At Snowy Springs the pumping plant formerly used to supply Moosejaw is threatened. The fire department rushed from here found the flames within a few feet of the big gasoline tanks with one man fighting hard for the safety of the plant.

A great many persons who are expected to hand in generous subscriptions could not be seen and it is the intention of the committee to continue the canvass on Friday with the purpose of bringing the total to the amount of the \$45,000 required in order to obtain the \$5,000 additional subscription which has been offered.

MORE SUFFRAGETTES SENTENCED TO JAIL MANCHESTER, April 23.—In sentencing two militant suffragettes, Mrs. Farster and Miss Manesta, at the Manchester assizes today Justice Sir John Eldon Bankes said: "I would send you round the world in a sailing ship, if the law permitted me so to dispose of you."

House resumed at 3.15—Hon. Speaker Wyatt in the chair. On motion of Dr. Dewar the House went into Committee to consider a bill entitled An Act to amend and consolidate the laws of this province relating to Public Health.

THE PREMIER stated that he had not been consulted in the preparation of this bill, although the matters dealt with belonged properly to the Attorney General's Department. On examining the bill he found it had many weak features which were very much more effectively provided for in the Criminal Code. Even if the bill had merit he regarded it as a bad precedent to introduce bills, especially those designed to change existing laws and to impose penalties, without consulting the Attorney General. He moved that the Speaker take the chair.
