"The Connecting Link Between These Provinces" (DAILY - SUNDAYS INCLUDED) DURING MAY AND JUNE

Will Leave Wood Islands 7.00 a.m. 2.30 p.m. Will Leave Caribou 9.00 a.m. 4.30 p.m.

LUNCHES SERVED
NORTHUMBERLAND FERRIES, LIMITED
CHARLOTTETOWN, P. E. I.

Greek Captain Sent To Death Manacled?

RECIFE, Brazil, May 20 (AP)—The sinking of the 3,900-ton Greek Edifots boat known today and reports were current that her captain perished as a manacled prisoner aboard a subsequently disabled U-boat which was scuttled when overtaken by a British destroyer.

Survivors of the Edifots and the imprisoned crew of the scuttled U-boat have arrived in Recife. The Edifots was torpedoed and shelled to the bottom May 1 while en route from Buenos Aires to North Africa with a lined cargo and the captain was taken aboard the attacking U-boat, the survivors related.

A U-boat was located early this month off northeastern Brazil with insufficient fuel to reach an Axis or neutral port and unable to submerge because of engine damage. It was reported that when the British destroyer came upon the surfaced raider there was fighting going on in the submarine in which some of the U-boat crew were injured.

A few minutes later crewmen left the submarine and were picked up by the destroyer, these reports said, an explosion sent the U-boat to the bottom. The Edifots was reported sunk 415 miles off the Brazilian Island of Fernando Noronha. Eighteen survivors reached Fernando Noronha in one lifeboat and were brought here by plane.

Besides the captain, taken prisoner, the submarine, two lifeboats and members of the Edifots' crew are missing.

Claim 50,000 Frenchmen Are Shot By Nazis

LONDON, May 20 (CP)—German squads have killed 50,000 Frenchmen since the armistice, and the rate is rising swiftly as underground groups become more active in anticipation of an Allied invasion, Louis Jouhaux, former French deputy, said today.

The Yugoslav information bureau also announced that German execution squads are working overtime in Yugoslavia because of Axis fears of a patriot uprising as soon as Allied troops land in Europe.

In Belgrade alone, the German military leader announced the execution of 400 civilians to avenge the death of two Nazi officers, the bureau said. More scores of prisoners have been shot at a rate of 20 a day in the town of Krusevac, while at Duffac more than 100 were killed after the slaying of three German soldiers. In April 3,000 persons were reported put to death in the Kragujevac concentration camp.

The German-controlled Dutch radio reported that Arthur Sevzing, Nazi High Commissioner in the Netherlands, where scores of patriots have been executed recently, had advised factory workers that the threat of invasion had forced the German army to release Dutch war prisoners who might "respond as trained soldiers" to the German army.

The broadcast recorded by the Associated Press quoted Sevzing as saying that the Netherlands is deliberately poured away and the fields is set on fire here in Holland.

Viscount Bennett Britain's Popular Club Speaker

By SCOTT YOUNG
Canadian Press Staff Writer
LONDON, May 20 (CP)—One of the most popular club speakers in Britain today is Viscount Bennett, whose vociferous support of the principles and ideals of the British Empire and ready wit in the House of Commons, occasional addresses and occasional addresses.

Speaking success of the former Canadian Prime Minister, now a member of the House of Lords, is no surprise to Canadians here who remember his keenness in debate, his ready flow of invective and his stalwart belief in close but independent Empire relations.

One of his most recent successes was before the Publicity Club of London, a powerful organization of high newspaper and advertising officials.

When he got well into his subject, he made a couple of references to the hesitancy of Sir Wilfrid Laurier's Liberal Government in sending Canadian troops to South Africa during the Boer War and the subsequent refusal to bear the expedition's cost.

He spoke of how that hesitancy was reversed when the first Great War began, with Canada under the leadership of Laurier's Liberal Government, and said he doubted "if in all the long record of history you will find a more notable fact than the response of Canada then."

Such response was essential, he declared, because an enemy never goes to war with just England, but goes to war with the British Empire, and he said that all owe allegiance to one sovereign, any conflict affecting any part of the Empire affects them all.

Then he warned that the such Empire unity could not be preserved in future "unless a system were devised to give all the Empire a voice in foreign policy. He recommended an Empire air transport system to make speedy and frequent conferences possible, and said: "The British people must give the lead."

CONCEALED PATCHES
Patches on clothing may often be concealed in a seam line, under a pleat, or in the gathers of the garment.

Coal Strikes Spread In U.S.

WASHINGTON, May 20 (AP)—Strikes began to spread again in United States coal mines today, even as the War Labor Board almost a clean-up decision which may give an indication by Tuesday whether peace or turmoil shall follow in the three wage controversy.

The miners' chances of getting W.L.B. approval of their demands for a flat \$2-a-day increase are not generally regarded as bright, but a majority of the W.L.B.'s fact-finding panel is reported to favor their call for extra pay to cover all the time they spend underground.

