Say the Suez Canal Co. Whose Reductions Were in No Way Connected With Panama Canal

(Canadian Press.)
PARIS, Aug. 23—The Suez Canal Company declares that it is a mistake to imagine that the reduction of Suez Canal dues is in any way connected with the Panama Canal. The directors of the Suez Canal Co., have not, they say, even thought

of reprisals against the Panama Canal, in reply to reports cabled here from America stating that a canal rate war was predicted in Washington and that this would involve all maritime nations of the world. Increases in dividends is stated to be the cause of the reduction.

N. B. GARDEN CROPS POOR.

FREDERICTON, August 21—Reports from Marguerite and Sheffield where market gardening is carried on to a large extent are to the effect that the tomato crop is almost an absolute failure. This has been the result of the backward spring and more particularly the wet weather, during the past few weeks. In ordinary seasons a large quantity of tomatoes is raised in St. John market. The conditions which are prevalent in Marguerite and Sheffield as far as tomatoes are concerned exist also in all districts where this vegetable is raised. Cucumbers are reported also to be a very poor crop as a result of the unfavorable weather. Other garden vegetables are up to the average however and potatoes are expected to be better than usual.

News of the find was given out at the District Attorney's Office this afternoon but the name of the place where he has been found is not forthcoming. It is understood that the gunman has not yet been placed under arrest.

(Canadian Press.)
NEW YORK, Aug. 23—All the forces of the state attorney's office with the aid of a squad of private detectives were directed today to ferret out evidence of police graft. When Justice Goff convenes the extraordinary session of the grand jury on September 3, District Attorney Whitman, proposed to lay information before the court that several persons can supply valuable information of police blackmail. With the filing of this information scores of subpoenas will be issued for various John Does, who will be summoned to court to tell the truth or go to prison.

With the formal arraignments today of five of those charged with the murder of the gambler Herman Rosenthal concluded. District Attorney Whitman proposes to direct his attention for the next week or so in hunting evidence for use in the John Doe inquiry, which, because of its scope will be able to obtain evidence that could not be developed at the murder trials. This information will, it is hoped, be available for the trial of those indicted for the killing of Rosenthal. District Attorney Whitman has information that he will lay publicly before Justice Goff, that no less than four inspectors and three civilians are involved in police corruption which has netted them hundreds of thousands of dollars from disorderly and gambling houses. The grand jury was expected today to inquire into the charges that Police Lieutenant Becker directed that "Big Jack" Zelig be arrested and a gun placed on his person that Zelig might become the tool of the police lieutenant, and furnish the gunman to kill Rosenthal. The two police lieutenants, Steinert and White, who arrested Zelig, may be indicted for oppression.

\$125,000 CONTRIBUTION

(Canadian Press.)
WASHINGTON, Aug. 23—John D. Archbold told the Senate committee investigating the campaign funds that the Standard Oil contributions of \$125,000 to Republicans in 1904 was made on assurances from Cornelius Bliss that it would be acceptable to Roosevelt and that further contributions would be acceptable.

(Canadian Press.)
WASHINGTON, August 22—John D. Archbold, of the Standard Oil company will appear tomorrow morning before the sub-committee of the senate investigating campaign contributions. The announcement that he would appear followed a day of bitter political recrimination on the floors of the Senate, devoted to an effort to show that the former President Roosevelt knew that funds contributed by big corporations were used to help elect him in 1904.

The attack on former President Roosevelt today originated in a colloquy, between Senator Reed of Missouri, democrat, and Senator Boise Penrose, of Pennsylvania, who presented a resolution demanding an investigation of the circumstances set forth in his statement to the senate yesterday in which he charged that \$100,000 of Standard Oil money went into the 1904 Roosevelt campaign fund with President Roosevelt's knowledge. Senators Penrose, Reed and Williams, each attacked Colonel Roosevelt and Senator Poindexter, of Washington, supporter of the new progressive party, came to his defence. Senator Poindexter charged that a combination of regular republicans and democrats was at work to defame Colonel Roosevelt.

Alleged contributions of \$100,000 each by the Missouri Pacific and Southern Pacific railroads to the Roosevelt campaign fund in 1904 were mentioned by Senators Reed and Penrose. Senator Reed also declared that President Roosevelt was always in close touch with the national committee managing his campaign.

When the colloquy between Senators Penrose and Reed was concluded Senator Reed made an extended speech, attacking Roosevelt, reopening the question of the \$250,000 collected for the republican campaign in 1904 by E. H. Harriman, and the record all the so-called "Archbold" correspondence recently published. Senator Reed also attacked George W. Perkins, at present one of the leaders of the new progressive party.

When he concluded Senator Poindexter took the floor and characterized the day's proceedings as a "combination, an understanding, an alliance," between the machine republicans and the machine democrats against principles.

RETIREMENT OF SIR MAX AIKEN.

MONTRÉAL, Aug. 22—The Star says:—The retirement of Sir Max Aiken from the presidency of the Royal Securities Corporation means more than the ordinary change in the executive head of a big financial corporation.

It was organized by Sir Max in 1905, and was among his first financial ventures of importance, and he naturally took a keen pride in its growth and development.

His retirement from the active management at this time forebodes his gradual withdrawal from active participation in Canadian financial affairs.

The illurements of English public have drawn him away from the land of his birth, and it is likely Canadians will see him, but seldom in the future, although they may hear a good deal about him.
