A splendid patronage is again rewarding the Charlottetown Business College for the excellence of its training. Already a great many new students are in attendance, and if present indications point to anything, the C. B. C. will be filled during the term.

Among those who are at present visiting the Island Province is the Rev. Eldora Cavanaugh, Professor of Science in St. Francis Xavier College, Montreal, a man of considerable note in the scientific world. It was he who was elected by the Dominion Government last year to make observations of the total eclipse of the sun, and he has done exploratory and scientific work in the Labrador and throughout Canada.

Each evening the number of appreciative listeners to the music on the French flagship Kleber, now in port has been growing. Those who have had the opportunity to hear the band of the ship have testified to their enjoyment in words of sincere praise. It has been suggested and The Guardian can endorse the suggestion, that if Admiral Chery could be prevailed upon to permit the band of his ship playing in Queen Square Gardens this evening, the citizens would enjoy a rare pleasure. The bandmaster and his men are evidently musicians of a high stamp than it is usual to find in the general run of visiting bands.

Entries continue to come in for the Guardian's Bicycle Race on Wednesday, August twenty eighth. Those furnished in writing should have "Road Race" on corner of envelope. There will be thirteen positions for those who finish; the person taking first place this year gets twenty-five points, the second twenty-three, the third twenty-one and so on down the odd numbers and including one, the thirteenth man who finishes receiving the one point. Thus the winner of the largest aggregate of points in the three years' racing will receive The Guardian's magnificent Bicycle Trophy now in the window of Prowse Bros. Ltd. The winner of the largest number of points this year is entitled to the handsome medal kindly offered by L. E. Prowse of Prowse Bros., Ltd., the winner of second place obtains the magnificent trophy by W. N. Tanton, Jeweler, that of third place the large silver butter cooler by the Canada Cycle and Motor Co., Ltd., the fourth place an exceedingly neat silver medal by W. E. Moran, of the Union Commercial College, and the fifth place one half dozen cabinet photos by J. A. S. Bayer of Gaavin Gentsel & Co. There are no restrictions as to the kind of bicycle to be used providing it is not propelled by her than the rider.

The Correct Adjustment of glasses is a matter of considerable importance. The beneficial effect of one's glasses may be largely nullified by ill-fitting mounts. We pay particular attention to the correct fitting of mounts, so that the full benefit of the lenses will be obtained. We supply the lenses of such shape and size as will be most becoming in each individual case. This is possible because we grind our own lenses and make them any desired shape. Our methods of examination give the best results. Try us. G.F. Hutcheson. Jeweler and Optician
