For the now drifts are high no horse can go over. That's what in the country as said before. If you write to a friend the other side of the strait, You know when you write that its sure to be late. For the road up to Borden at this time of year. Even the rotary plow with its power or can't clear. From Borden to Tormentine there's ice mountains high. Capt. Read says, "I'll cross or in attempt I will die." Though nature made the Capt. as well as the strait. The ice was made first and has strengthened of late. We ask of the trains! and we hear in our sleep. Hughes at St. Peters, snow, 30 feet deep. Murray Harbour train as told by that poet of old. "Stuck at Fodhla again," says the poet so bold. McCarran went out yesterday morning at seven, Got as far as Morell today at eleven. If he goes into Elmira, as his orders imply. He might get back by the fourth of July. If precautions you take as told in this yarn. You may get through the winter and again see the bars; But if you shirk duty don't stock up your store. We may meet again on that far-away shore.

ELECTED VICE PRESIDENT.—Mr. A. A. Pomeroy returned on Friday night from New Glasgow, N. S., where he attended a special meeting of the Canadian British Syndicate, Limited. At this meeting Mr. Pomeroy who had previously been a Director of the Syndicate was re-elected, and received the additional distinction of being elected Vice-President. Final arrangements have been made to put on the market the "Leopard Spring for Automobiles. This spring was demonstrated here last summer on a Ford car, and it has met with the endorsement of all automobile companies. The Canadian British Syndicate, while a separating operating body, holding patents in the British Empire, yet are affiliated with a similar organization in the United States, the latter holding patents in the United States and Europe. And it is the intention of both organizations to place the spring on the market not later than first of May.

LAKE VERDE DEBATING SOCIETY.—The subject for discussion last Wednesday night was resolved that Intemperance is a greater evil to a country than War. There was a fairly good attendance and good order was maintained. The speakers were Messrs. Joseph Hughes, John Boylan, Fred Cass, Henry Weatherbie, Clifford Murphy and O. Callaghan. The speakers upholding the resolution brought in many points on the evil of intoxicating drink, picturing the poverized home of the drunkard, the family discord, the large per cent of robberies and murders committed through intemperance. The opposition speakers put up a strong argument on the evil of War, the loss of men and money, the heavy debt during and after wars that a country must bear for many years. The decision was given in favour of the resolution. Mr. Harry Kelly acted chairman to the satisfaction of all. The subject for next Wednesday night is, Resolved that mail order dealing is more beneficial to the people of P. E. I. than home buying.

Rugs you will see in well-furnished homes—

THE well-chosen rug is the keynote of the decorating scheme. It gives old furniture new charm, provides a setting for the choice pieces, quietly dominates its little kingdom. You realize the truth of this when the rug is taken up for a dance or when sent to be cleaned. Its absence creates a bareness and removes the appearance of warmth and comfort of the whole house.

The spirit of the present day is mirrored in the beauty of coloring, the individuality of design and the perfection of weaving of BARRYMORE Guaranteed RUGS. These are the rugs you will see in the majority of well-

furnished homes, as BARRYMORE RUGS are designed and woven with the thought always clearly in view that they will be placed in modern homes where all the decorations are smart and up to date. In keeping with their beauty and their richness of texture, depth of pile, and remarkable wearing qualities. Under average home conditions a BARRYMORE will last for a generation.

BARRYMORE Guaranteed RUGS in all sizes and in a delightful variety of colorings and designs are being featured in the leading stores in every city and town.

Hunter River And Vicinity

Of the old time Fiddlers' Contest which took place in the Capitol Theatre, Moosejaw, Sask., and at which Mr. Malcolm Beaton, a former resident of this place took first prize, a lengthy report appeared in the western papers, describing the performances of the six finalists who appeared, each determined to carry off highest honors. The oldest entrant, Mr. Malcolm Beaton, 78 years of age was presented with the championship cup, donated by the Times-Herald newspapers, by Mayor Davidson who also presented the \$25.00 in gold, donated by the Capitol Theatre. The report in part says: "The contest took Moosejaw and surrounding country by storm. For three days it was the main topic of conversation and at 6:30 on Saturday night there were no seats left on the main floor of the theatre while at 7 o'clock the theatre had the "Sold Out" sign displayed and a crowd of several hundred was gathered in the outside lobby and on the side walk in front of the theatre."

Gas In The Stomach Is Dangerous

Recommends Daily Use of Magnesia to Overcome Trouble Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and causes the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meal with no more fear of indigestion.