Lewis has said the miners will not work without a contract; he has extended to May 31 the truce under which the old contract provisions were continued under government operation of the mines.

Today, however, strikes of miners protesting their lack of a working contract spread in Pennsylvania and broke out in Ohio and Kentucky. When 14 mines had closed it was estimated that 6,000 men were idle.

Soldiers To See "Prelude To War"

OTTAWA, May 20 (CP)—Defence headquarters announced tonight that "Prelude to War," a motion picture made by Lt. Col. Frank Capra of the Special Services Branch of the United States army, soon will be shown to Canadian servicemen, through facilities of the National Volunteer Organizations throughout the country.

The announcement said the film, first of a series of seven being produced for American army showings, by Col. Capra, former well-known Hollywood Director, depicts the rise of Nazidom and the course of events leading up to the outbreak of the present war. It contains battle scenes, but deals chiefly with the Nazi "war of nerves" which preceded the actual outbreak of hostilities.

The series of films is entitled "Why We Fight."

Expect Invasion

BERNE, May 20 (AP)—Das Schwazze Korps, organ of the Nazi Elite Guard, in an analysis of the military situation today declared that the allies will "very likely" not be determined until the Allies attack the continent by land.

It warned the German people that the allies will "very likely" tear the European land from us piece by piece," it said. "We will try to prevent this."

Mussolini's Popolo D'Italia said the allies must devote their attention to Japan and are not at present planning to disembark on Italian shores. The Corriere della Sera said the Italian Peninsula has never been invaded by sea but only through the Alps, an undertaking which, it maintained, "today is impossible."

Curfew Lifted

BOSTON, May 20 (AP)—Governor Sullivan signed into law last night a bill which lifts the Sunday baseball curfew for the duration of the war.

Under the new law, effective immediately, second games of double-headers which begin no later than 4:30 p.m. may be completed after the former 6:30 p.m. curfew hour.

King Victor Emmanuel III of Italy, above, abdicated his throne, according to an unconfirmed flash over Radio Morocco, which quoted reports from Italy via Bern, Switzerland.

Out Our Way

Canada has sent five million bushels of wheat to feed starving Greeks suffering under the Nazi occupation. The grain is sent on neutral Swedish ships and the shipment is arranged by the Greek War Relief Organization. Grouped around the five million bushel of grain are Captain Nilsson of the Swedish ship Tamara, Greek Minister to Canada Hon. G. S. Depasta, Director of the Greek War Relief Organization, Thomas Pappas and Canadian Minister of Trade and Commerce Hon. James A. McKinnon. The men in traditional white costume standing behind the group around the hatch are members of the Tamara crew. From left to right: Capt. Nilsson, the mayor of the city, C. R. Wasson; Swedish Consul General to Canada, Per Wijkman, and other dignitaries were present.

Delivers Letter

MOSCOW, May 20 (AP)—Joseph E. Davies delivered President Roosevelt's letter personally to Premier Joseph Stalin in the Kremlin tonight.

Before visiting Stalin, Davies spent some time with Soviet Foreign Commissar Vyacheslav Molotov.

There was no immediate indication of the reaction of Stalin. Davies, who flew from the United States, arrived in Moscow yesterday after brief stops in Stalingrad and Khabyshev.

In contrast to Washington and London, where there has been considerable about the letter in the face of the strictest official secrecy, the Moscow press today contained no speculation whatever about the Davies mission, even though much space was given to reporting the facts of his arrival.

Lt.-Col. Forbes Is Promoted

OTTAWA, May 20 (CP)—Defence Headquarters announced today appointment as Director of Officer Production of Lt.-Col. Stuart Forbes, O.B.E., M.C., 54, of Montreal, and his promotion to the rank of Colonel.

Col. Forbes has been Assistant Adjutant General, attached for duty with the Officers' Selection and Appraisal Board, since last Jan. 4. For three years before that he had been commandant of a machine-gun training centre. He was awarded the O.B.E. in the New Year Honours List.

Berlin Raided; 7 Trains Shot Up

LONDON, May 20 (CP)—On the heels of raids by heavy American bombers on submarine and ship building yards at Kiel and Flensburg, the R.A.F. last night carried the Allied air offensive to Berlin for the fourth attack on the Reich capital in a week.

An Air Ministry communique today said that swift R.A.F. Mosquitos attacked targets in Berlin, but gave no details. Tonight the Air Ministry news service reported that seven trains on railways between Chalons-sur-Marne and Nancy, France, were shot up by a single Mosquito during R.A.F. sorties over occupied territory last night.

All the Mosquito planes returned, and later, during daylight, a big formation of Allied aircraft thundered over the Channel toward northern France. They were too high to determine whether they were fighters or bombers.

A Nazi soldier examines a cylinder of supplies, mostly explosives, which Germans claim British plane dropped by parachute to help Yugoslav guerrillas, whose unceasing forays against the invaders have kept their country an ever dangerous powder-keg for the Axis occupation forces.
