Express Fear For Can. Wheat Crop

CHICAGO, July 14—(A.P.)—Abrupt late upturns swept wheat prices late today to new record peaks, with public speculative buying again on a large scale.

A sharp reversal of early weakness of Winipeg wheat quotations accompanied the late rise of values here, and there were reports that temperatures in parts of the Canadian wheat belt had fallen as low as 40. With forecasts indicating no material change from near freezing weather, traders expressed anxiety as to the safety of the Canadian crop.

Wheat closed buoyant at the day's topmost figures, 2 7-8-4 1-4 cents above yesterday's finish, corn 1 1-8-2 cents up, oats unchanged to 1-2 higher, and provisions varying from seven cents decline to a rise of 12 cents.

INSPIRING CENTENNIAL SERVICES

Tributes Paid To Faith of Pioneers at East Point Baptist Services Yesterday.

At the centennial services of the East Point Baptist Church yesterday morning Mr. Gray, pastor of the church at Dundas, led the devotional service and in his address emphasized the importance of Patience, Prayer, Persistancy and Power in our christian work.

The address for the morning was given by Rev. Dr. H. G. Mellick, who gave an account of the "Great Revival" of 1874 under the evangelistic leadership of the late Rev. D. G. MacDonald, when in seven weeks services 85 were baptized and six restored to fellowship in the church. Two of the converts were the late Rev. J. A. Ford, M. A., and Dr. Mellick himself. They both entered the ministry. Mr. Ford was a man of brilliant gifts and eminently successful in his ministry. Dr. Mellick besides serving churches in St. John, N. B., and other centres, gave 19 years to mission work in Western Canada, where for several years he served as superintendent of Baptist Missions in that vast field. He spoke of some of the background of that revival. The sturdy character of

The market was still lively, though volume dipped to 4,244,440 shares from yesterday's three-year record breaker. Wheat's strong finish, an improvement in cotton and a new high for the bond composite helped the general average for all markets.
