

Don't Cough at Night

Don't let that irritating tickling in the throat keep you coughing most of the night. Don't let it annoy you during the day. Stop it—cure it completely with

NADRUCO
Syrup of Tar
with Cod Liver Oil Compound

It breaks up the cold; heals the inflamed membranes of the throat; relieves, soothes, cures. It's wonderful how much better even a few doses will make you feel. Very pleasant to the taste; even children like it. Keep a bottle always in the house. None genuine except in a Red Package bearing the trademark Na-Dru-Co.

Manufactured by National Drug and Chemical Company of Canada, Limited

Every Barrel,
Just Like Every
Other Barrel

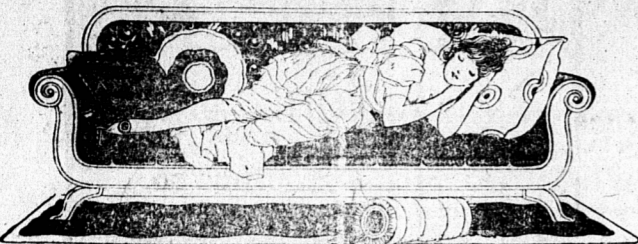

One reason why the Pies and Cake, Bread and Rolls always turn out right when you use

BEAVER FLOUR

is because the flour is always the same. It is milled from blended Ontario fall wheat, strengthened with western spring wheat. Being blended in exact proportions, Beaver Flour is always the same in strength and quality; and always gives the same results, no matter what or when you bake. It will be a change for the better when you change from western wheat flour to Beaver Flour, milled from blended wheat.

DEALERS—write us for prices on Feed, Coarse Grains and Cereals.

THE T. H. TAYLOR CO. LIMITED, CHATHAM, Ont.

BEAUTY and durability, these are the combined points achieved in Mercury Fashioned Hosiery. Every Mercury Hosiery is form fitting, not stretched into shape. Designed with narrowed ankle, shapely full-fashioned calf, extra wide, roomy top and without seams to mar comfort or appearance.

It is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

MONDAY

FOR EVERY BEREAVED MOTHER.—Major-General Mewburn, Minister of Militia, announces that a silver cross hung from a purple ribbon would be given to every mother who had lost a boy at the front. Eight war memorials are to be erected to the memory of the Canadians who fell overseas. One of them would take the form of a Hall of Records, while the others would be memorials commemorating the fallen.

At a meeting of the Executive Council Wednesday morning Dr. Goodwill was appointed Superintendent of Falconwood Asylum. It is expected the doctor will enter on his duties about the first of December.

If this appointment means that Lieut. McDonald is to remain in charge of the Falconwood Farm it will meet with general approval. It will be remembered that the only reason why Dr. Goodwill resigned this position was that he objected to separate management of the farm.

The Executive also reduced the number of School Inspectors to six, two for each county. In the re-arrangement two new inspectors were appointed, Messrs. Vernon Crockett of York for Queens, and Mr. Frederick Bell of Cape Traverse for Prince. Mr. John A. Stewart of Dunstons was appointed commissioner for taking acknowledgement of deeds and Messrs. Donald J. Ross, Flat River and Archibald Mathison, Bellevue Justices of the Peace.

A contract has been awarded to the firm of Healy and S. Lowe, of Brighton and North River Roads, a building to be used as a Country Club. The promoters are a number of young business men of Charlottetown.

The building will be of the California bungalow type, and will be a frame structure, 65 by 90 feet, built upon a concrete foundation.

It will provide a large ballroom with a floor space 60 by 30 feet. On either side of the ball-room will be a large tea and grill room. From the tea room French doors will open on to a spacious porch, which in summer time will afford an outdoor tea room and refreshment place.

The main entrance from the North River Road, will take one into the main lobby, where offices, cloak rooms, and ladies dressing rooms are to be provided for the guests.

In the centre of the main lobby will be a soda fountain which will be in keeping with the general scheme of decorations. Backing the fountain and facing the ball-room is to be a raised platform to accommodate the orchestra. The decoration scheme is to be of novel design. The tea room, grill and lobby will be finished along Tudor lines, timber and plaster combined.

The main hall, in keeping with a country club is to be carried out in rustic effect our own Island birch being used as a decorative motif, making an altogether charming arrangement typical of rural outdoor surroundings.

