—CORRECTION—An error occurred in the account of the meeting of the Kinmenen Club of Summerside which appeared in yesterday's Guardian. It stated that the club would sponsor a show at the Capitol Theatre beginning on November 18th. This should have read November 26th.

—EVEREADY and General, Radio and Flashlight Batteries at the Summerside Hardware.

—FUNERAL OF FRED C. MURPHY — The funeral of the late Fred C. Murphy was held yesterday morning from his late residence to St. Mary's Convent Chapel, Summerside, where Requiem High Mass was celebrated by Rev. Howard Wight. Present in the sanctuary were Rt. Rev. Msgr. G. J. MacLellan, Revs. D. J. McNeill, North Rustico; W. V. McDonald, Seven Mile Bay, and Eugene Murray, Summerfield. Members of the Knights of Columbus attended in a body. The service at the grave was conducted by Rt. Rev. Msgr. G. J. MacLellan. The pall bearers were: Dr. J. C. Simpson, Dr. Austin Deane, T. E. Hickey, J. P. McInnis, E. Schurman, Roy Silliphant, Alex. Horne and Wilfred Gaudet.

—WEEK OF ART—In connection with the Week of Art being held in Summerside, Miss Nora McCullough of the National Art Gallery, Ottawa, showed a number of films in the High School Auditorium on Wednesday night. The first film was entitled "Wartime England", and depicted music and art in England during the war. The second one called "West Wind" was the life of Tom Thompson, a great Canadian painter. "The Hands Are Sure" was a most interesting film that described the arts and crafts that have been developed in the Province of Quebec. The last film was entitled, "Listen to the Children" and showed the children's musical festival held in Winnipeg. Miss McCullough was introduced by Mr. Clarence Mercer. The final programs of this cultural week will be held today, at 2:30 p.m. there will be a demonstration for teachers on creative art teaching and at 8:00 p.m. there will be a lecture called "The Art of Children in Place in Their Education," illustrated with slides.

—METAL ALLOY — German silver is an old name for the ancient Chinese alloy of nickel, copper and zinc.

Surplus Potato Crop Problem Discussed By S'side Board Of Trade

At the regular monthly meeting of the Summerside Board of Trade held last evening the problem of saving the large surplus crop of potatoes in the Province was discussed.

A. R. Brennan heard from various sources that there was some prospect that the dehydration plant would resume operations and felt that due to the fact that there was a surplus of potatoes that it would be a good idea to reopen the plant. He felt that the government should take some steps to have operations resumed or to provide a market for the dehydrated potatoes and thus take care of surplus crop. He could not see why it is not a feasible proposition a plant built at such a cost should not be allowed to go into disrepair if any pressure could be brought to bear in the proper quarters.

Mr. Donald Baker pointed out that the plant in Summerside was the only plant in the Maritime Provinces that could operate at this time due to the fire which destroyed the others in our neighboring provinces.

Mr. Austin Scates said that his company had foreseen the present conditions and had intentionally refrained from dismantling the machinery to dehydrate potatoes, as to how long it would take to get into operation Mr. Scates said that one difficulty facing the company was to procure cans. During the war the company had a priority on cans due to war work but this priority no longer existed. Another obstacle to the opening of the plant was the fact that the town would not allow the company to use the town sewers for the disposal of the effluent of the plant. Mr. John E. Campbell pointed out the conditions which residents had borne with due to the stench arising from the dumpage of the by-product into the harbour.

100,000 Bushels A Day — Mr. Scates said that the plant could handle one thousand bushels of potatoes a day, working on a day and night shift.

Mr. L. R. Allen said the plant in Summerside was the only plant in Canada which dehydrated potatoes exclusively. He also pointed out that unless something was done a large crop of potatoes would be lost unless storage was found, and suggested that the large sheds at the airport might be used if some method of heating them was available.

Mr. Donald Baker moved that through our Federal representatives contact be made with the government to see if the prevailing conditions could be relieved.

Regarding the resolutions passed by the local board some time ago regarding the additional car ferry services to handle the automobile traffic and also a better air line service to this Province.

Mr. Brennan said that these resolutions had been passed to the Board of Transportation, and since both these resolutions dealt with definite transport problems, handing them to this board would have a definite beneficial effect as this was an active body and best results could be expected. He said that in conference with air line officials that a reasonably early readjustment of air trips to the Province and an allotment of seats for passengers to the Island would be made at the earliest possible date.

SUMMERSIDE, P.E.I. THE HOUSE OF QUALITY

Labor Uncertain Of Fate In New Congress

WASHINGTON, Nov. 6 (AP)—Some labor leaders expressed the view today that sentiment for strike-control legislation may be stronger in the next congress. They based this view on the general trend of the election results and the personalities of the candidates who won and those who were beaten, and not on the fact that the Republicans won control of the Senate and House of Representatives.

Both American Federation of Labor and Congress of Industrial Organization officials said they expect the Republican leadership will have the 1948 presidential year continuously in mind and will seek to refrain from antagonizing labor. James B. Carey, C.I.O. secretary-treasurer, told a reporter he felt the Republican leadership would be "very careful to avoid making labor or angry."

But labor officials noted that some of their strongest defenders in Congress, including many backed by the C.I.O. political action committee were defeated. They noted, too, that constitutional amendments to outlaw the closed shop apparently were adopted in Nebraska, South Dakota and Arizona—the three states where the proposal was on the ballot. Massachusetts voters approved a proposal to require unions to make public financial reports. No matter which party had won, new Labor legislation was certain to come up for consideration in the new congress.

What it does in the Labor field probably depends more on the strike situation than on which party is in control. A serious strike wave this winter would inevitably bring powerful support for drastic Labor laws. Roll-call votes of the last session show that, on numerous questions, Republicans were more ardent than Democrats in supporting proposals to restrict union activities.

Mr. Brennan said that these resolutions had been passed to the Board of Transportation, and since both these resolutions dealt with definite transport problems, handing them to this board would have a definite beneficial effect as this was an active body and best results could be expected. He said that in conference with air line officials that a reasonably early readjustment of air trips to the Province and an allotment of seats for passengers to the Island would be made at the earliest possible date.
