AMERICAN NURSE SAILS FOR EUROPE

NEW YORK, Nov. 3.—Mrs. Harry Payne Whitney, who was Miss Gertrude Vanderbilt, will sail tomorrow for Europe on the Lusitani with a staff of four surgeons and fifteen trained nurses, to establish at her own expense a large field hospital behind the firing line in Northern France. Ten motor ambulances, a large quantity of medical supplies, and clothing sufficient for 3,000 men, women and children, all purchased by Mrs. Whitney as a part of her undertaking, were shipped to France last Saturday on the steamship Chicago.

NEW SKIRTS JUST BELOW THE KNEES.

CHICAGO, Nov. 2.—The old fashioned ballet girl will be the model for 1915 fashions, Chicago modistes declare. Four inches or even more will come off the bottoms of the skirts, which will reach only a short distance below the knees.

MILLION DOLLARS WORTH OF HARNESSES FOR THE BRITISH ARMY.

ST. LOUIS, Mo., Nov. 3.—Contracts for an aggregate of \$1,000,000 worth of harness for the British army, part of a \$6,700,000 order placed with a firm in South Bend, Ind., were submitted to the War Department yesterday. The entire order is for 20,000 sets of six-horse harness. A saddle is required for every other horse. The equipment, therefore, will be comprised of 60,000 saddles and 120,000 harnesses. The hardware for the harness is to be furnished by firms in Canada and England. The St. Louis firm will be allowed twenty weeks in which to fill their part of the order.

WAR BRINGS WAVE OF PROSPERITY TO UNITED STATES.

NEW YORK, Nov. 4.—As a result of the many orders received in the United States from the warring nations of Europe, a wave of prosperity is sweeping over the manufacturing companies as never before. Many factories are running on double time and others have a greater volume of business on hand than in the last five years, and factories, meat packers and ammunition plants are turning out war orders as fast as possible. Great Britain has bought 30,000 horses among its vast purchases, and New England concerns are turning out 2,000,000 pairs of shoes and boots for troops. The record barley crop has been sold, and California is exporting huge shipments of grain, fruit and fish.

GERMANY'S WORST MISTAKE THE KAISER FORGOT CANADA

From the London Daily Sketch. At the moment when thousands of refugees were landing in England from Antwerp, something was happening on another part of the coast. The wounded soldiers of the Canadian Volunteer contingent of Canadian Volunteers had come to Plymouth.

Could any moment have been better fitted for Canada would be proud if she could know that her help has come in the hour of need. It was the chief fear of our Indian troops when they landed in France that they might be too late for the fighting. So with the Canadians we need them, as we shall need every man now training in Great Britain—and you others who are still making up your mind to join.

THREE MONTHS OF WAR DEVASTATED LARGE FRENCH AREA.

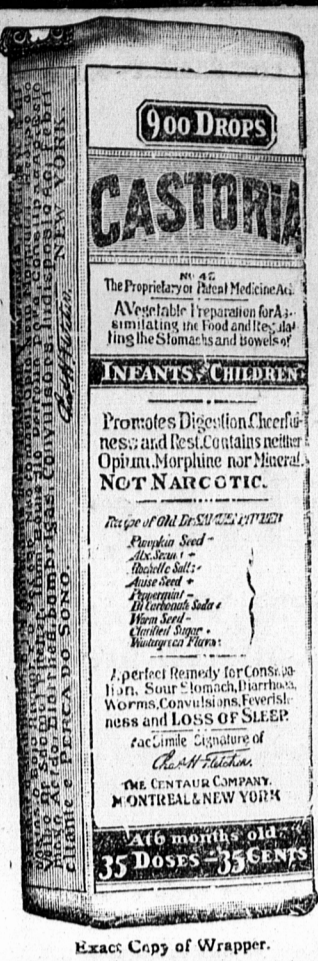

PARIS, November 3.—Three months of war have made an immense change in the country where battle after battle has been fought between the armies of a strength that has never before assembled. About the north-eastern corner of France, which in July of this year was a land where industry and agriculture flourished, now lie the ruins of bombarded cities and villages, shattered houses, farms devastated, and fields torn up and crisscrossed with deserted trenches.

Where the troops executed heroic deeds, where the cavalry dashed across in desperate charges or the artillery fought terrific duels, the land is now strewn with debris—broken cases and remnants of other equipment and smashed carts and automobiles, while marshy and boggy spots are covered here and there with dead horses, which are gradually sinking into the soft soil.

Everywhere there is appalling misery, but the people, mostly children and old men, many of whom have lost their all and some who have lost sons or husbands in the line of battle, maintain their spirits with remarkable stolidity. Nothing seems to break their spirits as they look forward patiently and with confidence for liberation from the powerful invaders.

