MR. J. FRANK ARNETT, Conservative Candidate for Prince. One of the most forceful and engaging personalities in politics today is Mr. J. Frank Arnett, Conservative Candidate for Prince. He has been a very successful business man, and yet has had time to devote to public affairs both in the town of Summerside and in the county. He has been an energetic member of the Town Council and a most popular mayor; and in all good work and matters of public interest he has borne more than an ordinary share. When the Conservative Convention offered him the nomination for the county he accepted the honor and responsibility fully realizing that it entailed great sacrifices and much arduous work on his part; and since then has nobly thrown himself into the conflict, with such rest and effectiveness, that his opponent has had to work as even he never worked before to avoid being completely snowed under.

PEASANT WOMAN WALKS TO ROME FULFILLS VOWS

VILLA REAL DE TRAS AS MONTES, Portugal, July 26.—Maria Marcelina Demalos, an old peasant woman of this village, has just returned from a hazardous journey on foot to the eternal city undertaken in fulfillment of a religious vow. She had pledged herself to make a pilgrimage on foot to see the Pope, if her dying son were restored to health. She reached the eternal city footsore and weary but triumphant to have attained her goal.

From her native village the penniless wanderer set out for Oporto, Portugal, whence she crossed over to Santiago de Compostella, Spain. Ahead of her lay the scarred slopes of the Pyrennes, which proved the most difficult part of the journey. But her religious faith never forsook her. Mother Marcelina spent three months on the road, enduring with equanimity the physical suffering that such a long march entailed. She had not a nickel in her pocket nor a passport to identify her when she started on her adventurous journey. A small bundle of clothes hanging from the end of her stick were her only possessions.

When after a long day's hike she became exhausted she would knock at the door of a cottage begging for shelter and a meal. She stated on her return that throughout the long journey across four countries she was treated with kindness. All went well until she reached the Italian frontier, where her passport was demanded. As she carried none the tireless old lady tramped back to Nice, where she provided herself with the necessary document.

When this unusual pilgrim finally reached the Vatican City fresh dim-

Mackenzie King Govt. Cuts Us Out Of 602,354,53

ACCORDING TO RETURNS TABLED IN THE HOUSE OF COMMONS LAST SESSION, PRINCE EDWARD ISLAND RECEIVED THE FOLLOWING SUMS OF MONEY GRANTED UNDER LEGISLATIVE GOVERNMENT:

HIGHWAYS GRANT	\$ 459,696.28
AGRICULTURAL GRANT	58,817.54
TECHNICAL GRANT	83,840.71
Total	\$ 602,354.53

PREMIER MACKENZIE KING HAS CUT OUT ALL THESE, MAINTAINING THAT IT IS A "THOROUGHLY VICIOUS PRINCIPLE" TO GRANT PROVINCES ANY SUCH GRANTS. IF HE BE RETURNED TO POWER HE WILL VERY PROBABLY CUT OUT OTHER PROVINCIAL GRANTS AS WELL, FOR HE TOLD THE HOUSE OF COMMONS, AND REITERATED THE STATEMENT WHEN QUESTIONED, THAT HE HAS COME TO THE CONCLUSION THAT THE PRINCIPLE OF GRANTS FOR OLD AGE PENSIONS IS "THOROUGHLY VICIOUS" AS WELL. WHAT HOPE HAVE WE FROM A PRIME MINISTER HOLDING SUCH CONVICTIONS?

One Tariff Policy For All

"It will be the duty of the Conservative party to prove that our tariff, controlled by these who have experience in truth, operates as well in the service of the consumer as the producer. A tariff properly framed, administered and controlled, would ensure to the Canadians markets, and domestic competition would guarantee fair prices.

"For we do not believe that any section of the community should prosper at the expense of another. If, after investigation, there is any producer of this country levying excessive charges upon the consumer I will put a stop to it.

"I know, too well, the difficulties under which the producer has been working; the uncertainty as to the tariff; the consciousness that any day may bring changes through the action of foreign Governments or through the irresponsibility of our own; the instability of markets and the difficulty of developing a constructive plan of development; in many cases have made high prices to the consumer without reasonable return to the producer.

"The employment by the Conservative party of the principle of national safeguarding will not permit any producer to avail himself of our protected measures to unfairly profit at the expense of the consumer. For the protection of the Conservative party will apply equally to the four great masses of the country: the agriculturist and the worker, the manufacturer and the consumer. And I propose that any government of which I am the head will at the first session of Parliament initiate whatever action is necessary to that end, or perish in the attempt."—Hon. R. B. Bennett at Winnipeg, June 9, 1930.

culties awaited her. The Swiss Guards refused to believe her tale, but her sincerity and physical condition touched the hearts of the pontifical guards who led her into the Holy Father's presence.

FAMINE IMPROVES IN STRICKEN AREA CHINA PROVINCES

SHANGHAI, July 26.—The famine situation in north China is more hopeful now than it was 12 months ago according to a report made by J. E. Baker, of New York, of the China International Famine Relief Commission, who has completed a survey of Shensi and Shansi provinces. "It is still bad, very bad," Mr. Baker points out, "but there are several hopeful factors present that promise a few less thousand hunger victims during the next few months.

"Splendid snows during the winter and frequent rains this spring have produced an excellent crop on the Sian plain of Shensi and the harvest is a sight to gladden the eyes of any discriminating farmer. Wheat and barley, barley and wheat, as far as the eye can see." Until this crop is harvested, however, thousands will die, according to Mr. Baker.

"On the streets of Sian city and Sian villages, thousands of poor wretches are to be seen, dragging their painful way from one garbage dump to another, huddled in a corner to rest or stretched out in the prelude to final sleep," he says. "They are living on the same kind of food as do the dogs of Peking. They are frightfully emaciated, their clothes are in shreds and many are in the advanced stages of disease. They have no land to plant; no tools with which to work, no job, no home. During the summer, the large portion contrive to exist in weeds, gleanings and garbage but when cold weather comes, they will stiffen during the night and in the morning the burial squads will drag them out by the scores and drop them into the trench outside the city wall."

hurricanes, and even forest fires, is of great importance and will be used this year by the weather bureau. How the study of static reveals the probability of forest fires was not explained by the scientists, but it is said to work extraordinarily well with fire starting from natural causes.

The farmers here are busy at their hay, which is a good average crop and as a result of the ideal weather with sunshine, soft breeze and an occasional shower this crop is being harvested in splendid condition.