Provision has been made for automobile parties and the parking of the cars. The plans for the building were prepared by Mr. E. S. Blanchard, graduate architect of McGill University, who has recently returned from overseas where he served with the famous 26th Battalion and was wounded. He practised his profession in Montreal for three years after his graduation, or until he went overseas. His many friends here will be pleased to learn that he has decided to locate in Charlottetown, his native city, with offices in the Bank of Nova Scotia chambers.

It is the intention also to have in connection with the club a tennis pavilion and bowling on the green. The club is to be available for those who wish to entertain and hold functions of a public or semi-public nature and doubtless it will prove to be a very popular institution.

The work of building will start immediately.

GENERAL DEBILITY FOLLOWING INFLUENZA

STRENGTH CAN ONLY BE REGAINED BY ENRICHING THE BLOOD

Following a wide spread epidemic of influenza, general debility is on the increase, and its effects may be noticed in the worn listless appearance of so many of the men and women you meet. Influenza always leaves behind it impaired vitality, and with the modern condition of life that use up nerve force so rapidly, general debility becomes one of the most common maladies. The symptoms of debility vary, but weakness is always present. There is poor digestion, languor, weak aching back, wakefulness at night, often distressing headaches and a feeling of fatigue. These symptoms indicate impure and impoverished blood. It is significant of nearly every attack of influenza that it is followed by anaemia and debility.

For all such run-down conditions, new blood is the most reliable cure. sufferers should at once begin to make thin blood rich and red with Dr. Williams' Pink Pills. Under a fair treatment with this medicine they will realize more and more the health-restoring influence of good rich blood, and how this new blood brings a feeling of new strength and increased vitality. Proof is given in the case of Mrs. G. Robertson, Wingham, Ont., who says:—"When the Spanish influenza spread over our town I happened to be one of the first attacked, and the attack was a very severe one, and worse still the after-effects of the trouble left me in continuous misery. I had severe pains in my side, felt low-spirited, and with no ambition whatever. My head ached almost continually, my eyes felt heavy, and pimples broke out on my face. I was advised to try Dr. Williams' Pink Pills, and after taking them for a time I felt like my old self able to do my housework, and feeling well and strong. I can strongly recommend Dr. Williams' Pink Pills for the serious after-effects of influenza as I am sure they will restore all sufferers to good health."

You can get these Pills through any dealer in medicine or by mail, post paid at 50 cents a box or six boxes or \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

FOX MEETING.—The annual meeting of the Seal River Fox Company was held Saturday. A very successful year was reported, and it is expected that a good dividend will be paid. This company, it may be noted notwithstanding the war and other untoward circumstances, has been paying dividends right along. The same board of directors was re-elected.

VICTORY LOAN.—Provincial Headquarters report that a large number of subscriptions from rural sections came in on Saturday and for excellent amounts. If the weather improves this week the country canvassers should turn in many subscriptions. The canvassers in Charlottetown intend to begin an aggressive canvass today and every person should respond to the best of their ability. If you cannot purchase a large Bond buy a Bond anyway if only for \$50 and wear your button. Results of last year show that bonds of \$50 to \$500, amounted to \$11,000,000. The town of Georgetown is reported to have secured 80 p.c. of its objective and will probably win the Prince of Wales honor flag very shortly.

TUESDAY
—FOR TREATMENT.—Mr. Geo. Arsenault ex-soldier, Summerside has gone to Charlottetown where he will enter the Rena McLean Memorial hospital for further treatment to his injured hand which was badly mutilated by gun shot while at the front. Mr. Arsenault has only partial use of his hand and is therefore much handicapped for labor.

—HYMENEAL.—On Oct. 22nd, the marriage took place at the Methodist Parsonage, Kensington, of Miss Dorothy B. Sutherland, daughter of Mr. William D. Sutherland, to Mr. Blaise R. Bowen, son of Mr. William Bowen, Wheatley River. Rev. J. A. Ives performed the ceremony. Miss Margaret Sutherland, sister of the bride, was bridesmaid and Mr. Calvin McKinnon was groomsmen.