From the immediate vicinity of the fighting ground all over France are groups of soldiers awaiting the call to take their place at the front. Every one follows with interest the progress of the allied troops. Virtually every household has a map on which the positions of the armies are marked as they are given in the daily communications.

The German endeavors to break the Allies wings or burst through their lines at other points have been frustrated, while the British fleet joined in the battle with disastrous effects upon the German columns which were trying to force their way toward Dunkirk and Calais.

PAPE'S DIAPEPSIN
FOR INDIGESTION OR BAD STOMACH

Relieves sourness, gas, Heartburn, Dyspepsia in five minutes.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapepsin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get regulated, please, for your sake, try Pape's Diapepsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapepsin. There will not be any distress—eat without fear. It's because Pape's Diapepsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapepsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.

A Racing Stable For Sale

Owing to circumstances I will not be in a position to race a stable of horses next year, so I am offering for sale my string of five horses---the leading money-winning stable of the Maritime Provinces of 1914, one that can go out and get the money in 1915. Every horse is sound and right, two of them sensational horses for their classes, good enough for the Grand Circuit. These horses were gotten together at a cost to me of several thousand dollars. I will sell them at very reasonable prices, but if I cannot realize a fair part of my investment, I will enter them and race them throughout the Upper Canadian Ice Circuit where, I believe, they will win at least a part of their cost and then sell them there. They will be on the market for disposal until November 12th. If not sold by that date, Helen R., Dr. Sharper, and Miss Alcyone will be withdrawn from sale and entered as above stated.

Helen R. 2.12 1-2.
Gray mare, seven years old, by Harry K., son of Major Strathmore, 2.08 1/2. Helen R. is one of the best bred animals living. Her extended pedigree will be shown by me to anyone interested. She was taken along easy this year and previous to her mile at Charlottetown had never been asked to step faster than 2.15. In an effort against time she paced the mile during Exhibition week in 2.12 1/2, last half in 1.05 3/4, last quarter in 32 1/2 seconds. She is better than a 2.10 pacer over a half mile track. She is game and can race any number of heats—raced nine heats in three days at Halifax, each heat averaging 2.18 1/2, and it was only fun for her. This mare can do 2.04 over a good mile track next year. She is high-class in every respect, easy to drive and perfect mannered. At the price I am offering her she is the cheapest pacer in the world today.

As it was my intention to stake Helen R. heavily in 1915, she was kept eligible for the slow classes. Her win race record is 2.44 3/4.

Dr. Sharper, 2.18 1-2.
Bay gelding, breeding unknown, probably seven years old, leading time Provinces, fastest gelding in the Maritime Provinces in 1914, trotted the fastest heat ever trotted in the Maritime Provinces in July 1914, timed by four watches, mile in 2.14; was a public mile again this fall under unfavorable conditions in 2.15 3/4. Dr. Sharper is a sensational trotter; he is one worth staking on the big line, should trot a mile over the big rings next year in 2.07 or better. He has improved in manners and never makes a break now. Should be a grand horse next year, as his improvement has been very marked this year.

Miss Alcyone, 2.18 1-2.
By Alcyone Boy, 2.17 1/2. This is one of the greatest little race mares in Canada today; won nine races in one month in 1913; was the third largest money winner in the Canadian Ice Circuit in 1914. Up to the Ottawa meet, the only horses which defeated her were Eel Direct, 2.08 1/2, Tredell, 2.10 1/2. We did not have her just right this year, but she was capable of a mile in 2.16. Next year she should pace in 2.14 or better as six different horses which she has defeated at various times have this year taken records under 2.14.

Orwell Belle, 2.19.
Win race record 2.23 1/4, still eligible for the 2.24 class. This mare is so well known that we need not give any description of her. At the price she is a bargain either as a race mare, brood mare or driver.

Alfred K.
Green Trotter, no record, was separately timed while in a race at Halifax in 2.22; extra good ice horse, good driver, good horse for any kind of work, great fun horse; should be able to make a great showing in the ice races here during the coming winter. Price is right.

If anyone is prepared to buy the three first-named horses in the above lot, or the entire outfit, I will be glad to make a special price on them, also on their boots, harness, sulky, etc. The whole outfit is complete in every detail. This stable earned upwards of \$2,500.00 in 1914; should do even better in 1915 and can be made a profitable investment.

The stakes and purses in the Ice Racing Circuit this winter will total upwards of \$50,000. Three of the horses mentioned above should be able to win enough to pay for themselves in these stakes, and as ice records do not count they would still be eligible for their classes next year.

Write, wire or telephone before November 12th to D. A. MacKinnon, c/o Canada Fox Exchange, Charlottetown, P. E. I.