AUTO ACCIDENT.—Mr. George A. Shaviv, a well known commercial man met with painful injuries a few days ago. He was on his way to Montague in his Ford car when it skidded, the road being very slippery owing to the frost coming out of the ground. The car turned turtle and Mr. Shaviv was thrown quite a distance. He received quite a shock to his back and leg receiving the worst injuries. He came to Charlottetown Saturday but it will be some days before he will be able to get along with his usual lively step.

RECEPTION.—Rev. A. F. Bates and Mrs. Bates, (nee Miss Warburton) held their post nuptial reception at the rectory of the Parish Church, Fredericton, N. B., last week and were assisted in receiving their numerous visitors by Mrs. Smithers, who introduced the guests. Mrs. Bates wore her wedding gown of white satin with pearl trimmings. Mrs. Fred Allen invited the guests out to the tea-room, where Mrs. Neales and Mrs. Cowie presided over the daintily arranged table covered with cyanthemums. Miss Mary Smithers, Mrs. Fred Bennett, Mrs. Justin McGrath and Mrs. M. W. Black assisted.

VICKERSON—McPHERSON.—A very quiet but pretty wedding took place at the home of Mr. and Mrs. A. D. McPherson on the morning of Wednesday, October 22nd when their daughter Jessie May was united in marriage with George Vickerson of Charlottetown. The ceremony was performed by Rev. R. H. Stavert in the presence of a number of the immediate relatives and friends of the contracting parties. The wedding march was played by Mr. Wilbert Drummond. The young couple were unattended. The bride, who was given away by her father, looked charming in a navy blue serge travelling suit with hat to match. After a dainty breakfast Mr. and Mrs. Vickerson left on the morning train on a short wedding trip for Boston and other American cities. On their return they will reside in Charlottetown. The Guardian joins in wishing the young couple many years of happy wedded life.

Mrs. George Plover, (nee Katie McDonald), who passed away at the Head of Montague on Sabbath, Oct. 26th, was one of the most worthy women of her time. She was the daughter of the late Donald McDonald, of Ufgs, and was the last living member of that family except the Rev. D. G. McDonald of Vancouver, who is still active in the ministry at the age of 70. Another brother was the late Hon. Malcolm McDonald of Georgetown.

Mrs. Plover was born August 1st, 1833. In her young womanhood she married George Plover, Head of Montague, who predeceased her 14 years. Of seven children born to this union, two only are living, Mrs. Hill, of Newburyport, Mass. and Peter, of New Hampshire, who was present at her funeral. Three others died early, and Mary Ann, of Head of Montague, and Mrs. W. N. McLeod, of Valleyfield, passed away a few years ago.

Mrs. Plover was of a most genial disposition, and although helpless for a few years, with the loss of her limbs, still her general health was good until a few weeks before her death, and she could move about in her wheel chair. Her hands were always busy at some helpful task. For several years she made her home with her niece, Mrs. Donald Nicholson, and here she received the gentle ministrations of a truly Christian home, and here she passed away.

Her life was a benediction to all who had the privilege of knowing her; her faith and hope the outcome of a consecrated life. Early in life she confessed her Savior and united with the Baptist Church, but her Christian love was broader than any creed.

A week before her death she planned for her funeral service, and expressed the desire that she would fall asleep at the end, which she did without a struggle on the above date.

The funeral service was conducted by the pastor of the Orwell Presbyterian Church, who expressed his appreciation of the many times her courageous, helpful words inspired him. She was laid away in Ufgs Cemetery, near her birthplace. Many relatives and friends will miss her, but she has gone home to be forever with the Lord.

How OXO helped the British Aviators

to make their famous non-stop flight across the Atlantic.

Interesting letter from Captain Sir J. Alcock, K.B.E., D.S.C.

"You will be interested to learn that OXO was a great help to us during our Trans-Atlantic Flight; it sustained us wonderfully during our 16 hours' journey. We had found out what a good thing it is when flying in France, and so decided to carry it with us on this occasion, and we can assure you that hot OXO is most acceptable under such cold and arduous conditions. OXO was the only article of its kind which we carried."

J. ALCOCK, Capt., D.S.C.

OXO steadies the nerves—keeps the brain alert—gives extra warmth to resist cold and exposure—extra strength to fortify against fatigue, and yields an abundance of energy out of all proportion to the amount taken.

Prices same as before the war
10c., 25c., \$1.15, \$2.25.
